

INSTRUCTIONS:

Here are the instructions to print your card deck.

Ensure you have cardstock paper available for printing, as it makes for a more solid affirmation card.

Open the PDF file containing the affirmation cards on your computer or device.

Select the option to print the document and in the print settings, choose "Best Quality" to ensure clear and crisp printing.

Print. The file size is US Letter.

After printing, allow the ink to dry completely before handling the printed sheets.

Carefully use scissors or a paper cutter to cut along the designated lines, separating each card. Take your time to cut carefully, as this will result in neatly trimmed affirmation cards.

If you have any trouble or have questions about printing the affirmation cards, please don't hesitate to reach out for assistance.

Enjoy your affirmations!
