Action Steps

Self-Assess: Reflect deeply and rate yourself on each of the indicators on a scale of 1-10, with 10 being the highest.

Identify Gaps: Any indicator scoring below 7 needs introspection and action.

Strategize & Realign: For each gap identified, develop a personal strategy to improve. For instance, if "Personal Resonance" is low, consider revisiting your initial motivations or seeking inspiration.

Regular Reflection: This isn't a one-time checklist. Reflect on this quarterly to ensure continuous harmony between your passion and the business's strategy.
