Mission 13

THE FINANCIAL SUPPLY CHAIN

Welcome back, Director!

In the simulator, you learned how companies build amazing products and ship them around the world. But there is one final, top-secret chain you need to master:

The Money Loop!

THE MONEY LOOP

Money doesn't just appear by magic, and businesses don't give their products away for free. To buy the things you want, you need capital.

But where does that capital actually come from?

It travels in a giant, never-ending circle!

Money moves from big businesses to hard workers, from those workers to their families, and finally... it reaches YOU.

Understanding how to get in the middle of this loop is what separates a regular kid from a true Young CEO.

They use that cash to pay their workers.

STATION 2: THE VENTURE PARTNERS (YOUR PARENTS!)

Your parents work hard for a business.
In exchange for their time,
they earn a "Salary".

STATION 3: THE YOUNG CEO (YOU!)

By doing chores and completing
home missions, you earn an "Allowance"
for your hard work!

STATION 4: THE CASHFLOW DECISION

It's your money now!
Will you spend it at Station 1,
or save it to build your wealth?
