PROBLEM SOLVING & DECISION MAKING LAB

A Dynamic Learning Experience

Tackle a series of individual and group challenges, learning and applying a powerful range of techniques to analyse problems, generate potential solutions, evaluate options, assess risks and make stronger decisions.

Learn how to make decisions under pressure, during uncertainty, when priorities compete and when circumstances are changing.

Develop Problem Solving & Decision Making Capability

The cycle of demonstration, practise, review and further application builds capability and confidence.

Learn To Apply Powerful Tools, Techniques & Frameworks

A comprehensive set of techniques are provided that address all stages of the problem solving and decision making cycle.

Recognise Biases & Decision Making Traps

Recognise the traps, biases and blind spots that can distort analysis, limit perspectives and lead to flawed decisions.

Develop Personal & Group Skills

Strengthen effectiveness in solving problems and making decisions both independently and with others.

Make Decisions Under Pressure & Uncertainty

Handle incomplete information, changing circumstances, time pressure, competing priorities and high stakes situations.

OUTCOMES

Solve problems more effectively

Make sound decisions

Apply powerful techniques

Develop personal proficiency

Work more effectively with others

Build greater confidence

OPTIONAL POST PROGRAM SUPPORT IN WORKPLACE APPLICATION

Reinforcing the program's content, encouraging action and assisting each participant in applying and sustaining their learning in the workplace.
