LEADERSHIP PROGRAMS

INFLUENCING & NEGOTIATING LAB

Develop the skills, techniques and confidence to influence and negotiate more effectively. Strengthen your personal presence, ability to adapt your communication style, engage with others and gain commitment.

BUSINESS SIMULATION

Build commercial acumen and interaction skills by leading a business as part of its senior leadership team. Make strategic and financial decisions and see the consequences through successive rounds of decision making and review.

LEADERSHIP ACCELERATOR

Develop the confidence and skills effective leaders require in eight critical areas of leadership. Experience a highly interactive program involving real scenarios leaders face, learning and applying practical techniques to address them.

SENIOR LEADER DEVELOPMENT

Strengthen the impact you have on your team, stakeholders and the wider organisation, developing critical skills in six key areas of senior leadership. Gain greater confidence in how you lead and contribute at a senior level.

PROBLEM SOLVING & DECISION MAKING LAB

Develop your ability to make stronger decisions individually and with others. Tackle a series of challenges and build your repertoire of analytical, assessments and decision making techniques through repeated application and review.

DRIVING INNOVATION & CHANGE

Develop the ability to proactively identify opportunities for improvement and lead change effectively. Explore how to create an environment that encourages innovation, turn ideas into action and engage others in adopting new ways of working.

SENIOR LEADERSHIP TEAM DEVELOPMENT

Understand how you and your senior leadership colleagues currently work together and how to strengthen your contribution and the team's performance. Based on the Lencioni Five Behaviors® model and your team's unique challenges.
