WHAT IS MASTER RESELL RIGHTS?

Master Resell Rights (MRR) is a license which grants the holder the right to resell a product such as software, online courses, E-books, and videos to others and keep 100% of the profits!

Unlike standard resell rights, MRR allows the purchaser to not only resell the product, but also sell the rights to resell to others. This unique positioning makes it a potentially very lucrative business opportunity for marketers + entrepreneurs.

With MRR, the original product creator retains the copyright and intellectual property rights, but allows others to sell and distribute the product as if it were their own, with some restrictions depending on the specific terms of the license.

BRANDING + OWNERSHIP

Here is the best part....

One of the most exciting aspects of Master Resell Rights is the ability to brand products as your own.

With my Course, Your Fearless Fortune in partnership with Roadmap to Riches, you will learn how to customize + personalize your own sales funnel and email marketing system for you to resell your course! Keeping everything streamlined for your OWN creative Brand!

But what if you don't have your own brand?

Glad you asked! Well, then we will help you create one! This is a really fun process and our community offers so much support and the classroom modules will show you step by step how to do this!

Also, remember this... this digital course is packed with everything you need to create your own digital products! You don't have to resell this course unless you want to - but WHY NOT? It is a DONE-FOR-YOU product that is ready to be branded, packaged and sold by you for 100% PROFIT!

AUTOMATION

PASSIVE INCOME ON AUTO PILOT

Learning how to select your Niche, your digital product/s, and create your branding precede setting up your sales funnel. This course will teach you EXACTLY step-by-step in video modules how to create a system that eventually works for itself. This is absolutely an A-Z course. Anyone who is successful with making money online will tell you the same thing - without automation.. it isn't possible to truly scale!

RECURRING ACTIVITY IS SIMPLE

Once your systems are setup along with your email campaigns, which again will be taught to you inside the course, you will learn how easy it is to manage and then scale your business. Continuing to fill your funnel with leads to promote your digital products to is what you can then focus on - since the system you set up on time then works by itself over and over again! And yes.. you are also taught how to drive traffic to your offers and how to create the content to market + advertise!

APPLICATION OF INFORMATION APPLIES TO AN BUSINESS!

So what if you want to learn about how to digital market products, but you don't want to use the Master Resell Rights component that is attached? No problem! You don't have to.. Just use this information and run with it! It's perfect for Affiliate + Network Marketers too! You will always have 100% lifetime access to the course and it is constantly updated with the latest updates and trends as they arise.
