

Hi Fellow Trader:

We are excited about this new service we are offering called "Deuterium Stocks." These stocks are as rare as the isotope Deuterium and so it felt like the right moniker.

We'll be gauging the level of interest in this service to determine if it can manage as a standalone service or if we'll roll it into one of our other services.

If you find value and like the analysis we provide, please share it with your social media tribe.

Our club motto for years has been "Surf the Stock Market's Biggest Waves" and the MM Pattern which is what this service is built around has been one of our most powerful trade strategies for the past two decades.

Think stocks like HANS, TASR, NVDA, ERS and many others that went on to huge gains off of this cycle-based trading setup.

If your current style of trading is lacking in results, overly complicated or just counterintuitive to what you see happening in the markets, maybe it's time for a fresh new approach.

So, we are going to keep this simple for now until we see if there is significant demand for this product. You'll be able to access the Deuterium Stocks report generally by late Sunday evening via our Twitter feed at www.twitter.com/kahuna_club Set notifications so that you don't miss out on the report.

You can learn more about the MM Pattern and Big Kahuna style trading [HERE](#)

And again, if you like the analysis and think it would be helpful to other traders, please share our Twitter and social media links.

Let's Rule The Freakin' Market's Together!
