THE #1 BEST ONLINE BUSINESS MODEL TO START IN 2023

NEVER DEAL WITH AN MLM, BITCOIN SCHEME, SHOPIFY, AMAZON, OR PITCHING LOTIONS, POTIONS, OR PILLS AGAIN!

Hey, Robin Sullivan here

Do you want to know the #1 Best Online Business Model To Start In 2023?

If so, you're in the right place.

A little bit about myself. This year I hit a milestone birthday...60!

Feels strange saying it out loud. I certainly feel younger than my age.

I have three grown children, A son 39, a daughter 36 and

my youngest daughter who graduated high school this year

is 18. My husband is my best friend (I know that sounds cliché, but it's true)

Now that the kids are all over 18 and doing their own things, it's time for us. One of the things we want to do is travel. Whether it's on a motorcycle, camping, or flying to a

destination. Of course, the downfall is that we need to wait until we have the money or the time off from work. Or so I thought! Being diagnosed with breast cancer and

surviving in 2020, I set out with a different attitude and a new desire to do things I put off. I am going to live my life and do it on my terms. Being a survivor means that for

some reason my time should be spent doing, helping, and teaching. I have made it my mission to create more income and free up more time. We spend most of our lives

working to pay the bills leaving us with little or no money to actually enjoy anything.

Have you ever watched a colony of ants? They work every day doing the same task over and over with no break in the cycle. What exactly are they working towards? Sure,

once in a while you see a few strays breaking free, but for the most part, the majority of them stick to their job until their life cycle ends. And what do they get for all that work?

I for one am tired of seeing the paycheck go into the account just to watch it go out

again. I want something more! We shouldn't have to work our whole lives to just retire and sit around until we cannot do anything else but sit. I'm not waiting until retirement

to go see and do things. If you feel the same way then...

I'm so happy you're here... it means you're hungry for something different in life.

Are you willing to learn?

Are you open to making a real change in your life?

Are you open to taking real action to change the path you are on?

By the time you finish reading this, you will know the #1 model to learn and launch in 2023.

WHY IS IT SO EXTRAORDINARY?

Because I have finally found a way to make money online that works extremely well for ordinary people

You might assume that in order to create an online business you first need to...

- Have your own products to sell
- 100s of thousands of \$\$\$\$\$\$ in capital
- Years of development and education
- Sourcing products from china
- Quit your current 9-5 just have time to start

The truth is NONE of what I mentioned above is true and if you believe the above, you will stay STUCK.

Let me share a bit more about myself.

Since I was a teenager, I have worked in a fast food chain, a nursing home as a certified CNA (loved my residents, but didn't like the pay), and in retail (didn't like the pay for the amount of work involved). I have cleaned houses, bartended and waitressed, and even tried a couple of MLM companies (love and still use the products) but the business side went nowhere. My friends and family were always hearing my pitches. But no one wanted to hear it.

Feeling defeated, I put it on the back burner.

I saw other people that were no smarter, or more deserving than I was experiencing success. What was the secret?

I just couldn't crack the code.

I'd send emails and text messages, letting everyone know about the sales or the newest products and what they can do, only to get back crickets and tumbleweeds, the pain of wasted time and money.

It made me even consider going back to the nine-to-five full-time.

Then something happened, a mom that I know from one of my business ventures was posting regularly about this program that anyone could do from home on their phone or computer. I tuned in every day watching until one day I clicked the link for information. She was making income from home, from her phone and I wanted to learn how. There is a course that can teach anyone how to become an affiliate marketer.

The cost was \$7 and I wanted to give it a go. I don't know about you, but I'm ready to take charge of my future and learn a new skill that can change my life.

WHAT YOUR FUTURE LOOKS LIKE IS COMPLETELY IN YOUR HANDS.

Gone are the days when you need to stay in a dead-end job for several years for a, maybe 3% raise.

We can and should design the life WE WANT to live.

You can work from anywhere.

You should be able to travel if you want to.

You don't need to put up with unreasonable bosses and ridiculous demands on your schedule and livelihood.

You don't need to go into massive debt to get that college degree that you never ended up using.

You can choose to see your kid's baseball game or dance recital, instead of dealing with a boss that is always telling you "no."

You can build a retirement fund and generational wealth for your family.

It's NOT too late!

The people that jump right in are the people who are eager to learn, committed to change, and ready to take charge of their future.

You don't need any major tech skills, huge startup costs, or marketing experience to get going.

THIS IS TOTALLY DIFFERENT THAN ANYTHING YOU'VE SEEN OR TRIED.

There's so many gurus screaming about the latest fad gimmicks.

But let me save you a lot of wasted time here.

Shopify, Amazon, pitching lotions, potions, and pills to your Facebook friends for your latest MLM or Bitcoin Ponzi schemes are all A WASTE OF TIME.

Most of those all revolve around selling worthless products for teensy weensy, little commissions, or they require serious skill and experience to be successful.

There's one business model that stood the test of time year after year, and has helped more newbies make money online than anything else.

Are you ready for the formula?

Brace yourself.

It's marketing valuable, high ticket products and services that actually help people.

If you want to maximize your success as fast as possible, the valuable products have to have high enough profit margins.

So that one or two sales per month allow you to create a positive impact for yourself and your family.

With freelance digital marketing, you're finding the best selling, most valuable high ticket product and then marketing it to people already in the market to make a purchase.

They already want to buy. They're ready to buy. You just have to find them (and hint... I'll show you ...)

Digital Marketing

What is it?
