By the end of the course, you'll have a toolkit of fresh ideas that will make **your classroom a vibrant and dynamic learning environment**. Enroll now and take the first step towards a **more fulfilling and rewarding teaching career**.

AN INTRODUCTION

MNTTA (Montessori And Nursery Teachers Training Academy) - A pioneer training institute in Bengaluru, offers an internationally benchmarked Montessori and Nursery teacher training program that trains students in **Early Childhood Care and Education (ECCE)**.

This **6-month training program** is comprehensive and accredited, and it prepares students to work with children in the age group of **3 to 8 years**.

This course is designed to be accessible and convenient for a variety of students having **graduation in any discipline**, including working professionals, mothers with young children, school owners/management, entrepreneurs and college students.

MNTTA's curriculum aligns with the **National Education Policy (NEP)** which introduces a **flexible and holistic curriculum** that focuses on the overall development of the child, rather than just academic achievement. It also emphasizes the importance of **experiential learning and the integration of sports, arts, and other co-curricular activities** into the curriculum.

WHY MNTTA

MNTTA's **hybrid learning model** combines traditional in-person classroom instruction with online learning. It allows students to access course materials and complete assignments digitally, while also providing the opportunity for face-to-face interaction with teachers and peers.

Flexibility: Hybrid learning allows students to learn at their own pace and on their own schedule, which can be especially beneficial for those who have other commitments or responsibilities.

Personalized learning: With hybrid learning, students can work at their own pace and focus on the areas they need to improve. This can lead to a more personalized and effective learning experience.

Access to resources: Hybrid learning allows students to access a wide range of digital resources, including videos, interactive activities, internationally certified trainers and an observation opportunity in a reputed school, which can enhance their learning experience.

Cost-effective: Hybrid learning can be more cost-effective than traditional in-person instruction, as it can reduce the need for commuting cost and time.

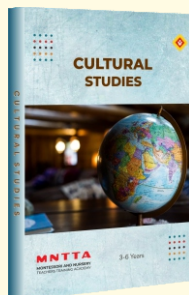

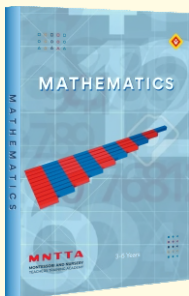

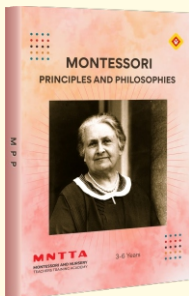

DIPLOMA IN MONTESSORI

TEACHER EDUCATION

The MNTTA **Diploma in Montessori Teacher Education** (3-6) is an intensive programme designed to help interested candidates to understand that **children have an innate desire to learn** and that the most effective way for them to do so is through **self-directed, hands-on exploration and discovery**.

Montessori education places a strong emphasis on **independence, self-regulation, and respect for the individual child**. Classrooms are typically multi-age, with children of different ages working together and learning from each other.

Course work will consist of **theory lectures, video presentation of activities, supervised hands-on practice sessions, assignments, observations and periodic assessments**.

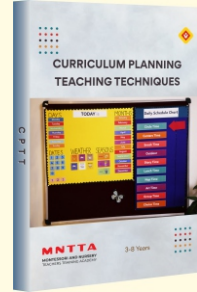

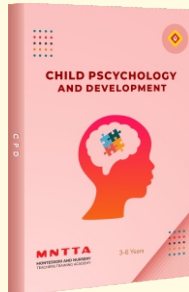

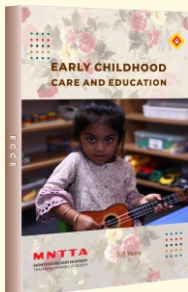

DIPLOMA IN NURSERY

TEACHER EDUCATION

MNTTA Diploma in Nursery Teacher Education (DNTE) course has been carefully structured and integrated with the classroom teaching, case discussions, hands on industry experience including internship and observations.

It covers essential aspects of creating a learning environment and teaching various subjects like language, mathematics, environmental studies and social studies to the preschoolers in an interesting manner.

The goal of this program is to **transform graduates into confident and competent educators.**

ALUMNI SPEAK

I was working in an IT sector and had taken a break. Wanted to continue working. I wanted to take up some job with flexible timings so that I can manage family and home both. Also, I had a passion for teaching, wanted to do a course on Montessori. I came to know about MNTTA through my son's school Principal.

MNTTA's course was a perfect fit for me as it offers complete flexibility without compromising on the quality of training and its delivery. Videos for each and every activity helped me to clearly understand the concept which might not be possible in regular classroom delivery model.

Sudha Ramachandran
Bengaluru

One of the best decisions of my life to do a Diploma in Montessori Teacher Education from MNTTA. International standards are followed with optimised curriculum and best of the Mentors are there to guide you. I had to switch my profession to fulfill my inner calling to be an Educator and MNTTA helped me do that in the right way.

I got a job in a reputed international school even before completing my diploma. The course has not just helped me become an educator but also helping me become a better mother. Thank you MNTTA.
