

Your First Digital Sale

Blueprint

A step-by-step roadmap for making your first \$500-\$1000 online — without confusion, tech stress, or burnout.

LET ME SHOW YOU HOW I STARTED

Even when I didn't have a damn clue what I was doing

You've seen it everywhere:

People selling digital products, making money online, building freedom from their laptops. And yeah... it looks amazing.

But when you try to figure it out, it feels like you're staring at a mountain with no map:

- What the hell do I even sell?
- How do I get people to buy it?
- What if I screw this up and look stupid?

This is the shortcut I wish I had.

No fluff. No hype. Just a clear-as-day path to your first digital sale—even if you're brand new, totally overwhelmed, or still doubting whether you can really do this.

When I started, I didn't need another "just post every day" cheerleader or a 97-page PDF that assumed I knew what a funnel was.

- I needed something real.
- Something simple.
- Something that didn't make me want to throw my laptop out the window.

That's what this blueprint is.

If you're ready to stop thinking about starting—and actually start—this is where the damn thing begins.

**YOU DON'T NEED TO KNOW IT ALL.
YOU JUST NEED TO START.**

One rebel step at a time.

If you've ever thought:

*"I want to make money online but have no fcking idea how"**

"It all feels way too complicated"

"Where the hell do I even start?"

Then babe, this guide is for you.

I wrote this as the roadmap I wish someone had handed me when I was staring at a blank screen, feeling like I was already behind before I even started.

No tech confusion.

No "you must be perfect" BS.

No pretending you need to have it all figured out.

Just a clear, simple, step-by-step path to help you make your first digital sale — with your sanity (and soul) intact.

Let's break this down.

Together.

WHY DIGITAL PRODUCTS ARE THE SMARTEST (AND MOST BADASS) FIRST STEP

*"Sell it once. Profit forever.
That's digital freedom, babe."*

You don't need a team.

You don't need a business degree.

You sure as hell don't need to go broke just to get started.

With just a few simple tools (and zero tech wizardry), you can sell:

- A digital checklist
- A quick-start mini-guide
- A Notion template or Canva design
- A printable planner that keeps it cute and profitable

You create it once—and sell it over and over again.

- No inventory.
- No shipping.
- No extra cost every time someone buys.

That's why digital products are the move.

They're low-risk. Low-cost. And completely flexible around your life—whether you're working full-time, raising a family, or building your empire between coffee refills and chaos.

This isn't just smart. It's scalable. And it's yours.

STEP 1: START SELLING WITHOUT CREATING A DAMN THING

SELL SMARTER, NOT HARDER

Want the fastest way to start earning online?

- Skip the weeks of building from scratch
- Skip the stress of “what should I make?”
- Skip the burnout before you’ve even begun

Start with a product that’s already DONE.

When you use high-quality, pre-made digital products, you can hit the ground running today—no tech skills, design degrees, or years of experience required.

- They’re packaged.
- They’re proven.
- And they’re ready for you to customize, claim, and cash in on.

This is your shortcut.

Not because you’re lazy—but because you’re smart enough to stop waiting and start building.

“Sell a digital product that’s already done for you. Your future self will thank you.”

PICK YOUR PATH & PLUG IN

You don't need to start from scratch to start making money.

Here are three beginner-friendly ways to hit the ground running.

PLR Products (Private Label Rights)

Rebrand it. Customize it. Sell it like it's yours—because it is.

Think planners, mini-guides, templates, and toolkits you can make your own without creating a thing from scratch.

Perfect for: *creatives, coaches, and anyone who loves Canva*

Done-For-You Business Systems

These are your digital business-in-a-box kits.

Products? Funnels? Email sequences?

Just plug in your name and start selling.

Perfect for: rebels who want a shortcut without compromising style or soul

Affiliate Products

Want to ease in even more? Promote someone else's product and earn a commission every time someone buys through your link.

No tech headaches. No customer service. Just share and earn.

Perfect for: beginners who want profit without pressure

Here's the point, babe:

No matter which route you take, you're skipping the hardest (and slowest) part — product creation — and diving straight into your digital payday.

Smart. Scalable. Rebel-approved.

STEP 2: SET UP A SIMPLE STORE

GET PAID WITHOUT ALL THE TECH DRAMA

Now it's time to open your digital doors.

And no, babe—you do not need to build a fancy website or hire a tech team.

You can start selling today with one of these simple, beginner-friendly tools:

- Stan Store — *perfect for creators, digital offers, and selling straight from your social*
- Systeme.io — *all-in-one platform for funnels, email, and checkout in one place*
- Beacons.ai — a sleek link-in-bio tool that lets you collect payments instantly

In less than an hour, you can:

- Upload your product
- Connect PayPal or Stripe
- Add a headline and price
- Share your damn line

And just like that...
You're ready to get paid.

STEP 3 – POST CONTENT THAT MAKES PEOPLE BUY

SPOILER: YOU DON'T NEED TO GO VIRAL TO MAKE BANK

This is where most beginners freeze.
“But what do I even post?”

Here's the truth, babe:
You don't need to dance, go viral, or post 27 times a day.
You just need to be real—and really helpful.

Start with simple content that shows:

- Why this product even exists
- What problem it solves (and how fast)
- How it helped you (even if you're still on your journey)
- Real feedback or screenshots from others
- Behind-the-scenes, messy desk, or “day in the life” moments that show you're in it

Because people don't buy perfection.
They buy trust.

And you build that by showing up—consistently, honestly, and with zero pressure to be anyone but yourself.

Bonus tip:

Feeling stuck? Use tools like ChatGPT (yep, me 🤖) or the DMS Sales Content Bot to help you brainstorm, write, and repurpose your message like a boss.

*People don't need you to be perfect.
They need to see that you're real—and worth trusting.*

STEP 4 – KEEP SHOWING UP CONSISTENTLY WITHOUT BURNING THE F*CK OUT

Here's the truth:
Consistency beats intensity—every damn time.
You don't need to be everywhere every day.
You just need a rhythm that works for you.

Here's what helps:

- A simple weekly content plan (nothing fancy—just repeatable)
- A few evergreen reels that keep working while you live your life
- Story templates + daily reminders so you're never starting from zero
- A strategy that fuels you—not one that fries your nervous system

This isn't about showing up perfectly.
It's about showing up real. Rebelliously. On your own damn terms.

Because your people don't need another overly-polished expert...
They need you. The version that keeps showing up—even on the messy days.

Got just
1-2 hours
a day?

Focus on one thing:

**VISIBILITY
WITH VALUE.**

That's what builds
trust, traffic, and
your first digital sale.

*You don't need to go hard.
You need to go honest—and keep going.*

STEP 5 – ADD A SYSTEM TO SCALE BECAUSE \$500 IS JUST THE BEGINNING

So you've made your first \$500–\$1000?

Hell yes. Don't stop now.

This is where most people stall out—because they don't know what comes next.

But you? You've already proven it's possible.

Now it's time to scale it like a boss.

Plug into a system that gives you the tools, structure, and support to go bigger—without burning out.

With the right roadmap, you can:

- Earn weekly commissions that keep stacking
- Grow your audience with strategy, not stress
- Start creating your own product when you're ready
- Build long-term, sustainable digital income—on your terms, from anywhere

You don't need to reinvent the wheel.

You just need a system that's already rolling—and a space where rebels rise together.

*Making your first sale is the spark.
Scaling it? That's your f*cking fire.*

READY TO MAKE YOUR FIRST \$1000 ONLINE?

You don't need a full-time schedule, a tech degree, or influencer energy.

You just need:

- A ready-to-sell digital offer (not 100 hours of content creation)
- A simple way to show up online (without pretending to be someone else)

A roadmap that actually makes sense and works in real life
That's exactly why I recommend...
