INTRODUCTION

Hi there!

I'm Nina and I am a manifestation and business coach and my specialty is working with others using the Law of Assumption in order to help people manifest what they want.

The Law of Assumption was founded by the American mystic, Neville Goddard.

The Law of Assumption is a manifestation process that involves assuming something to be already to be true of yourself so that it can manifest into your reality.

With the Law of Assumption, I help others use their imagination in order to shift into the state of already having their desires.

Once they shift into the state of already having their desires, then their manifestations come swiftly into their reality.

www.manifestwithnina.com

We do this by imagining a scene that would imply that their wish is fulfilled and then my clients embody the state of already having their desire.

And with the power of two, I am able to imagine with my clients so that their desires manifest into their reality.

In a sense, I am manifesting with my clients by imagining and assuming that they already have their desires while they are also doing the embodiment work.

It's amazing how all of this works.

And now, I am going to share with you how you can do it too with the help of this guide that I've put together for you.

*"Persist in the feeling of the
wish fulfilled & it will
materialize in your physical
world."*

– Neville Goddard

How to Manifest Money Today

Need to manifest some extra cash in a pinch? I've put together this handy guide so that you can learn how you can manifest money today.

Let's get started!

Step # 1 – Ask for the Amount You Want

The first step you need to do is to make a conscious ask and jot down how much you want to manifest.

To make things easy, let's just start with \$20.

So in your journal write down: I would like to manifest an additional \$20 today. Or write it down below. There is something really magical about writing your goal down.

My Money Manifestation Goal:

How to Manifest Money Today

Step #2 – Know that it's already DONE

Now, that you've made the ask, I want you to know it's already done.

Imagine and think that you have already manifested the additional \$20 NOW.

You have already manifested the additional \$20 and it's now in your pocket or wallet. FEEL it real

How does it feel now that you've manifested this extra \$20? Journal out below what it feels like.

How to Manifest Money Today

Step # 3 – Imagination Exercises

The next step is to do some imagination exercises to help call it in.

Feel the \$20 in your pocket. See the hundred dollar bills in your wallet. Imagine touching the \$20. Imagine feeling the bills in your hands. Imagine counting out the money.

Now, tell your brain what you're going to spend this \$20 on.

Give your brain a task to complete. What will this \$20 will go towards?

Step #4 – Throughout the Day

Throughout the day, keep going back to that feeling and knowing that it's already done.

How to Manifest Money Today

Step # 5 – Take Inspired Action

As the day progresses, take any inspired action you might receive.

You could be inspired to create something, to message someone, or to do something that will lead to your additional \$20.

Take any inspired action that feels good without stressing out or acting like you don't already have the \$20. You want to take action like you already possess the \$20 in your hands.

Step # 6 – Receive Your Manifestation!

Then you receive your manifestation! By following these steps, you should see the \$20 come swiftly into your reality.

Remember, it is not your job to try to figure out the “how” the \$20 will come, it is your job to know that you already have it.

This is called embodying the state of already having your desire.

How to Manifest Money Today

Didn't receive your \$20 in the timeframe that you wanted it?

If you don't receive it, it's because you don't believe that you already possess it.

Tip: Don't give specifics as to where this money is going to come from, just act as if you already have it. Keep feeling as if you already have the money. It is in your pocket.

Don't let go of this feeling. It will soon manifest into your reality.

I love you so much!

xo Nina

Bonus!

Manifesting More Money

Now that you've manifested your \$20, let's play with larger sums!

Follow the steps as outlined as before, but pick a larger number like \$500 or \$1,000 or more.

Then go to the store and look at things you want to buy. Look at the prices and take a mental note of how much they cost or even take photos of the items you want to buy. Then imagine having already purchased these items.

Or go "shopping" online and find all of the things you would spend your extra money on.

As you are looking at the things you want to buy, imagine already having each item.

You own them now! Persist in this feeling of having already received your extra cash and having already spent it on the things you want.

Keep staying in that abundant vibe, and soon you will find yourself manifesting the money and the things you want.
