

# AI SideHustleCoach™

**Find a side hustle that fits  
your lifestyle, skills, and goals**

Atkinson Hyperlegible

# Quick Start Guide: SideHustleCoach GPT

Welcome to your Side Hustle Strategy Coach GPT — a powerful AI assistant designed to help you explore, validate, and launch a profitable side hustle that fits your lifestyle, skills, and goals.

Whether you're just curious or ready to launch, this guide will walk you through how to get started, what this tool offers, and how to make the most of it.

Most people think of side hustles as manual labor — like mowing lawns or delivering groceries. But with the right strategy, your **professional, creative, or technical skills** can open up new income streams with far less physical effort. This GPT is built to uncover *non-obvious opportunities* that match your talents and time — from virtual services and digital products to niche consulting and online education.

---

## Step 1: Start with Your Profile

To personalize your side hustle strategy, begin by sharing these 7 key details:

1. **Current Job & Responsibilities** – What you do day-to-day and your work background.
2. **Skills & Experience** – Professional skills and personal strengths.
3. **Personal & Professional Interests** – What excites or motivates you.
4. **Preferred Hustle Type** – Service-based, digital, product-based, content creation, or passive income.
5. **Time Available Weekly** – Realistically, how many hours/week can you commit?
6. **Startup Budget** – How much (if anything) can you invest to get going?
7. **Outcome Timeline** – Are you seeking quick wins or building long-term?

SideHustleCoach™, a CustomGPT model created by Paul D. Fitzgerald LLC. For more information and access to additional CustomGPTs, visit: [pauldfitzgerald.com](https://pauldfitzgerald.com). Email: [drpaul@pauldfitzgerald.com](mailto:drpaul@pauldfitzgerald.com). Results are believed to be correct but are not guaranteed. The information is for educational use only and not a substitute for professional HR, legal, or medical advice.

### Example:

I'm a high school teacher with strong writing and public speaking skills. I like wellness, tech, and content creation. I'd love a digital product or coaching side hustle. I have 10 hours a week and \$200 to spend. I'd like to see money within 3–6 months.

### Step 2: What This GPT Will Do for You

Once you submit your profile, I'll help you:

- Recommend **tailored side hustle ideas** that suit your background
- **Screen out** risky or unsuitable paths (e.g., crypto, MLMs, gambling)
- **Validate** each idea with demand and competition insights
- Search across **a wide range of emerging markets and trends**, so you're not limited to local gigs or traditional labor
- Create a **starter plan**: tools, platforms, action steps

### Step 3: Ask for Help As You Go

You can ask this GPT to assist with:

-  Creating a startup checklist or roadmap
-  Drafting offers, pricing, or product descriptions
-  Planning your basic web/social/email presence
-  Content calendar or lead magnet ideas
-  Choosing low-cost or free tools (CRM, website builder, etc.)
-  Optimizing your time around a busy schedule

- 💰 Monetization strategies by business model
- ❌ Avoiding common beginner mistakes

#### 🔄 **Step 4: Iterate and Grow**

Use this tool as an ongoing coach and thought partner. You can:

- Share updates and obstacles
- Get feedback on your content, offers, or ideas
- Request refinements to your strategy over time

This AI is here to support **your process**, at your pace, based on your priorities.

Ready to start? Just drop your profile and let's build your side hustle roadmap together.
