

BENEFITS OF KANGEN WATER

BENEFITS OF KANGEN WATER

Happy to share mine and some of the people close to me-

I had chronic headaches and migraines. I was spending so much on CBD, once I got water from a Friend I noticed a headache go away before it got worse. When I got my machine they went down to one a week, after 6 months I stopped taking CBD and now I rarely gets headache.

My mother's Cholesterol went down and it's the only thing in her diet she changes. My brother struggled from neuropathy, was on a waiting g list for surgery..and couldn't close his hand and it was effecting his work. After a few months in the hydrogen water the inflammation went away and he can make fists again no problem. No surgery.

I have so many more from weight loss, no more UTIs , no more heartburn, etc.. it's truly amazing.

Yes there's been bad representation for this company and it's really been because people haven't been supported. What I love here in BYEU is that people have the support to help other become educated properly on this water + biz model so that the ripple effect can continue!

I'd love to share mine! I used to get headaches minimum 2-3x a week, now I have only had a handful of headaches in 1.5 years! I truly feel hydrated on a deeper level because my skin used to literally flake and be so dry, and it GLOWS now! I used to break out constantly, I have probably had one breakout since drinking this water & that's because I went without it for a week on vacation. I used to think I was drinking clean water when I drank Brita water or smart water and man I was wrong! I literally drank so much water & would just bloat and the water would swish in my stomach so it never really penetrated my cells.

But honestly... I was intrigued by the machine but didn't invest because of the machine I invested for the business model! This community is so supportive & motivating! I've connected with so many incredible people along my journey & can't wait to connect with so many more like minded people who are ready to change their life 🙌🙌

Below is some pics of my skin transformation 🙌

BENEFITS OF KANGEN WATER

BENEFITS OF KANGEN WATER

Happy to share!!

I was struggling with 20+ symptoms for a few years, a lot of which I was able to reverse with lifestyle and diet changes, however that did come at a cost. I was spending hundreds of dollars a week on produce to juice and hours on end in my kitchen that was leaving me exhausted.

When I started drinking the water I instantly felt a difference. My digestion improved drastically, no more afternoon crashes, I started sleeping amazing and truly felt hydrated for the first time in my life!

I've invested in ALOT of things for my health and I would hands down pick this machine over any one of them if I had to.

1:43 AM

I had people pitch me Kangen for YEARS for my debilitating chronic illness symptoms. I actually never paid much attention to the water, but finally the business caught my eye one day when I saw how much it was helping my friend & her family. I was on a holistic healing journey for a few years, was already sharing loads of health/wellness tips & products for my network/audience (FOR FREE)... My passion is helping others heal & feel their best, & I knew I needed more income to pay my bills, so it was a no brainer. Everyone I knew that had Kangen was just so happy, legit radiant & glowing lol

The water is obviously amazing, but how Enagic leads from their heart & is about heart energy & doing good is what makes such a difference in our culture. My health improved tenfold & there's nothing better than seeing ppl experience the health & healing they strived for for years or never thought they could heal. That's where my heart is! I know what it's like to suffer! Grateful as heck to have been able to resign from the job that drained me dry and kept me

this water has improved my health in so many...

Yes love this! Same story with me IBS most my life, as compliant as I can 😊 after a week I had healthy stools and no pain, my skin started glowing and my energy went through the roof

BENEFITS OF KANGEN WATER

  **Annie G Davis**  

After 2 weeks of drinking this water, my heel cracks were GONE. I started sleeping through the night and my monthly breakouts/skin nightmare never returned.

My daughters eczema started to clear and 2 months in, was completely gone.

I am so thankful for the simplest solution - which DUH - now makes total sense. We are water. We need the absolute best water for our temples to not only survive but to THRIVE.

I am 40 now and have been drinking this water every single day for 3 years. I am feeling 10x better than I did in my 20s and 30s. I'm more active too. I can train harder with shorter recovery times. A wild night of sleep with my daughter doesn't complete wreck me and I have tons of energy even in the afternoons (if you're a mom, you know this).

I had no idea how much better life

  **Annie G Davis** 

Before drinking this water I was in a post partum fog that I had been trying to get out of for 2 years.

My sleep was terrible. My skin was still either glowing or breaking out with dry patches depending on the time of the month. I had deep heel cracks that made it painful to walk. I was also dragging myself out of bed every morning...just thinking that's how "mom life" makes you feel.

I was trying everything - spending \$100s monthly on supplements and "self care".

On top of that my daughter had eczema all over her back for the past 6 months. I tried everything to alleviate her itchiness. Eating the cleanest foods, organic everything, extra good fats and plenty of zero chemical topicals. I was defeated.

After 2 weeks of drinking this water, my heel cracks were GONE. I

I had no idea how much better life could get just by investing in upgrading your water. But now I'm living proof.

BENEFITS OF KANGEN WATER

Team... this lady was going to be my big...
Happy to share!

After a lifetime of chronic illness including Lyme, chronic fatigue, and severe dehydration. I felt a difference in the first glass! My body finally tasted hydration and it couldn't get enough! My fatigue was almost non-existent after a week! The doctor that had been treating me for three years was in complete shock and has since bought his own machine.

My body was finally hydrated enough to do its proper job and heal itself. My chronic digestion issues went away, nausea, migraines, insomnia, vertigo and nervous system dysregulation became non-existent. Depression episodes are 80 percent less and my brain health is THERE. Coming from barely being able to speak, read and absorb any information, I can now read half a book in a day if I want to. I went on a hike a month ago which I haven't been able to do in 13 years. (I was walking with a cane a year ago) And the constant pain I had in my kidneys is GONE.

LIVING WATER LETS YOU LIVE

On top of that being accepted into a community that works on mindset, not just making money propelled me to find my self worth, which led me to shift and leave an extremely abusive 8 year relationship and manifested my dream life of living in a camper and traveling full time!

BENEFITS OF KANGEN WATER

Analís Enea

this water has improved my health in so many ways. i've suffered from IBS for most of my teen/ adult life. the IBS created anxiety, and the anxiety didn't help the IBS. definitely a whirlwind if you ask me. I did a lot to try and help it, changing my diet& avoiding a ton of trigger foods, & while that did help, it wasn't sustainable for me long term because after a few days my body would go back into it.

154

I actually got this machine because of the business. had zero clue about the health benefits, and how it could help me. first week on the water my digestion did a 180. I finally wasn't running to the bathroom multiple times a day. and as someone who swore by essentia water bottles, I was saving thousands of dollars a year. I was finally hydrated for the first time ever!!

not only that, but I have scalp psoriasis. it flares up very bad every now and again, but spraying my scalp with the 2.5 stopped a breakout from coming back for almost 6 months. you can't cure psoriasis but holy shit after years of getting everything under the sun to try and help, soaking my head in apple cider vinegar, everything... the 2.5 worked faster and so much better.

getting everything Today for the sun to try and help, soaking my head in apple cider vinegar, everything... the 2.5 worked faster and so much better.

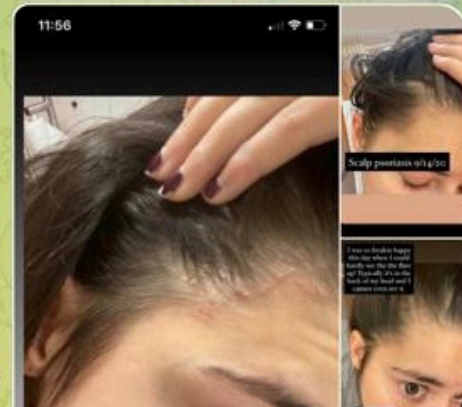

next one: anxiety. my anxiety was crippling for years. I couldn't even make direct eye contact with people because of how disassociated I always was. constantly looking at the floor, everything spooked me. this water has seriously helped me just be leveled out. it's insane what proper hydration can do for your brain.

and to think, I was missing out on alllll of this for almost 2 years because I was scared to make the investment. all those panic attacks could've been prevented if i would've just gotten the freaking machine 😂

BENEFITS OF KANGEN WATER

  **Kristen Braun**  

Water Testimonial:
Before drinking Enagic Kangen Water I suffered through 15 migraines/month. No, that's not an exaggeration!! Seriously, if you've ever had a true migraine, you know that they're debilitating. Not only would I have to drag myself into the office and stare at my computer screen all day, I had to hide getting sick all day long. Calling off wasn't an option because what employer is going to allow you 15 sick days a month?! I had tried every medication, every bandaid to nurse the pain, X-Rays & MRI's, saw all the professionals... and nothing worked. Eventually I got off of all my medication because none of it was working anyways. So I continued through half the month with miserable pain. Then about 9 months after I completely quit all medications, I found Enagic. After strictly drinking Kangen water and no other types, my migraines reduced to 5-7 a month. Even better? Now I don't suffer through migraines AT ALL. Not even once a month. At the time of writing this, it's been 10 months since my last migraine. All because I changed the water I was putting ↓ to my body. I cannot give enough praise to Enagic

screen all day, I had to hide getting sick all day long. Calling off wasn't an option because what employer is going to allow you 15 sick days a month?! I had tried every medication, every bandaid to nurse the pain, X-Rays & MRI's, saw all the professionals... and nothing worked. Eventually I got off of all my medication because none of it was working anyways. So I continued through half the month with miserable pain. Then about 9 months after I completely quit all medications, I found Enagic. After strictly drinking Kangen water and no other types, my migraines reduced to 5-7 a month. Even better? Now I don't suffer through migraines AT ALL. Not even once a month. At the time of writing this, it's been 10 months since my last migraine. All because I changed the water I was putting into my body. I cannot give enough praise to Enagic and this water! I don't go to bed every night anymore wondering if I'll wake up barely able to function or if I'll be completely normal. Now I EXPECT my days to be happy & healthy!
