

# Canva Confidence Quiz: What Kind of Designer Are You?

*Find out your Canva confidence level—and get custom tips to help you design like a pro.*

---

## How to Take the Quiz:

- Read each question and choose the answer that best fits you.
  - Write down the letter (A, B, or C) for each question.
  - When you're done, tally up your answers—your most frequent letter reveals your designer type.
- 

## Questions:

### 1. How do you feel when you open Canva?

- A. Totally lost
- B. I click around and get something decent
- C. I usually get what I want, but I know it could be better

### 2. What best describes your design process?

- A. I stare at a blank page and panic
- B. I use templates but modify a lot
- C. I've got a style, just need more pro tips

### 3. How consistent is your brand across platforms?

- A. It's different every time
- B. I try, but sometimes I wing it
- C. Pretty consistent, but not perfect

### 4. How often do you create content in Canva?

- A. Rarely—it's frustrating
  - B. A few times a month
  - C. Weekly or more

# Your Results:

## Mostly A's – The Reluctant Rookie

You're not sure where to start, and Canva feels overwhelming.

-  **Tip:** Focus on mastering the basics—brand kit, templates, and drag-and-drop.
  - *Start with a template, not a blank page.*
  - *Choose a template that's close to what you need, then swap in your text, colors, and logo. This removes the intimidation of a blank canvas and gets you posting faster.*

## Mostly B's – The Confident Explorer

You've played around in Canva, but your designs still feel a bit 'meh.'

-  **Tip:** Don't overcomplicate things.
  - *Limit your fonts and colors. Pick 2 fonts and 3 brand colors, then stick with them in every design.*
  - *This small change will instantly make your posts look polished and professional.*

## Mostly C's – The DIY Designer

You're comfortable creating, but you're ready to level up with more polish.

-  **Tip:** Learn Canva's power tools.
  - *Features like Magic Resize, background remover, and animation can take your designs from good to scroll-stopping and save you tons of time.*
