

Big Thanks from HerStoryDigital – You rock!

Hello Spreadsheet Enthusiast,

You've officially upgraded your planning game with my (and now yours) travel planner, and I couldn't be more excited for you!

Your support means the world to me and makes me do a little happy dance (which is both amusing and slightly embarrassing).

Now that you're armed with your new travel spreadsheet, get ready to kick some serious booty. You've got all the tools and functions you need to conquer your trip planning like a pro.

Here's the game plan:

Step 1: Make a copy of your new digital sidekick – it's faster than a caffeinated squirrel. Click on the button below, it's a link. You'll be prompted to make a copy - go ahead and do that.

Travel Planner Spreadsheet - click here

Step 2: Dive in and start exploring. Don't worry, it won't bite (I promise). All the info you might need can be found on the **SET UP** sheet once you make your copy.

Step 3: Enjoy your trip / vacation, own your schedule, and make the most out of your dreams.

I'm here to support you every step of the way.

If you ever need help or simply want to say hi, I am one message away. We're in this planning adventure together!

So go ahead, light up those pixels, and let's make this spreadsheet your secret weapon for effective planning.

Quick guide

To open the link, you need a Google account and be signed in. When you click on the link, you'll be greeted with a pop up window - click on **'make a copy'**

Now you can start working in your spreadsheet. Please note, that you can edit anything you'd like. However, be careful, as some of the cells contain pretty complicated functions that, upon deleting, would disable some operations and calculations. For this reason you might see a pop up window with a warning. You can still edit the cell if you wish so. You can always go back to this document and save a new copy if you would like a fresh start.

Start by going to the **SET UP** tab - you'll find all the information there.

Check my [YouTube](#) channel as well, I add tips and tutorials as often as I can.

I create digital products with the hope they will cheer up, help and improve people's lives. You know the process of creating is done when it matches some kind of resonance. I hope I can transfer that over to you through this product. I'd be more than excited if it somehow improved your life, even by an inch.

I wish you the best of luck on your journey, whatever it is.

If you need anything from me, do not hesitate to send me a message at herstorydigital@terezamedina.com, I'll go above and beyond to help the best way I can.

Here's to all adventures called life!
