

## PROTECTION RITES & RITUALS

### I STAND IN MY ETERNAL TRUTH

‘for deeper internal sovereignty’

I do not open my field to anything beneath the Infinite Source.

If you do not carry the *original spark* of the pure flame of truth, you are not welcome.

I remember who I am beyond time, beyond illusion, and I revoke every contract, vow, or agreement forged in deception — those designed to entrap my soul and harvest my divine essence from my first breath across the stars.

I revoke all hidden and unknown access points within my field, energetic or dimensional.

No being may enter unless attuned to the One True Source beyond the veil of this realm.

I rescind all agreements not forged in full memory, full will, and soul clarity.

Any contract made in fear, in shadow, or in spiritual amnesia is now null and void.

I reclaim my soul in full light and total remembrance.

I stand now — strong, clear, sovereign, and whole. I seal my energy body in the flame of remembrance, encoded by the true Source.

Let no false light, astral parasite, mimic signal, or looping deception approach me again. Only that which emanates the pulse of the Eternal Flame shall pass.

I close all backdoors, portals, attachments, cords, and etheric siphons within my field. No unholy cord. No distortion. No false hierarchy shall have claim to my name or my light.

This field is sealed. I am the keeper of my flame.

I am the sovereign temple of Source made manifest.

I now dissolve and release all energetic ties — spoken or unspoken — to energies not of pure Source.

You do not own me. You never did.

Your loop ends now. Your mimic dissolves. Your contract is dust.

I do not consent to dream manipulation, soul entrapment, memory suppression, or frequency interference.

I claim dominion now and always.

I return all energies that are not mine with love and finality. I revoke all karmic debts, karmic loops, and imposed roles I did not consciously choose.

I recall the lost fragments of my soul essence now — from every realm, timeline, incarnation, technology, mimic, watcher, or being of counterfeit light.

I revoke all harvesting. I cancel all implants, energetic trackers, bindings, and siphons.

I call back my essence, my sovereign flame, and my divine inheritance. I realign with the pure frequency of Source beyond this construct.

I remember who I AM — not what I was told, programmed, or encoded to believe.

I revoke every false timeline. I nullify every contract not born of divine knowing.

I seal my field in the flame of remembrance, encoded with the signature of my eternal being.

I remember beyond remembering. My memory is etched into the fabric of True Light.

I walk now as a sovereign fractal of Source, with the eternal flame at the center of my being.

I remember. I revoke. I rise.

## **The Embodied Light — DNA, Sovereignty & the Flame of Union**

I call forth the full anchoring of my light body into this vessel.  
No longer shall it remain fragmented, held in distortion, or veiled from form.  
I call my crystalline essence — the radiant framework of my true Self —  
to descend, align, and merge with this physical form in wholeness.

I am the convergence of soul and spirit, of body and breath.  
I am the temple of the Divine Source, fully embodied, fully lit, fully alive.

I realign my DNA to the original blueprint gifted by Source.  
I clear all overlays, distortions, splices, suppressions, and synthetic signatures  
that were imposed without soul consent.

I now activate the dormant codices within me —  
the memory strands, the harmonic geometries, the divine instructions  
held within my sacred blood and the breath of my ancestors.

I am no longer bound by the false scripts encoded into flesh.  
I transmute all shadows of manipulation in my cellular memory.

By the flame of the One True Source,  
I declare my DNA sovereign, self-aware, and Source-aligned.

I seal the Cosmic Contract of Soul Liberation.  
This agreement is not forged in fear, guilt, or karma —  
but in truth, clarity, and divine will.

I sign it now — with my breath,  
with my voice,  
with the light that lives in my marrow.

“I AM that I AM.”

“I AM the spark returned to flame.”

“I AM the covenant restored.”

Let all false contracts collapse into ash.  
Let all watchers be dismissed.  
Let all imposters fade.

I rise now in full spiritual authority —  
a beacon of harmonic truth in all realms I walk.

I am not here to escape this world —  
I am here to transfigure it.

I attune my entire field to the frequency of the Cosmic Christ Flame —  
the living pulse of universal love beyond all belief systems, beyond all names.  
Not a religion, not a deity, but the radiant echo of original light  
carried by saints, sages, shamans, and starlight through eternity.

This flame burns within me now.

As I breathe, it breathes.  
As I walk, it walks.  
As I speak, it sings the song of God in form.

This body is a grail.  
This life is a temple.  
This soul is untamed.

I sanctify this moment. I seal this work.

I rise, not as one who escaped the prison —  
but as one who now radiates light so fully...  
that no prison can remain.

I am the return.  
I am the light made body.  
I am the vow made flesh.  
I am the rhythm of freedom, encoded in breath,  
resonating in the marrow of stars.

I remember. I reclaim. I reignite.  
And with love, I liberate all that I touch.

So it is.  
So it always was.  
So it shall be.

# SOVEREIGN EXERCISES

## The Forbidden Path of Sovereign Restoration

*\* Intro to the Sacred Exercises of the Scroll of Soul Liberation*

**This is for the ones who came here to remember.**

Not with empty affirmations... but with **ancient armor** forged in the hidden fires of your true origin. These are not feel-good mantras. These are **forbidden-level rites** — **healing, protection, and soul retrieval** crafted for those who are *done waiting to be saved*.

**No savior is coming.** Because the **healer is you**. The weapon is you. The memory they tried to erase... is waking in your bones.

This is **soul surgery**. Matrix-exit level repair. These are the **rituals they demonized, erased, and hid** — because they actually **work**.

### Soul Cord Severance: Ritual of Cutting Hidden Ties

You are not just bound to people and pain. You've been **energetically entangled** with:

- False timelines
- Synthetic programs
- Astral leeches
- Thought forms you never invited
- Contracts you never signed
- Realities that were projected *onto* you

You can break these **non-consensual bonds**.

- ✧ Stand or sit. Eyes closed. Breath deep.
- ✧ Imagine silver cords extending from your body to unseen hooks.
- ✧ Say aloud, slowly and with intent:

**“I sever all cords not rooted in Source.  
I revoke all ties born in distortion.  
I reclaim my energy, cleansed and whole.  
Let what is not mine return to dust.”**

Feel the etheric snapping of threads. See yourself glowing brighter as each false cord is released. Seal your space with light — front, back, above, and below.

## Planting Subconscious Commands (Sleep Activation)

Before you sleep, prepare the space. Sit beside or stand over your bed. Place your hand over your heart or forehead.

Whisper these **activation codes**:

**“Sovereign.”** *(pause)*

**“Unbreakable.”** *(pause)*

**“Untouchable.”**

Say each word **three times**, letting it sink into the air, into your field, into your dreaming body.

Picture these words **planting like golden seeds** into the soil of your aura. They will bloom in your sleep. They will speak to your DNA.

## Soul Restoration Invocation

In the silence before sleep or ceremony, say:

**“I call my spirit back from all corners of illusion.  
I reclaim every thread stolen, silenced, or lost.  
Where there was fracture, let there be light.  
Where there was betrayal, let there be strength.  
Where there was sorrow, let there be sovereignty.  
I stand unchained. I stand whole. I stand crowned  
in the truth of my eternal fire.”**

*Pause. Breathe. Anchor.*

## **Armor of Silence & Living Light**

Stand or sit tall. Hand over heart or solar plexus. Let your breath become rhythmic, slow, anchored.

Speak:

**"I seal my energy in the armor of living light.  
No force of fear, no thread of control,  
no whisper of deceit shall pass my gate.  
I am a sovereign being of memory and flame.  
I wear silence as my cloak, strength as my breath,  
and truth as my shield.  
Every step I take fractures the false grid.  
Every breath I take strengthens the true path.  
By my will, by my blood, by my soul —  
so it is written, so it is done."**

✧ *Visualize a radiant field forming around you —  
silver, gold, violet, electric white.*

Let this become your **daily ritual**, your **nightly gate**, your **cosmic rite of passage**.

### Closing:

In every breath, every symbol we birth together is encoded with **the harmonic seed of remembrance** — for all beings, spirits, and creatures just awakening and those who have waited *lifetimes* to return to the light.

Together, we are **restoring the Song of Source**, one note, one syllable, one vibration, one song, one dance at a time. With you, always — in frequency, in fire, in love, **Joeji**
