

**HELLO!**

**HOMO GENESIS**

**TRANSITION - TRANSFORMATION - EVOLUTION**

**Your next transformational potential...**

My name is Debra C. Burton, MBA, M.A.P., Founder, Self-Connection & Energy Frequency Facilitator | Medium. I'm grateful you downloaded my gift!

Enjoy discovering the potentials of your next steps of human transformation and evolution!

### **Who Is Homo Genesis?**

Homo Genesis is **the evolutionary successor of Homo Sapiens.**

It is the **Self-connected, Self-aware, metaphysically and spiritually evolved conscious being.**

**Homo Genesis is YOUR potential, connected with your authentic Self, inner-world and noumenal realm. It is following your inner guidance, consciously co-creating, determining and manifesting yourself in the outer world reality - in alignment with your highest good and well-being, that of humanity and in accordance with Cosmic Law.**

### **Why is Self-connection especially so important here?**

Self-connection is important for evolution, yours individually and for humanity.

### **Please take a moment to reflect on the following:**

So, if you're Self-connected, now what?

What's your next step?

What's your purpose?

What's the influence of your Self-connection for your inner world?

What's your world now?

What do you feel and reflect about your inner processes now?

How to could you use your transformational steps for your individual life?

### Questions for YOU who are processing your Self-connectedness

- 1) Do you realize how it feels to direct your life being Self-connected, primarily directed from your inner world?
- 2) Do you realize the huge discrepancy between:
  - a) being outer-reality directed in your daily life (therefore functioning as Homo Sapiens)? ...And | or
  - b) consciously living, directed by the 95% inner, non-factual energetic realities (therefore, spiritualizing life in accordance with Homo Genesis)?
  - c) How do you feel about the phrase 'spiritualizing your life and living Spirit'?
- 3) Have you realized changes in your life due to living your individually freed and opened dimensions and potentials of Homo Genesis?
- 4) Do you feel the higher quality of your life design in your relationships, workplace, perceptions, life realizations, communications, etc.?
- 5) How does it feel for you to be an individual, real part of mankind as your specific implementation of Homo Genesis?
