ABOUT ME

I'm Tin, your multitasking single momma, here to spill the tea on how I went from "*Pa, pautang pambili foods ni baby.*" to "**Pa, nakabili na ako ng first property ko. Patayuan nadin natin ng business yung lupa sa province.**" all thanks to Digital Product Selling.

Imagine this: a single mom hustling harder than anyone. Juggling my corporate work, freelancing clients, and content creation, life was so hard, as in nakakapagod. But then, I stumbled upon the holy grail: **digital product selling**.

Hold onto your bangs mga bestfriend, because *this isn't just about making quick money—it's about unlocking a whole new world of possibilities*. From buying my first property home to traveling whenever we want, and splurging on the finer things in life (*hello, extra cheese on my sisig, anyone? How about a whole pizza per person for the family!*), selling digital products gave me the freedom to put my family first while living my best life.

But wait, there's more! In this guide, I'll spill the adobo sauce on **how I turned canva templates into thousands of pesos**, sharing tips, tricks, and hilarious mishaps from my journey to digital domination.

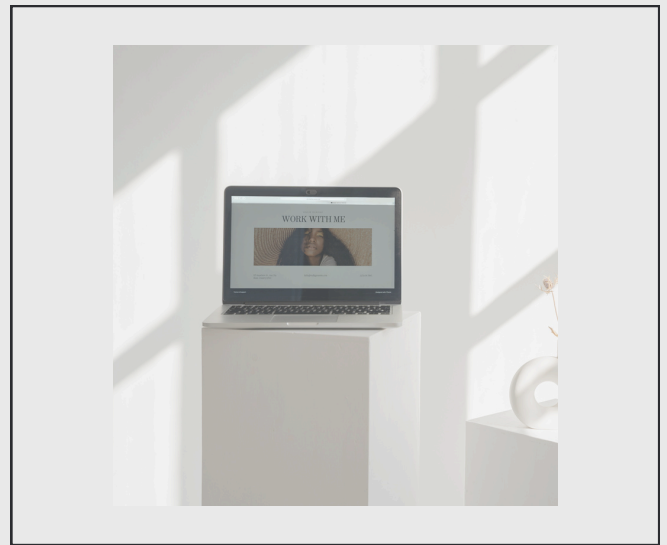

So grab a cup of milo, kape or kahit tubig gooo and get ready to **learn how to earn 5-6 digits like me!** Let's do this!

DIGITAL MARKETING

Just in case it's new to you, **Digital Product Selling** is the art of using the internet to market and sell products, services, or partnerships.

It's all about reaching your target audience, sharing valuable info, and motivating them to take action—whether that's making a purchase, subscribing to updates, or interacting with your content. And here's the exciting part: mastering your digital presence is key, but do not be afraid!

In our course, we'll walk you through everything, making it easy for you to elevate your online game and thrive in the digital marketplace.

What is Master Resell Rights?

Master Resell Rights (MRR) is a licensing agreement that authorizes the purchaser to resell a product, such as online courses, ebooks, and videos, to others while retaining 100% of the profits.

Unlike typical resell rights, MRR goes a step further, enabling the buyer not only to resell the product but also to sell the rights to others, offering them the same lucrative opportunity.

THE POWER OF YOUR BRANDING

Ever wondered why others prefer buying MRR courses from digital creators like myself rather than going straight to the source? It's because of value and branding.

One of the most exciting things about MRR is branding your digital products & adding additional value to them. If you're thinking "but I don't have a brand, now what?" That's ok! I'm here to help you with that.

The Digital Creation Course with Master Resell Rights that I offer, teaches you everything about digital marketing.

Everything you need to know for crafting an irresistible online brand! Your social media presence stands as a cornerstone of your digital assets, enhancing the value of all your endeavors. And the cherry on top? You have the option to resell it as soon as possible, DONE-FOR-YOU, for a 100% profit!

Step one: Find your Niche

Consider what truly brings you joy. Are you a Pinay mom who loves crafting engaging busy books or a student with a knack for designing planners? If you're passionate about sparking creativity in kids, why not create digital goodies like interactive busy books or fun learning worksheets?

But it's not just for parents and students. If you're a working professional like a social media manager or data analyst, why not share your expertise through ebooks or courses? You can create digital products tailored to your industry, offering valuable insights and strategies to others.

Whatever your niche, whether it's parenting, student life, or your profession, leverage your passion and expertise to create digital products that resonate with your audience.

The best part? You can **share your knowledge, earn money, and still be there for your loved ones**—no need to sacrifice precious time with your little ones or compromise your studies or your corporate work especially when you are starting!

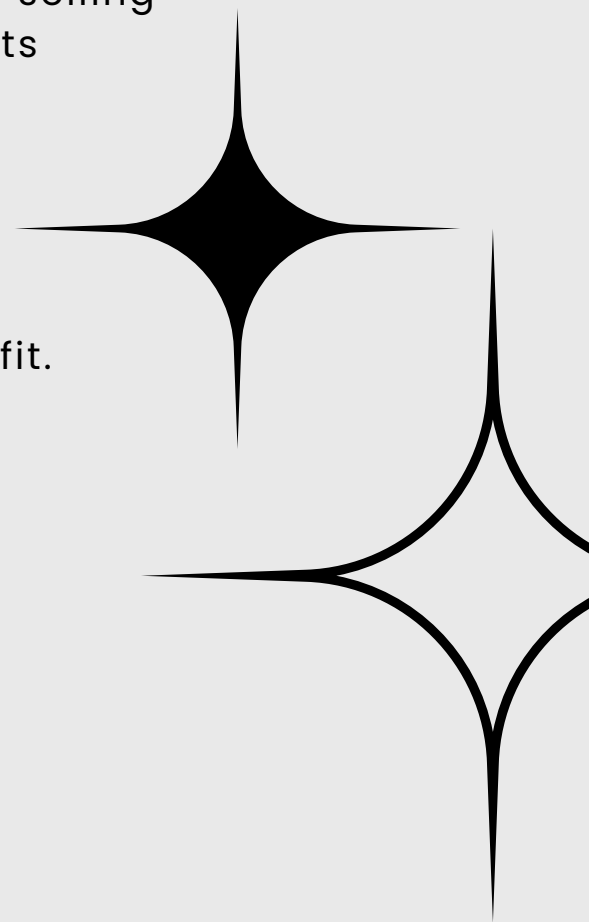

Step two: What products do you want to create and sell?

List down the digital products, templates, blueprints or courses you want to create. Then, brainstorm and create them using apps like Canva. For courses, using Systeme.IO or Stan Store can also help.

If you're unsure where to start, consider selling digital products with Master Resell Rights for a 100% profit.

I took and now offer includes master resell rights, providing a ready-made digital course you can resell for full profit.

Step three: Promote and Drive Buyers to your Links

This is where the fun begins! Now, it's time to craft content that promotes products and services within your niche. The beauty of this is that once you create the content, you can earn passive income through the links you include in your videos or bio.

Picture this: while you're out tackling your to-do list or catching some much-needed shut-eye, someone out there could stumble upon your video and decide to purchase through your link. *Talk about making money while you sleep!*

Feeling lost on how to get started? Don't worry! **The Digital Creation Course with MRR** that I offer is beginner-friendly and guides you through every step of the process. Think of it as having your mentor by your side. And guess what? I'm here every step of the way to assist you! Plus, our community hosts weekly webinars that can provide even more valuable insights and support!
