

Parts of a Circle

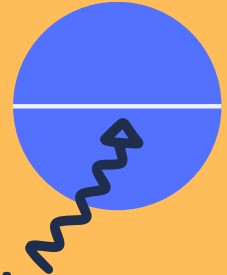

Circumference

Perimeter or distance around the outside of a circle.

Chord

A line from one point on the circumference to another.

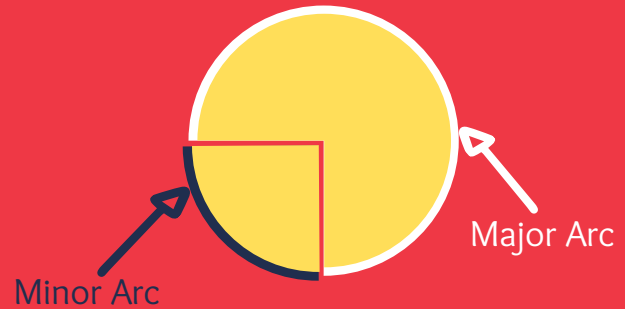

Diameter

A chord through the centre of a circle.

Radius

A line from the centre of a circle to its circumference. The radius is half the length of the diameter.

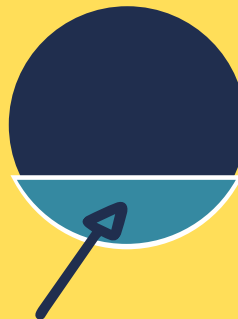

Arc

A section of the circumference.

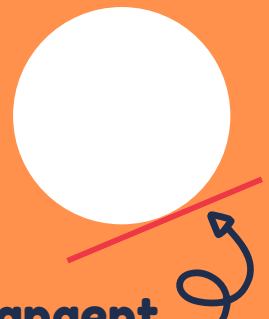

Sector

An area between two radii and an arc.

Segment

An area between a chord and an arc.

Tangent

A line that touches the circumference at a point.
