Wow...

I never really thought I would ever create something like this.

But I did.

Back in 2018, I was just getting started in the online world.

I didn't know a lot of people.

Rachel S. Lee.

Rachel launched something called the Affiliate Business In A Box.

I was hooked.

I thought it was so smart and something different.

I loved my Affiliate Business In A Box.

Since then, I have been waiting for an opportunity to recreate it.

But I had totally forgotten about it.

It wasn't until I joined Systeme.io about 5 months ago.

And a few days back, out of nowhere, the idea of recreating Business In A Box just popped in my mind.

**This viral funnel is making me \$100-\$200/day!**

A week ago I launched a \$7 low-ticket funnel.

Inside I have a \$27 order bump, a \$97 upsell and a page where I can offer my affiliate offers.

So far - this funnel has been performing incredibly great.

I have been making sales every day between \$100-\$200 on autopilot.

I am growing my list of paid audience effortlessly using low-ticket offers.

All this time I have been after selling high-ticket offers.

### 📄 CASE STUDY OF MY VIRAL \$7 SYSTEM.IO IN A BOX FUNNEL. 📄

*(READ ON TO FIND OUT THE WHY AND THE HOW BEHIND LAUNCHING THE VIRAL FUNNEL)*

But first, let me take you back to the year 2018-2019.

I used to sell PLR products and promote affiliate products.

One day - I came across this concept of 'business in a box' sort of funnel that basically gives you all the essential stuffs you need get started with earning an income.

I was hooked and the funnel went so viral that everyone loved it so much as it was bringing them results faster.

I tried recreating the funnel but with my own touch and experience.

But the softwares I was using at that time (Clickfunnels and many others) didn't facilitate selling many products through one funnel.

That is, having orderbumps and upsells and downsell without a third party tool.

I gave up on the idea.

Soon, my friend recommended this platform Systeme.io, saying that it is similar to Clickfunnels and way better.

I decided to give it a try and learned as much as I could in the last 5 months.

Few weeks back - the idea of creating the viral funnel hit me again.

So a week before launching my Systeme.io In A Box, I decided to grow a new list of audience.

I looked into a few groups and started sharing value, my expertise and helping around with whatever problem people were having.

I shared my story, my background and my expertise to build credibility and trust.

I grew up a list of 100 people pretty quickly in less than a week.

(If you're wondering how I am getting leads and traffic organically, I wrote a separate post on that and will add the link in the comments).

After a week, I launched my Systeme.io In A Box Funnel.

(You can see in the picture below I launched around October 3)

I didn't have any results to show for it - but I didn't need it.

I sent out emails and posted in a few groups where I was active the most and building my credibility.

I shared my why behind creating this funnel, my inspiration, my goal of helping thousands of people make passive income in a simple, hassle free way.

And providing them with everything they need to get started immediately and start earning passive income.

I shared all the bonuses I was giving away, including my Systeme.io In A Box Support group where they are free to ask questions, share their wins and network with other fellow entrepreneurs in this journey with them.

I made a few sales the first few days, and then quickly went to making **\$100-\$200/day on autopilot.**

When I'm sleeping, when I'm on a call, when I'm outside or spending time with my husband and our family,

My phone won't stop ringing and sales messages won't stop coming through. 📞👂

Now that I had results to show for it - I was posting and sharing my wins and results and that boosted the sales of the Systeme.io In A Box funnel.

As you can see, the funnel went from making \$100-200/day to making me over **\$400/day in sales!**

I surpassed \$1000 in a week with a low-ticket funnel with offers between (\$7-\$97), making total of 44 sales till today.

(See picture below for proof).

(Believe me I thought it was going to take me a month to have \$1000 sales with this funnel! 🤔)

**DISCLAIMER:** some payments were made directly to PayPal so it is not reflected inside Systeme.io

Listen up guys, stop overthinking too much and get your funnel out there.

Stop hiding, start showing up and slowly building your audience.

This is not rocket science - it's simple and very efficient when done the right way.

All the very best 🙌
