Hi {first_name},

I wanted to check in and make sure you were able to access your PLR course bundle.

Here is your access link again:

[Insert PLR Course Access Link Here]

Your bundle includes all 8 courses plus the materials included with your purchase, so make sure you take a little time to look through everything.

A good first step is to choose which course or offer you want to focus on first.

You do not need to launch everything at once. In fact, it's usually better to start with one offer, get it set up correctly, and then add more later.

Here's a simple starting plan:

- Choose one course
- Review the materials
- Set up your product in Systeme.io
- Connect your funnel
- Add your payment settings
- Test your checkout
- Start promoting

Important note about installing your PLR courses
Important note about installing your PLR courses

Hi {first_name},

This is an important message about installing your PLR courses inside Systeme.io.

Is your Systeme.io account on the Free Plan?

If your account is on the Free Plan, you may not be able to install all the courses separately because of account limits.

If that applies to you, please install the **last module: PLR Courses Only**. This option installs all the modules with the settings already in place.

Click here to install the PLR full course:

[Insert PLR Full Course Installation Link Here]

This will help make the setup process easier and avoid issues with installing each course one by one.

Email 4 — Reminder: Review Your Rights Before Selling

Before you start selling your PLR courses

Hi {first_name},

Before you start selling your PLR courses, I want to remind you to review the rights and license terms included with your purchase.

This is an important step because it helps you understand what you are allowed to do with the courses and materials.

Depending on your package, you may be able to:

- Sell the courses
- Keep 100% of the profits
- Use the marketing materials
- Use the funnels and swipes
- Resell the PLR/MRR package itself

Please make sure you read the included license information carefully before promoting your offer.

You can access your PLR materials here:

Email 5 — Final Reminder: Start With One Course

Final reminder: start with one course firstFinal reminder: start with one course first

Hi {first_name},

This is a friendly final reminder to access your PLR courses and begin setting up your offer.

Here is your PLR access link again:

[Insert PLR Course Access Link Here]

And if you are using the Systeme.io Free Plan, use the PLR full course installation option here:

[Insert PLR Full Course Installation Link Here]

My best advice is to start simple.

Pick **one course** or **one bundle offer** first. Set it up, connect your funnel, test everything, and then start promoting it.

You do not need to have everything perfect to begin. What matters most is getting your offer set up correctly and taking action.

Here's what to do next:

- Choose your first offer
- Install the course or bundle
- Customize your funnel
- Connect your checkout
- Test the purchase process
- Start sending traffic to your offer

For help and tutorials, visit:

<https://www.systemeioforbeginners.com/>

You can also search the Systeme.io help pages whenever you need extra support.

I'm so excited for you. This is your time to take what you purchased and turn it into something you can actually use, share, and sell.
