# Welcome

Hi, I'm Gail, creator of Practical Online Income.

I created this free guide to help real beginners discover realistic ways to start earning online using simple tools, AI tools, affiliate marketing and digital products.

You do not need to be an expert, have a huge following or spend thousands to get started.

The goal is simple: start small, learn fast, build income streams over time - just start

Let's get into it.

# 1. Affiliate Marketing

Affiliate marketing is one of the easiest ways for beginners to start earning online.

You promote products, tools or services using a **special referral link**. When someone buys through your link, you earn a **commission**.

You do not need:

- your own product
- a website
- a large audience or huge following

Many beginners start by sharing helpful content on:

-  TIKTOK
-  PINTEREST
-  INSTAGRAM
-  FACEBOOK
-  YOUTUBE

Beginner-friendly **Affiliate Platforms** include:

- Amazon Associates
- Digistore24
- ClickBank
- Temu Affiliate Program
- Canva Affiliate Program

# Simple Starter Idea

Create short videos showing:

- useful AI tools
- budget finds
- productivity hacks
- online income tips

Then place your **affiliate links** on your **Beacons** page

## How to Get Your Affiliate Link

1. Choose an affiliate platform from the ones mentioned above
2. Create a free account on that platform
3. Choose a product or tool that you want to promote
4. Click “Get your **affiliate link**” or “Promote”
5. Copy your unique referral link

💡 This unique link tracks sales and earns you **commission** when someone buys through it

## How to Add Affiliate Links to Beacons

1. Sign up for a **free Beacons account**
2. Click “Add link”
3. Paste your affiliate link
4. Rename the button clearly
5. Share your Beacons link in your TikTok or Instagram bio

# 2. Digital Products

Digital products are downloadable items people can buy online again and again.

You create the product once, then you continue selling it over and over, with no packing or shipping needed.

Examples of digital products:

- ebooks
- planners
- checklists
- templates
- social media captions
- printable wall art
- budgeting trackers
- Canva templates

Popular places to sell digital products:

 Etsy

 Gumroad

 Payhip

 Stan Store

 Beacons Store

 Start with one platform first to avoid overwhelm and stay consistent

# 3. AI Tools

AI tools help people create content, designs, videos, captions and products faster online.

Many beginners now use AI tools to:

- create social media content
- write ebooks
- make videos
- design digital products
- generate captions
- save time and work faster

Beginner-friendly AI tools:

 ChatGPT

 Canva AI

 Grammarly

 CapCut

 Leonardo AI

 ElevenLabs

Simple ways people make money using AI:

- TikTok content creation
- Pinterest pins
- ebooks
- affiliate marketing
- social media management
- digital products

 AI tools work best when combined with your own ideas and creativity.

# 4. Content Creation

## Tips

People online earn income by creating helpful, entertaining or educational content.

Simple beginner content ideas:

- AI tool reviews
- budgeting tips
- productivity hacks
- side hustle ideas
- Canva tutorials
- online income tips
- beginner tech tools

Platforms beginners use:

-  TikTok
-  Pinterest
-  Instagram
-  YouTube Shorts
-  Facebook

Simple content formula:

- hook attention quickly and solve a small problem
- keep videos short
- add a clear cta (call to action)
- link products in your Beacons page

 Consistency matters more than perfection.

# 5. Beginner Action Plan - Week 1

Day 1: Choose your niche:

- AI tools
- budgeting
- side hustles
- productivity
- digital products

Day 2: Create:

- TikTok account
- Pinterest account
- Beacons page

Day 3: Join:

- Amazon Associates
- Digistore24
- ClickBank

Day 4: Create your first 3 pieces of content

Day 5: Add your affiliate links to your Beacons page

Day 6: Post consistently and test content ideas

Day 7: Review what worked then repeat it consistently

 Small consistent action creates momentum online.

# Start Before You Feel Ready

Most people never start because they overthink everything.

Small consistent actions online can grow into real income streams over time.

Learn, test, improve and keep going.
