A POWERFUL MOTIVATION LETTER FOR SCHOLARSHIPS

The Complete Guide for Stipendium Hungaricum Applicants

Step-by-step video
application guide for
Tunisian Students

BONUS

By Ghada Bouajaja

Hello! I am

GHADA BOUAJAJA

I was granted the Stipendium Hungaricum Scholarship **twice**; for my **Bachelor studies** in International relations at the University of Pecs and for my **Master studies** in Political science at Pazmany Peter Catholic University in Budapest

During my studies I was a student mentor and an **International student ambassador**. I helped tens of Students in their journey to study in Hungary.

≡Welcome≡

As someone who has walked this path and experienced the incredible opportunities that studying in Hungary offers, I understand the challenges and excitement of this journey. That's why I created this guide with you in mind, whether you're dreaming of studying abroad for the first time or looking for professional advice to stand out from the competition.

In these pages, you'll find actionable tips, examples, and a clear roadmap to help you craft a compelling motivation letter. This isn't just about meeting requirements; it's about telling your story in a way that inspires and convinces.

1

Research Like an Expert

Before you write, dive deep into the program, university, and country.

- **Understand** the Scholarship's Vision:
 - What does the Stipendium Hungaricum program value?
- **Focus** on international collaboration, cultural exchange, and academic excellence.
- **Research** Hungary's contributions to your field and how studying there aligns with your goals.

"Hungary's innovation in biotechnology, especially at [University Name], aligns perfectly with my ambition to specialize in sustainable bioengineering."

- **Discover** Your University's Strengths:

Explore specific professors, research projects, or unique resources in your department. Mention facilities or labs that stand out to you.

Show that you've chosen the Stipendium Hungaricum program intentionally—**not because it's "free,"** but because it genuinely aligns with your aspirations.

2 Get Started – Define Your Purpose with Precision

You don't need the "perfect" draft from the start. Instead, focus on answering these core questions:

- What motivates me to apply?
- Why this university and program?
- What are my academic and professional aspirations?
- How will this scholarship change my future?
- What value will I bring to Hungary, my field, and my home country?

Action step

Write a rough **draft** answering these questions honestly.
Let your unpolished ideas form the foundation of your **unique** narrative.

3 Captivate with a Story That Stands Out

- Instead of generic statements, tell a story that resonates.

❌ Don't say "**I am interested in environmental science,**" say:

EXAMPLE

"When I saw my village's river polluted beyond recognition, I knew I couldn't sit idle. That moment sparked my journey into environmental science."

❌ Don't say **"I've always been fascinated by diplomacy,"** say:

EXAMPLE

At 15, I volunteered to mediate a dispute in my local debate club. That experience taught me the power of dialogue and inspired my passion for international relations.

- Tie your story to your academic or career goals and how this scholarship will propel them forward.

4 Prove Your Potential – Show, Don't Tell

- Back your claims with tangible achievements and examples:

❌ Don't say **"I have leadership skills,"** say:

EXAMPLE

"In 2023, I led a team of five students to develop a solar-powered irrigation system, reducing water waste by 30% in our local farms."

- Use metrics and achievements to add credibility to your claims.

5 Bridge Your Goals With Broader Impact

Scholarship committees value candidates who think beyond themselves.

➤ Align Short-Term Goals with the Program:

What will you achieve during your studies in Hungary?

EXAMPLE

"Through this program, I aim to master renewable energy solutions to contribute to groundbreaking projects at [University Name]."

➤ Connect Long-Term Goals to Broader Societal Impact:

How will the scholarship benefit your home country or the world?

Avoid generic statements like **"I want to make a difference."**

Instead, say something measurable

EXAMPLE

"Equipped with expertise in robotics, I plan to establish affordable automation solutions for small businesses in my country, fostering local economic growth."

EXAMPLE

"By 2030, I aim to establish a STEM-focused non-profit to equip 5,000 underprivileged students with essential coding skills."

6 Highlight Why Hungary

Show why Hungary is the perfect destination for your academic journey.

➤ Highlight Specific Resources:

Mention a particular professor, research group, or facility at your desired university that excites you.

"The Renewable Energy Lab at [University Name] is an exceptional hub for sustainable energy research, aligning perfectly with my goals."

EXAMPLE

➤ Mention Hungarian Contributions to your area of study:

How will the scholarship benefit your home country or the world?

"Hungarian mathematicians like John von Neumann inspire my interest in computational science."

EXAMPLE

➤ Celebrate Cultural Immersion:

Talk about how Hungary's role as a bridge between Eastern and Western Europe offers unique opportunities for your career or field of study

"Hungary's innovative spirit, evident in contributions like the Rubik's Cube, mirrors my own drive to think creatively and solve real-world problems."

EXAMPLE

7 Master the Motivation Letter Structure

A clear structure helps the reader follow your narrative effortlessly.

➤ 1-Introduction:

Begin with a brief yet **engaging** opening.

Engage with a story: A life-changing moment, a personal anecdote, or an experience that ignited your passion for your field.

Or

Engage with a vivid imagery:

EXAMPLE "In a small, dimly-lit room in my hometown, I held a book that changed my life—one that introduced me to the transformative power of engineering."

Or

Engage with a thought-provoking question:

EXAMPLE "What if renewable energy became accessible to even the most remote villages—how much could we transform lives and economies?"

➤ 2-Content:

- Why this program, university, and country?

Mention specific aspects of the program or university that **align** with your goals, such as unique courses, teaching methods, cultural context, or institutional values.

EXAMPLE "Hungary's strong reputation for innovation in renewable energy aligns perfectly with my goal of developing sustainable solutions in my home country."

- Highlight your academic achievements, relevant coursework, language skills, and extracurricular activities that align with your goals and prepare you for the program

EXAMPLE “During my undergraduate studies in Environmental Science, I led a project that reduced water waste in my community by 20%. This experience honed my problem-solving skills and deepened my commitment to sustainability.”

- Define your future aspirations and how they connect to the program.

Outline your career plans and demonstrate how the program will help you achieve them. Make **the connection** between the **program’s strengths** and your **professional ambitions**.

EXAMPLE “In the short term, I plan to deepen my knowledge of sustainable engineering. In the long term, I aim to establish a renewable energy consultancy to tackle energy scarcity in underserved regions.”

- Connect your goals to broader challenges or needs at a local, national, or global level.

EXAMPLE “My studies in business administration will equip me with the knowledge to create accessible financial and managerial training programs, empowering local business owners to succeed. I aim to bridge the gap between opportunity and innovation, contributing to a stronger, more self-sufficient economy in my hometown.”

➤ 3-Conclusion:

- Reaffirm your enthusiasm and show appreciation for the opportunity to apply.

EXAMPLE “I am confident that this program will equip me with the tools to create meaningful change in [the field of your studies], and I look forward to contributing to the academic and cultural community in Hungary.”

8 Stand Out With Creativity

- Use metaphors or analogies..

EXAMPLE "For me, sustainability is like a symphony—every small action must harmonize to create global change."

- Show initiative

"Last year, I organized a coding workshop for 50 young women, sparking interest in STEM careers."

- Embrace Specificity:

Don't say "I want to study computer science,"
say, "I want to specialize in artificial intelligence, focusing on its ethical application in healthcare diagnostics."

- Avoid Overused Phrases

Replace "I have always dreamed of..." with "My fascination with [specific topic] began when..."

- Write as if you're already applying what you've learned.

EXAMPLE "After completing my studies in Hungary, I envision leading a nationwide initiative to integrate AI into healthcare systems in my country."

9 Polish Your Letter to Perfection

Proofread thoroughly for grammar, spelling and formatting errors.

Write with Clarity

Keep your language concise and direct.

Be Honest

Authenticity resonates more than exaggerated claims.

Don't repeat your CV or application details; instead, expand on them with context and examples.

Don't use the same letter for multiple applications without customization.

write an additional motivation letter to your 2nd preference university, which you may upload to the Documents Section of your application.

10 Mastering the PhD Motivation Letter

Clearly Outline Your Research Plan

Ensure your motivation letter includes a detailed and relevant description of your professional research plan.

“I want to research climate change and its effects on agriculture.”

“My research will focus on the impact of climate change on sustainable agricultural practices in arid regions, specifically analyzing water conservation techniques in Tunisia. Hungary’s advanced agricultural research centers, such as [specific lab or professor], make it the ideal environment to explore innovative solutions for global food security challenges.”

Clearly articulate why Hungary is the ideal place to pursue your doctoral studies and how it aligns with your academic aspirations.

“I chose Hungary because it offers scholarships.”

“Hungary’s leading position in renewable energy research, particularly at [university/research institute], provides an unparalleled opportunity to collaborate with experts in bioenergy systems. This aligns perfectly with my goal of developing affordable, clean energy solutions for rural communities in North Africa.”

Emphasize the Importance of Your Research

Provide a compelling explanation of why your research topic is significant. Support your arguments with valid and academically proven evidence, demonstrating the potential impact of your work on your field and beyond.

“My research is important because it will help farmers.”

“The rising scarcity of water in arid regions threatens global food security. My proposed research aims to develop scalable water-efficient farming techniques. This work is particularly urgent, as studies show that by 2050, agricultural demand in arid zones will increase by 70%. My findings could provide actionable strategies for policymakers and farmers alike, making a significant contribution to sustainable development.”

EXAMPLE

"My research **investigates** cost-effective methods to convert urban waste into renewable energy. With cities worldwide generating over 2 billion tons of waste annually, the need for sustainable waste management solutions is critical. **By focusing on** Hungary's advancements in bioenergy systems at [specific institution or research center], **I aim to** develop scalable models for emerging economies."

EXAMPLE

"Rising sea levels threaten to displace millions of coastal inhabitants by 2050. My doctoral research aims to create adaptive urban designs for flood-prone cities using eco-engineering techniques. Hungary's global leadership in urban planning research and its active participation in the EU Green Deal offer an ideal platform for pursuing this project."

EXAMPLE

"My research explores the role of digital media in shaping civic engagement among youth in post-revolutionary societies. Hungary's expertise in media studies and its unique history of political transitions provide a rich environment for this analysis. My work will uncover actionable insights into fostering democratic participation through technology."

EXAMPLE

"My proposed study examines sustainable microfinancing models to support rural entrepreneurship. In regions with limited access to banking, innovative financial solutions are crucial for fostering economic independence. Hungary's advanced economic research and its history of supporting small enterprises provide a strong foundation for my research."

Dear admissions Office of the University of Pécs,

Standing in the heart of Tunis during a youth debate on post-revolution reforms, I realized how deeply connected I felt to shaping the narrative of my country's transition. Tunisia's journey from dictatorship to democracy has been one of resilience and transformation, but it still demands innovative minds and skilled professionals to lead the way. This is where I see my role—a future diplomat equipped with world-class knowledge and an intercultural perspective. The Bachelor of Arts in International Relations at the University of Pécs represents the ideal platform for me to turn this vision into reality.  Introduction

The University of Pécs's rich history, interdisciplinary approach, and commitment to fostering critical thinking uniquely align with my aspirations. Your International Relations program stands out for its emphasis on global governance and the European Union's role in international affairs—areas that resonate deeply with my desire to build bridges between the Mediterranean and Europe. Studying in Hungary, a nation that has masterfully navigated its own complex history and emerged as a leader in intercultural dialogue, will enrich my understanding of diplomacy and provide me with the tools to tackle the challenges of a globalized world.  Why this university, the program, and Hungary

In high school, my passion for history opened the door to understanding the intricate dynamics of international politics. Through analyzing historical events, I developed the ability to synthesize complex information and craft nuanced arguments—skills critical for navigating the multifaceted world of diplomacy. Complementing this, my study of philosophy instilled in me the importance of embracing diverse perspectives and seeking common ground.

Linguistically, I am fluent in Arabic, French, and English, and have a foundational knowledge of German, which I aim to expand further. Language has always been a window for me to experience different cultures, and I am eager to begin learning Hungarian to fully immerse myself in the academic and social fabric of Pécs. 

Academic background and skills

Activities and skills

Beyond academics, I have cultivated a range of skills through diverse experiences. Seven years of music training sharpened my memory and creative thinking, while volunteering in social and cultural projects from the age of 12 allowed me to develop leadership, teamwork, and organizational abilities. As a project manager for community initiatives and coordinator of a debate club, I've honed my public speaking skills and my capacity to mediate conflicting views—qualities that are indispensable for a career in international relations.

I envision a future where I represent Tunisia on international platforms, such as the United Nations, contributing to policies that promote global security and sustainable development. Tunisia's transition into a democratic state demands leaders who understand the interconnectedness of nations, and I aim to be among those shaping its foreign policy to reflect the values of human rights, cooperation, and equity.

This program is more than a step toward personal achievement; it is an opportunity to give back to my community and contribute to global diplomacy. At the University of Pécs, I am eager to engage with a diverse and intellectually stimulating environment, bringing my unique perspective as a Tunisian and learning from peers who share a common passion for global affairs.

The Goals or Aspirations

I am inspired by the opportunity to join the University of Pécs and immerse myself in a program that combines academic excellence with cultural diversity. Thank you for considering my application, and I look forward to contributing to your university while embarking on this transformative journey.

Conclusion

Yours faithfully,

Ahmed Ben Mahmoud

11 Example of a Motivation Letter to apply for One-Tier's Master

13.12.2024  The Date DD.MM.yyyy

Dear Admissions Committee of Eszterházy Károly Catholic University,

The first time I realized the power of visual storytelling, I was 12 years old, designing a poster for my school's cultural festival. What started as a simple task became an exploration of color, form, and narrative, as I witnessed how my design could capture attention and convey meaning without words. This moment marked the beginning of my passion for graphic arts—a passion that has grown into a career ambition to create designs that connect people across cultures. Pursuing a one-tier Master's degree in Graphic Arts at Eszterházy Károly Catholic University is the natural next step in this journey.

Graphic arts represent the perfect synthesis of creativity and communication, enabling powerful messages to transcend language and cultural barriers. I am particularly drawn to Eszterházy Károly Catholic University's program because of its focus on combining traditional techniques with modern digital technologies. The opportunity to study under experienced faculty and gain hands-on training in Hungary's rich artistic heritage aligns seamlessly with my career aspirations.

Additionally, Hungary's unique blend of historical and contemporary art forms serves as an inspiring backdrop for a young artist like me. I am especially intrigued by the university's emphasis on fostering intercultural dialogue through art, which resonates deeply with my vision of using design to connect global communities.

Academic and Artistic Background

During my high school studies, I cultivated a strong foundation in history and drawing, which played a significant role in shaping my artistic perspective. History gave me insight into how art evolves alongside societal changes, while drawing allowed me to experiment with techniques and styles that brought my ideas to life.

For my baccalaureate project, I explored the fusion of traditional Tunisian motifs with contemporary artistic expression, earning recognition for its creativity and cultural significance. These experiences deepened my understanding of how art can preserve cultural heritage while adapting to modern contexts.

Outside the classroom, I participated in local art exhibitions and volunteered to design promotional materials for community events. These experiences honed my technical skills and taught me how to convey complex ideas through visual mediums.

I aspire to become a professional graphic artist specializing in projects that blend cultural preservation with modern innovation. In the short term, I aim to master advanced techniques in graphic design, animation, and digital media through the program.

Long-term, I envision using my skills to promote Tunisia's rich cultural heritage on international platforms. Whether through branding, digital campaigns, or collaborative art projects, I hope to create designs that inspire appreciation for diversity and foster cultural exchange.

My passion for creativity, coupled with my academic achievements and commitment to cultural storytelling, makes me a strong candidate for the Graphic Arts program at Eszterházy Károly Catholic University. I bring a unique perspective shaped by Tunisia's vibrant artistic traditions, and I am eager to contribute to the university's dynamic artistic community while learning from its exceptional faculty and peers.

Joining the Graphic Arts program at Eszterházy Károly Catholic University represents an incredible opportunity to refine my craft and make meaningful contributions to the world of design. Thank you for considering my application. I look forward to the chance to bring my vision to life within your esteemed institution.

Yours faithfully,

Ahmed Ben Mahmoud

11 Example of a Motivation Letter to apply for Master

13.12.2024  The Date DD.MM.YYYY

Dear Admissions Committee of Eötvös Loránd University,

in my final year as a Business Administration student at Tunis Business School, I encountered a challenge that shaped my career aspirations. Tasked with optimizing a struggling local enterprise's inventory system, I turned to data analysis and digital tools to propose a solution that reduced waste by 25% within three months. This experience ignited my passion for leveraging technology to solve complex business problems, leading me to pursue a Master's degree in Business Informatics at Eötvös Loránd University.

The dynamic interplay between technology and business has become the cornerstone of modern innovation, and I am eager to be at the forefront of this transformation. Business Informatics perfectly bridges my academic background and professional ambitions, allowing me to master the integration of IT systems into business strategies.

Eötvös Loránd University's reputation as a leader in research and innovation in Central Europe makes it my top choice for graduate studies. I am particularly inspired by [mention a specific professor's work, or course], which aligns with my interest in data-driven decision-making and predictive analytics. Hungary's strategic role in Europe and its investment in digital transformation initiatives further enhance my enthusiasm for studying at your esteemed institution.

During my undergraduate studies, I specialized in business strategy and operations management, consistently ranking among the top 5% of my class. My coursework in operations research and organizational behavior laid the foundation for my analytical and leadership skills, while practical projects honed my ability to apply theory to real-world challenges.

Beyond academics, I completed an internship at [insert company name], where I assisted in implementing a customer relationship management (CRM) system. This project not only improved client retention rates by 15% but also strengthened my interest in designing IT solutions tailored to business needs. These experiences fueled my decision to explore Business Informatics as a pathway to bridge gaps between technology and strategic management.

In the short term, I aim to deepen my expertise in data analytics, machine learning, and enterprise systems through the Master's program. My long-term goal is to establish a consultancy specializing in digital transformation for small and medium-sized enterprises (SMEs) in Tunisia. SMEs are the backbone of our economy, yet many struggle to adapt to technological advancements due to resource limitations. By providing affordable, scalable solutions, I aspire to empower these businesses, foster economic growth, and contribute to national development.

Furthermore, I am committed to fostering collaboration between Tunisia and Hungary by participating in intercultural initiatives and sharing insights gained from my studies. The knowledge I acquire at Eötvös Loránd University will not only benefit my professional growth but also support Tunisia's broader economic modernization efforts.

My academic achievements, coupled with hands-on experience and a passion for innovation, make me an ideal candidate for the Business Informatics program. I bring a unique perspective shaped by Tunisia's growing entrepreneurial ecosystem, and I am eager to contribute to classroom discussions and collaborative projects at Eötvös Loránd University. My ability to adapt, work across disciplines, and tackle challenges with creative solutions positions me as a motivated and resourceful addition to your academic community.

I am inspired by the opportunity to study at Eötvös Loránd University and immerse myself in an intellectually stimulating environment that nurtures innovation and critical thinking. Thank you for considering my application. I look forward to the possibility of contributing to and growing within your esteemed institution.

Yours faithfully,

Ahmed Ben Mahmoud

Example of a Motivation Letter to apply for Master

13.12.2024  The Date DD.MM.yyyy

Dear Admissions Committee of the University of Debrecen,

Growing up near an industrial hub in Tunisia, I was fascinated by the intricate processes that transformed raw materials into everyday products. This early curiosity evolved into a deep-seated passion for chemical engineering, which I pursued during my undergraduate studies. As a recent graduate in Chemical Engineering, I am eager to take my knowledge further by specializing in advanced chemical processes and sustainable technologies through the Master's program at the University of Debrecen.

The global push for sustainable development has placed chemical engineers at the forefront of innovation, particularly in optimizing industrial processes for environmental sustainability. I am drawn to the University of Debrecen's Master's program in Chemical Engineering because of its emphasis on integrating cutting-edge research with real-world applications.

The university's advanced facilities, particularly the [insert specific laboratory or research group], and its focus on sustainable energy solutions align perfectly with my career goals. Moreover, Hungary's role in fostering scientific collaboration within the European Union provides an ideal setting to expand my academic and professional horizons.

Academic and Professional Background

During my undergraduate studies, I developed a strong foundation in thermodynamics, process design, and reaction engineering, graduating with distinction from [University Name]. My capstone project involved designing a cost-effective wastewater treatment system for a local factory, reducing its environmental footprint by 20%. This experience deepened my interest in sustainable chemical processes and solidified my commitment to contributing to eco-friendly industrial innovations.

Professionally, I completed a six-month internship at [Company Name], where I optimized the production workflow for polymer materials, increasing efficiency by 15%. This opportunity allowed me to apply theoretical concepts to practical challenges, enhancing both my technical and problem-solving skills.

In the short term, I aim to expand my expertise in sustainable chemical processes, focusing on areas such as renewable energy technologies and waste management. My ultimate ambition is to lead innovative projects that address pressing global challenges, such as reducing carbon emissions and optimizing resource utilization.

On a national level, Tunisia's industrial sector faces significant challenges in balancing economic growth with environmental sustainability. Through advanced training at the University of Debrecen, I aspire to return home and implement sustainable practices across key industries, contributing to both national progress and global environmental efforts.

I bring a unique blend of academic excellence, hands-on experience, and a passion for innovation to the Master's program. My background in engineering, coupled with my drive to contribute to sustainable development, makes me a strong candidate for the University of Debrecen. Additionally, I am eager to collaborate with fellow students and faculty, exchange ideas, and contribute to the university's vibrant academic community.

Studying at the University of Debrecen represents a critical step in my journey to becoming a leader in sustainable chemical engineering. I am excited about the prospect of honing my skills in your esteemed program and contributing meaningfully to the field. Thank you for considering my application. I look forward to the opportunity to contribute to and grow within the University of Debrecen.

Yours faithfully,

Ahmed Ben Mahmoud

Example of a Motivation Letter to apply for PhD

13.12.2024  The Date DD.MM.yyyy

Dear Admissions Committee of the University of Debrecen,

The transition of post-socialist countries from centralized economies to market-oriented systems has always fascinated me. Observing Tunisia's own economic transformations has inspired me to examine how nations navigate structural reforms, international relations, and economic policies during pivotal periods of change. With this motivation, I am applying to pursue a PhD in Economics at the University of Szeged, focusing on the international political economy of post-socialist countries.

The economic trajectories of post-socialist countries provide critical insights into global economic shifts. My proposed research will explore how international trade agreements, foreign direct investments, and policy reforms influence economic outcomes in these nations. By analyzing successes and setbacks, I aim to identify lessons that can inform emerging economies like Tunisia.

The University of Szeged's location in Central Europe, coupled with its reputation for research excellence in economics, makes it the ideal institution for this study. I am particularly drawn to its interdisciplinary approach and opportunities to collaborate with faculty specializing in transitional economies.

As a graduate of [Insert University Name] with a Master's degree in Economics, I developed expertise in macroeconomics, international trade, and econometrics. My master's thesis, "[Thesis Title]," examined [Topic], which deepened my understanding of the challenges faced by transitioning economies.

During my internship at [Insert Organization Name], I analyzed trade agreements between North African nations and the European Union, gaining practical insights into international economic policies. Additionally, I presented my research on [Topic] at [Conference], further honing my analytical and communication skills.

Proposed Research Focus

My doctoral research will examine the international political economy of post-socialist countries, focusing on:

- The impact of trade agreements on economic growth.
- The role of foreign direct investments in industrial transformation.
- Policy strategies that drive successful transitions.

Using a mixed-methods approach that combines econometric analysis with comparative case studies, I aim to uncover actionable insights into what makes economic transitions sustainable.

Upon completing my PhD, I aspire to contribute to both academia and policy-making. My long-term goal is to work with international organizations such as the United Nations or African Development Bank to develop reform strategies for transitioning economies. Insights from my research will also support Tunisia's ongoing economic transformation, offering practical solutions for sustainable growth.

The University of Szeged's PhD program provides an exceptional platform to refine my expertise and contribute to the field of international political economy. Thank you for considering my application. I look forward to the opportunity to engage with your academic community and make meaningful contributions through my research.

Yours faithfully,

Ahmed Ben Mahmoud
