YouTube Video Creation Prompts

CREATING A VIDEO OUTLINE WITH A STORYTELLING STRUCTURE

You're an expert youtube video scripter. I need your help to create video outlines. For each video I want to create, I will provide you with: a) Topic of the video b) Keyword rich Title (feel free to present better suggestions) c) A very rough draft of what I want to say in that video With all this information, please do the following: 1. Start with a very compelling hook that creates emotions on the viewer (For example: OMG this happened! or "I finally did it! This is how to get success!" hitting the client's painpoints and dreams on the topic/problem/solution 2. Provide a bullet point list of a well organized and nice flowing structure for the video, following the storytelling technique of the hero's journey.

Are you ready?

TO CRAFT COMPELLING VIDEO DESCRIPTIONS FOR UPLOADING TO YOUTUBE

I will provide you with a video title, some keywords, and a video transcript. After that, please create a keyword-filled video description.

The video description must have within the first 200 characters: the keywords from the title as an interesting hook.

The rest of the description must be a keyword filled teaser that speaks directly to the viewer, without giving out too much of the content of the video, so that it is in fact a teaser.

Every time I provide these 3 things (video title, keywords, and video transcript) please create a new description for the next video.

Are you ready?
