Hey lovely,

I'm Danielle and I'm super passionate about supporting women over 40 to reclaim their health and vibrancy by overcoming stress, weight gain and hormonal imbalances, which funnily enough, are all interconnected!

Having personally experienced high levels of stress, overwhelm, anxiety and even burnout, I have been rewiring my relationship with stress for decades. It was through these challenges that I discovered the transformative power of tuning into my body and nurturing my health from within.

As I attempted to balance the demands of family and work, I often felt stretched thin, emotionally drained, and disconnected from my own needs. Through dedicated self-care (often mandated by my husband!), mindful practices, and holistic approaches, I started building a resource toolkit along with a healthy respect for my nervous system and my body as a whole. Through this path I re-discovered myself and my capacity to experience true vitality and joy.

Building stress resilience has been a life lesson, one that I am passionate about supporting women like you through, to rediscover your energy, fulfilment, and inner balance. Together, we can navigate the challenges, build your own personalised resource toolkit and create a life that truly resonates with the connected, vibrant and healthiest version of you. Let's do this!

Danielle

# WELCOME! LET'S GROW YOUR STRESS AWARENESS & BUILD RESILIENCE

Stress is an inevitable part of our busy lives, but how we understand and manage it can make all the difference. By taking the time to complete this **Stress Detox Diary**, you are taking a powerful step toward raising your awareness of stress, identifying your threshold and understanding your unique responses. This awareness is the first critical step in consciously building a relationship with your nervous system and transforming your health.

## How This Journal Can Support You

- **Increased Awareness:** Journaling helps you become more conscious of your daily stressors and how they affect you - body, mind & soul. By tracking these stressors, you can start to see patterns and gain insights into what is triggering your stress.
- **Understanding Your Responses:** Everyone reacts to stress differently. This diary will help you identify your specific stress responses, both physical and emotional, enabling you to develop personalised strategies for managing stress effectively.
- **Identifying Your Stress Threshold:** By recognising the point at which stress becomes overwhelming, you can take proactive steps to build your resilience, prevent burnout and maintain balance in your life.
- **Empowerment Through Reflection:** Regular journaling encourages you to reflect on your experiences and learn from them. This self-reflection is a powerful tool for personal growth and resilience.

# YOUR 7-DAY STRESS ENQUIRY

## SETTING THE STAGE FOR AWARENESS

**Objective:** Begin by identifying your current stressors and their impact on your daily life.

### Morning Reflection:

Take 5 minutes to sit quietly with your journal.

Write down any immediate thoughts or feelings about stress.

Ask yourself: What is causing me stress right now? How does it affect my body and mind?

### Reflection:

HARMFUL

**Objective:** Visualise your stress patterns to gain clarity on areas needing attention.

### Stress Map Creation:

- On a blank page, draw a large circle (your Stress Map).
- Divide the circle into segments representing different life areas (e.g., work, family, health).
- Within each segment, note down specific stressors.

### Visual Analysis:

- Look at your Stress Map.
- Identify which areas have the most stressors.
- Reflect on the interconnectedness of these stressors.

# CREATING A PERSONALISED STRESS MANAGEMENT PLAN

**Objective: Develop a personalised plan to manage and reduce stress going forward**

## Stress Management Goals:

- Set three specific goals for managing stress.
- Make them achievable and realistic.

## Action Steps:

- For each goal, list actionable steps.
- Include the stress-defusing techniques that worked best for you.

### GOALS

### ACTION STEPS

## Daily Routine Integration:

- Plan how to incorporate these steps into your daily routine.
- Write down a simple schedule to follow.
