

VOICE BROADCASTING ORDERS

Step 3

1. Voice Broadcasting Minutes

Prices:

10,000 minutes - \$229
20,000 minutes - \$399
30,000 minutes - \$549

Lead phone numbers included with each package. Something very important to consider...

Would you be willing to spend \$2000 on voice broadcasting per week if you received only one \$3500 pledge per week? (Just an example for illustration purposed, not to suggest you spend \$2000/week)

Your answer to this question will give you a pretty good idea of how your mind has been trained to think. Let's take a closer look.

\$2000 per week means you would spend \$8,000 for VB in a month, **YIKES!**

However, just one \$3500 pledge per week means you received \$14,000 in a month. **Not bad!**

Your net **POSITIVE** cashflow for the month is **\$6,000** (\$14,000 - \$8,000).

You **spent \$8,000** for the month to **receive \$6,000 in net POSITIVE cashflow**...hmmm

Would you do that for a year?

Spend \$96,000 to over a year's time to receive \$72,000 in net POSITIVE cashflow?

Absolutely!

If you can't say absolutely, then you still may have a scarcity mindset rather than an entrepreneurial one.

2. DIDs

In basic terms, DID's are phone numbers that rotate through the caller ID as the dialer is making calls. All of these numbers **forward** to your phone message. We use several DID's to limit the number of calls each phone number (DID) makes to prevent "Spam Likely" messages on the recipient's phone. Each DID costs 0.15/month with a 3-month minimum. Quantity starts at 300 DID's (\$135 for 3 months).

Prices: Starting at \$135 (300 DID's for 3 months)
