Animal Welfare and Participation Policies

Please note that The Haven prioritizes the well-being and safety of our African safari animals. While we strive to provide guests with the opportunity to interact with these beautiful animals, their presence in the safari area is subject to weather conditions and their own welfare. As such, we cannot guarantee the availability of giraffes and other safari animals at all times.

Additionally, we offer both peak and non-peak pricing options to accommodate varying seasons and weather conditions. During peak seasons, guests can expect standard pricing reflective of optimal weather conditions for outdoor activities and animal sightings. Conversely, non-peak pricing is significantly reduced, acknowledging the colder weather conditions that will impact the presence of animals outdoors.

Rest assured, regardless of weather conditions, our commitment to providing exceptional experiences remains unwavering. We invite guests to immerse themselves in the beauty of The Haven's surroundings and indulge in the countless offerings available, from luxurious accommodations to exquisite event space & unique add-ons, all while respecting the well-being of our beloved animal residents.

The Haven extends this principle to all enhancements involving our beloved animals. We prioritize their well-being above all else and adhere to strict protocols to ensure their comfort and safety.

As such, any enhancement involving animals is subject to their voluntary participation. While we strive to facilitate these experiences, we cannot guarantee their availability if the animals choose not to participate.

In the event that an enhancement involving animals is purchased but cannot be fulfilled due to the animals' decision not to participate, guests will receive a full refund for the enhancement. At The Haven, our dedication to the welfare of our animal companions remains unwavering, and we appreciate your understanding and support in upholding these values.

Prohibited use of rice, confetti, glitter, sparklers or paper lanterns for the safety of the animals on property. Any open flames must be contained with a minimum 1 inch clearance.
