

Welcome !

By now you should have seen a video or presentation and be familiar with the compound calculator as it relates to Wealth Sharing!

If you have any questions, please reach out to your sponsor.

Now, let's get you started.

We will be setting up your trading platform

1. Trading Platform where trades are made (copy /paste code)

Trading Platform is: **DSJEX**

Get your referrer's link & code

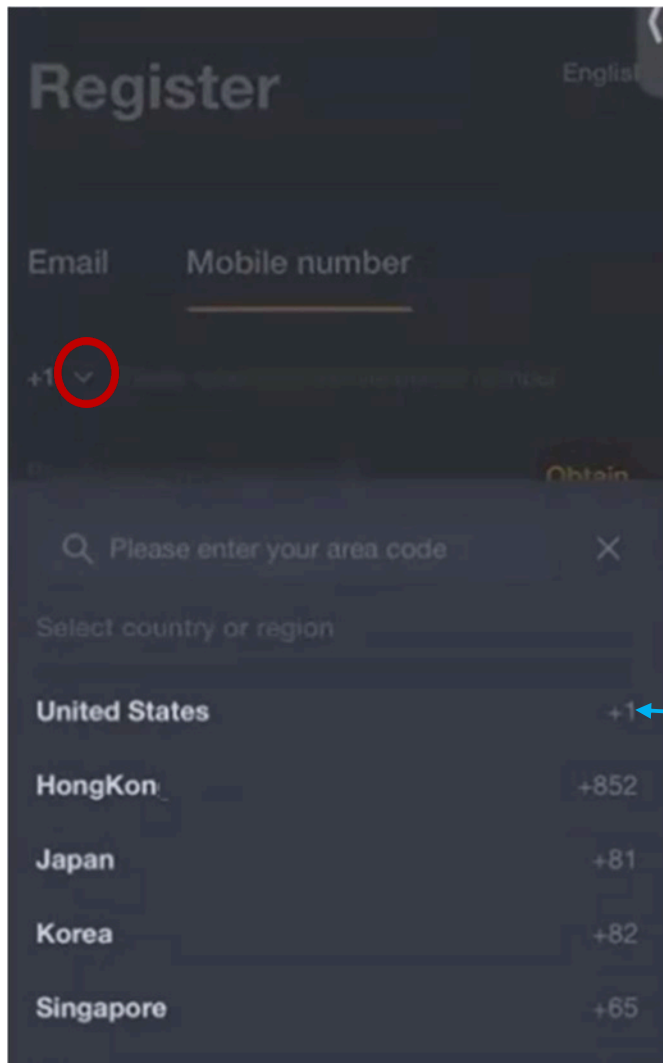

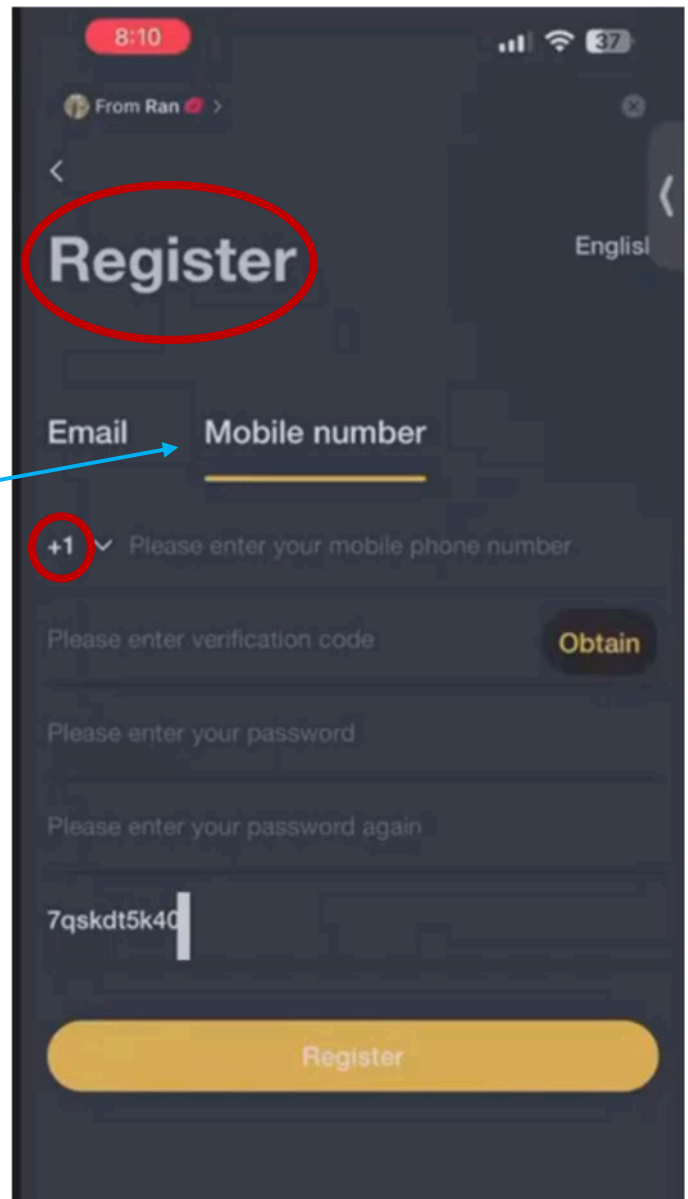

Do you have the [Invitation Code Link](#) from the person referring? If not, please contact your referrer.

You need their full name, link and invitation code.

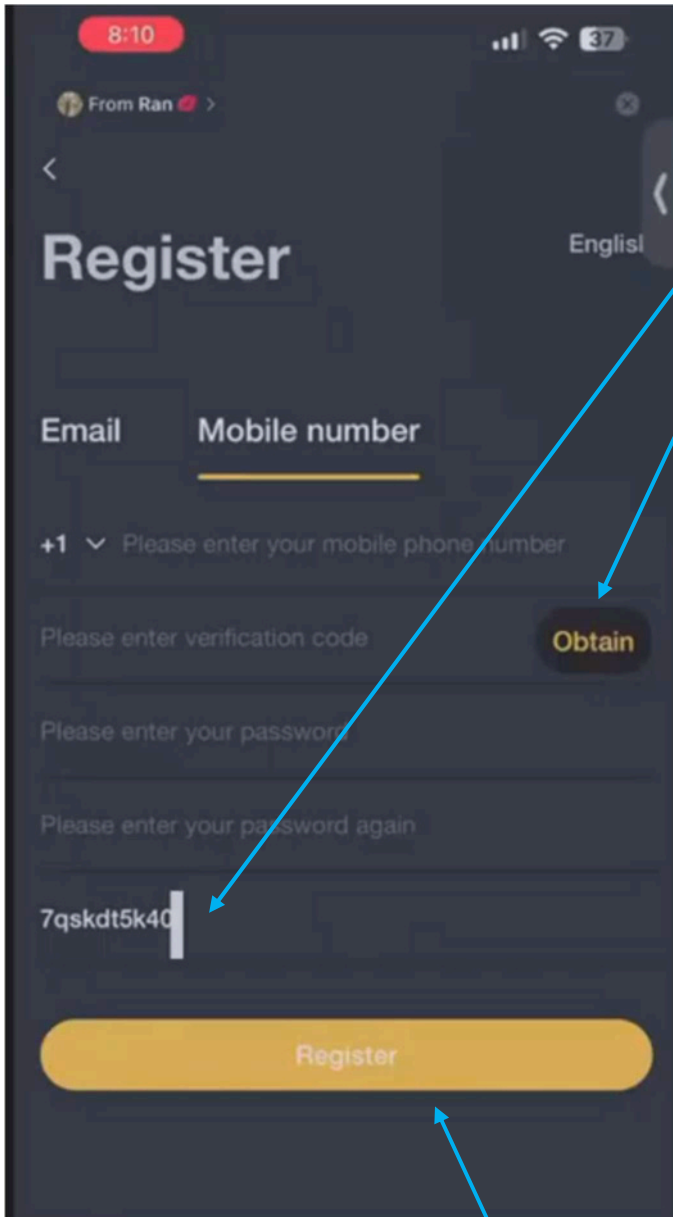

Once you get your referrer's link, click on the link and follow the steps below.

Register under the [Mobile Number](#); NOT the Email
Once you click Mobile Number, be sure the +1 is showing signifying you are in the United States.
If the +1 is not showing or the person is from another country, choose the country from the dropdown list by hitting the

Drop down list
Enter the [Mobile Number](#)
NO spaces or dashes

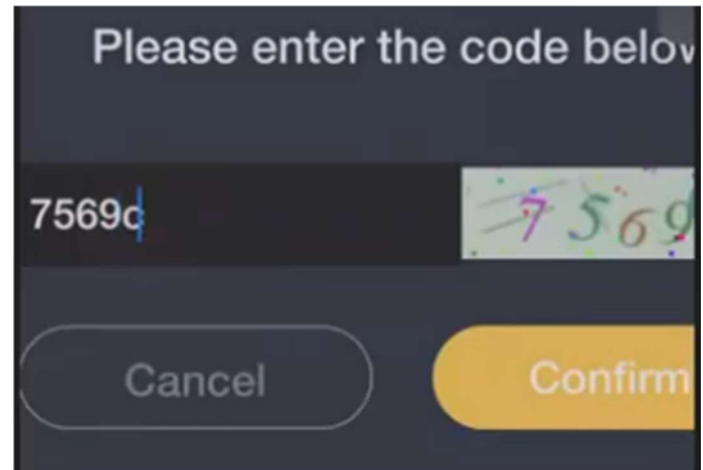

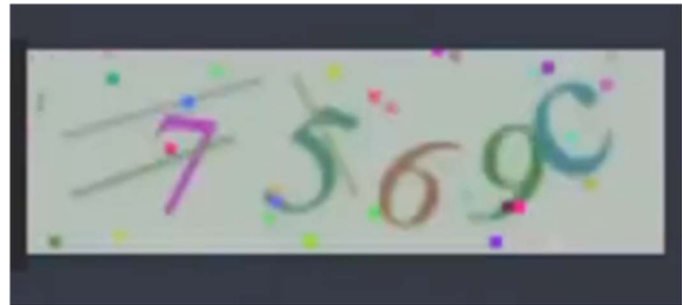

SKIP "Obtain" Do the Password **FIRST!**

Password: Choose one with a minimum of atleast 8 characters; 1 number and 1 capital letter

- Enter the Password a 2nd time.
- Verify that the **Referrer's Code** is below the 2 Passwords

Now click **Obtain**.

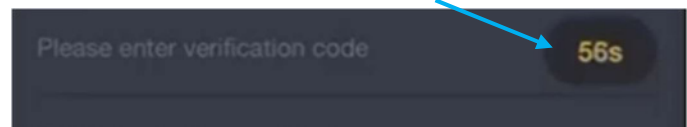

A Captcha will appear. Click until you find one you can read.

Enter the Captcha Code

Click **Confirm**

Once Confirm is clicked a countdown begins

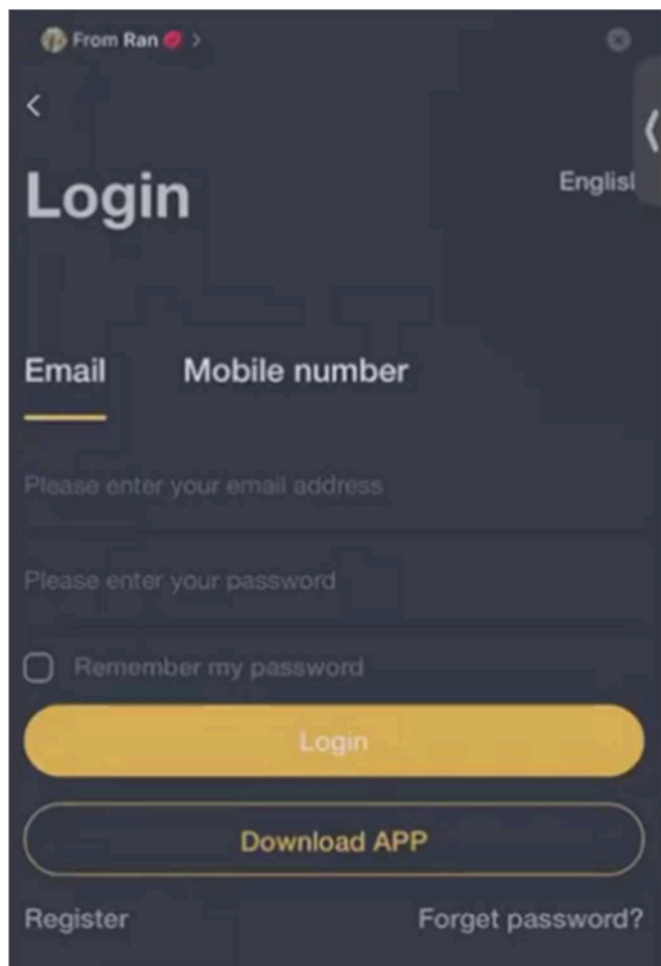

A Verification Code will be texted to you

Once the Verification Code is received, enter the Verification Code beside the countdown then

Click **Register**

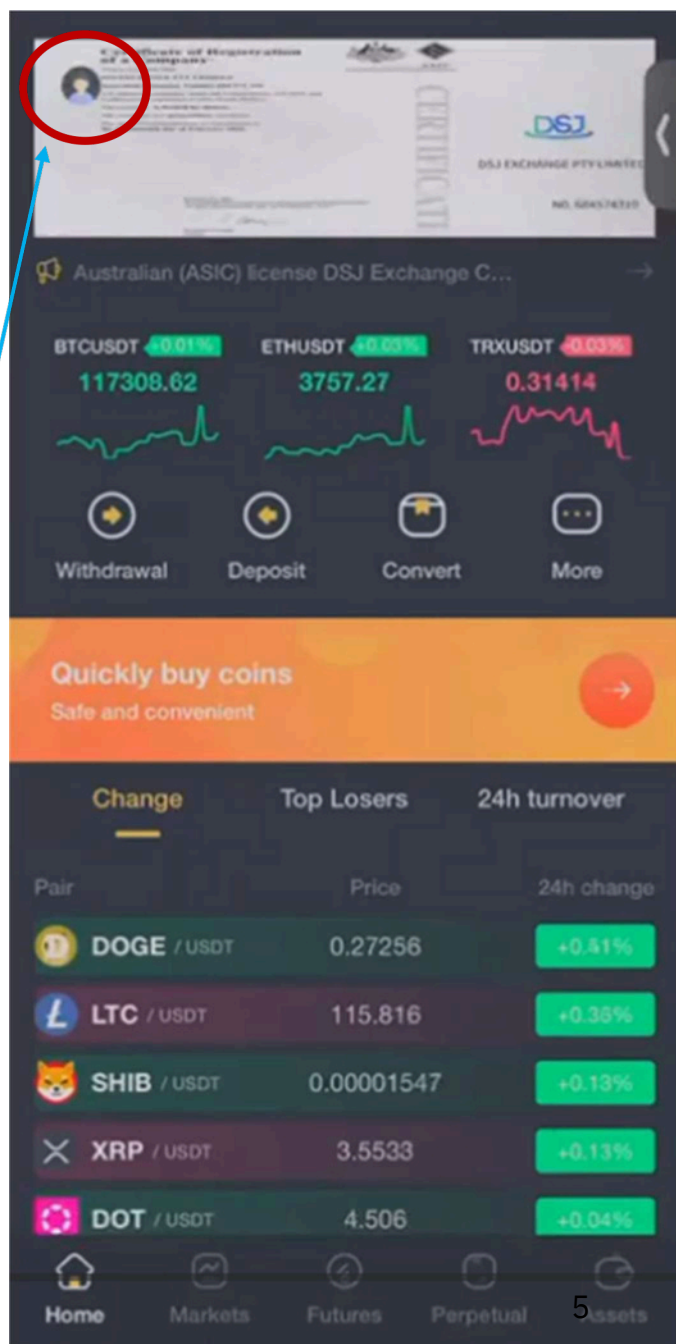

Now It's time To Login!

BOOKMARK THIS WEBSITE AND YOUR LOGIN/PASSWORD

Now it's time to Login. Login by clicking [Mobile Number](#) and putting the phone number in Again be sure the **+1** for the United States is visible. If not hit the down arrow like before

Enter the [Password](#)
[Remember my password](#)
Click [Login](#)

Click on the little circle in the upper left corner; the man in the [blue shirt](#) Once that opens, go to [Download App](#) and complete process for IOS or Android to download the App

Once the App is downloaded and verified on your phone's home page, click on the App and [Login!](#)
