Closing Reflections & Updates

Final thoughts, inspiration, and what's ahead.

WELCOME TO DIVINELY
EMPOWERED FOR SUCCESS

Editor's Note

Beauty is more than what we see. It can be expressed through creativity, confidence, craftsmanship, and the courage to show up authentically. But as believers, we are called to look beyond the surface and recognize the purpose behind what we create.

Welcome to Edition 9 of Divinely Empowered Magazine, where we explore the intersection of faith, beauty, fashion, purpose, creativity, and influence.

Our cover story features Dr. Nicole Rayfield, a beauty entrepreneur who is building more than just a beauty brand—she is creating with intention and using her gifts to make a meaningful impact. Her journey reminds us that faith and creativity can coexist in the marketplace through excellence, vision, and purpose.

As you explore this edition, I invite you to see beauty differently: as an expression of identity, fashion as a reflection of confidence, and influence as an opportunity to positively impact others.

You were created with intention. Your gifts have purpose. Your influence matters.

Anastacia

Turning Ideas Into Solutions That Empower Others

From Purpose to Product: Dr. Nicole Rayfield Is Redefining Beauty, Innovation & Impact

WRITTEN BY: DR. NICOLE RAYFIELD

Founder & CEO of Polish Me Unbothered

Dr. Nicole Rayfield is an entrepreneur, inventor, educator, and Founder and CEO of Polish Me Unbothered, an award-winning, vegan-friendly, cruelty-free nail polish brand created to celebrate confidence, self-expression, and community impact.

She is also the founder of Mad Money Labs™, an innovation company dedicated to creating practical solutions that help entrepreneurs work smarter, grow faster, and overcome everyday business challenges. Her work reflects a simple but powerful belief: business should do more than generate revenue—it should solve problems, create opportunities, and make people's lives better.

With a Ph.D. in Organizational Leadership from Eastern University, Dr. Rayfield brings together academic expertise, entrepreneurial experience, and a passion for economic empowerment. Whether she is educating, mentoring, creating products, or developing new solutions, her focus remains on helping people turn ideas into impact.

“Beauty becomes another avenue through which confidence and purpose can be expressed.”

PHOTOGRAPHY BY RICKY CODIO

For Dr. Rayfield, Polish Me Unbothered represents far more than beauty. The brand was created to celebrate the many shades of women in the workplace who are determined to remain “polished and unbothered.”

Its collections and shade names draw directly from the lived experiences of Black women, creating a connection between color, identity, confidence, and self-expression.

The brand’s high-quality, non-toxic formulas are designed to shine as brightly as the

accomplishments of the women wearing them. But there is a deeper mission behind the polish.

Polish Me Unbothered exists to empower Black women and other marginalized communities. Through bold, unapologetic colors, the brand seeks to break barriers while supporting anti-violence and healing initiatives.

For Dr. Rayfield, beauty becomes another avenue through which confidence and purpose can be expressed.
