Back Ground

DUNAMIS GENERAL WORKS LIMITED is a reputable construction company that specializes in providing a range of construction services to clients in various industries. The company is committed to delivering high-quality construction projects that meet and exceed the expectations of its clients.

Since its establishment, the company has built a solid reputation for excellence in the industry, making it one of the most trusted construction companies in the country.

The company has a team of highly skilled and experienced construction professionals who are dedicated to delivering exceptional results. Its team of engineers, architects, project managers, and other construction specialists work closely with clients to ensure that their needs are met and that their projects are completed on time and within budget.

DUNAMIS GENERAL WORKS LIMITED offers a comprehensive range of construction services, including but not limited to, design and build, project management, general contracting, construction management, pre-construction planning, cost estimating, value engineering, and post-construction services. The company has extensive experience in a wide range of construction projects, including commercial, residential, industrial, healthcare, education, and infrastructure projects.

DUNAMIS GENERAL WORKS LIMITED is committed to safety and quality on all its construction projects. The company has a rigorous safety program that ensures that all construction activities are carried out in a safe and responsible manner. Its quality management system ensures that all construction projects meet the highest standards of quality.

The company has invested heavily in modern construction equipment and technology to ensure that it delivers projects efficiently and cost-effectively. Its state-of-the-art construction equipment enables the company to undertake complex construction projects with ease.

DUNAMIS GENERAL WORKS LIMITED is committed to sustainability and environmentally responsible construction practices. The company uses eco-friendly construction materials and practices, and it ensures that all its construction projects have minimal impact on the environment.

Our Mission

"To offer the highest-quality construction services to all Clients by paying special attention to detail".

"We always aim at maximum quality and minimize the cost"

Our Growth

We maintain a high-quality, service-oriented attitude that leads to project delivery on time for our clients. As a result, our company has grown significantly with deep-rooted values.

The Company has further embraced Innovation in the Engineering Industry.

Our Core Values

1. Prompt service delivery
2. Customer care and satisfaction
3. Professionalism
4. Teamwork
5. Sustainability
6. Social conscience profitability

Our Core Services

1) Building Construction Services

Our experienced team boasts of the expertise, commitment, and organizational skills required to deliver all building structures (school structures, commercial buildings, hospital structures, residential structures, religious structures, farm structures and any other building structure). we take on the mantle as relates to material, labor, equipment, plus auxiliary services

2) Electrical Engineering Services

- ☑ Electrical Design and modification reviews
- ☑ Specialists in Pfister type of terminations
- ☑ Electrical Maintenance practice as well as safety reviews and recommendations
- ☑ Technical specifications, materials and electrical equipment sourcing, equipment erection/installation, testing and commissioning of electrical works (Low Voltage, Medium and High Voltage ranges up to 132kV)

"We always aim at maximum quality and minimize the cost"

- ☑ Cable works which include: - Laying, cable jointing, cable terminations, mega testing, Pressure testing, Earth resistance testing and so many other activities involved, amongst too are civil works for Low Voltage, Medium and High Voltage ranges up to 132kV.
- ☑ Construction of overhead power lines and their maintenance. We also carry out line clearance for overhead lines, Substation designing and construction
- ☑ Supply and installation of solar lights: stand alone and all in one system.
- ☑ Switchgear servicing and maintenance
- ☑ Transformers oil tests and filtrations
- ☑ Maintenance and overhaul of diesel Generators.
- ☑ Major refurbishments/rehabilitation of substation's switchgears/accessories; CTs VTs, Surge arresters, ACSR Conductors, Line taps, VCBs, TXs, SF6 CB, Air brake switches, Gantries, etc.
- ☑ Installations of 33KV Substation switchgears for plant capacity expansion
- ☑ Overhaul & oil filtration of factory Transformers (0.75-4MVA)
- ☑ Mechanical Maintenance of motors (up to 750KW) in factories

3) Road Construction Services

We execute all phases of road construction to include, but not limited to: earth work, utilities, drainage, concrete and asphalt paving, bridge construction, as well as aggregate production and manufacture of asphalt pavement

4) Water Projects & Borehole Drilling

This includes the following services;

- ☑ Construction of gravity flow water supply projects
- ☑ Construction of all motorized water supply projects
- ☑ Borehole drilling and borehole rehabilitation
- ☑ Construction of all water reservoirs
- ☑ Construction of all irrigation schemes

Our team

Personnel	Professional/Academic Qualifications	Position in the Company	Number of Staffs
1. Directors			
Ndyagumaho Ishimael	Business Man	Managing Director	1
Kentengye Rosemary	Business Woman	Director	1
Musinguzi Leonidas	Business Man	Director	1
2. Technical Staffs			
Project Managers	Bachelor of Science in Civil and Building Engineering, Registered Engineers (ERB)	Project Managers	2
Site Engineers	Bachelor of Science in Civil and Building Engineering	Site Engineer	2
Electrical Engineer	Bachelor of Science in electrical Engineering	Electrical Engineer	1
Mechanical Engineer	Bachelor of Science in Mechanical Engineering	Mechanical Engineer	1
Site foremen (Civil works)	Diploma in building and Civil Engineering	Site Foremen	2
Electricians	Diploma in Electrical Engineering	Site Foremen	4
Water Engineers	Diploma in Water Engineering	Water engineers/plumbers	4
Quantity Surveyor	Bachelor Degree in Quantity Surveying	Quantity Surveyor	1
Land Surveyor	Bachelor Degree in Land Surveying	Land Surveyor	1
Masons	Craft Certificate in brick laying and concreting	Foremen	4
Carpenters	Craft Certificate in joinery and carpentry	Tradesmen	4
3. Administrative Staff			
Accountant/Finance Manager	Bachelor Science in Accounting and Finance (CPA)	Accountant	1
Logistics & Procurement Officer	Bachelor Degree BBA	Office Administrator	1

"We always aim at maximum quality and minimize the cost"

Personnel	Professional/Academic Qualifications	Position in the Company	Number of Staffs
HR Manager	Bachelor Degree BBA	HR	1
Environmental, health & safety manager	Bachelor Degree in environment/health and safety related course	EHS Manager	1
