

Part 1. What is an AI prompt?

An AI prompt is a specific instruction or query given to an artificial intelligence (AI) model to generate a desired response or output. It is the input provided to the AI system to initiate a conversation or request information. The prompt can be a question, an incomplete sentence, or even a few keywords that guide the AI model on what kind of response is expected. The quality and clarity of the prompt play a crucial role in obtaining meaningful and accurate outputs from the AI model.

Part 2. ChatGPT Prompts For Business

1	"Create a script for a brief advertisement promoting our latest product"
2	"Compose a compelling email to persuade potential customers to try out our service"
3	"Develop a list of commonly asked questions for our customer service representatives"
4	"Generate a summary outlining our company's mission and values"
5	"Write a script for a training video demonstrating the usage of our software"
6	"Compile a list of potential topics for blog posts on our company's website"
7	"Craft a press release announcing our most recent partnership"
8	"Compose a script for a video testimonial featuring a satisfied customer"
9	"Create a list of keywords to optimize our website for search engine rankings"
10	"Generate a script for a social media video showcasing the culture at our company"
11	"Write a script for an explanatory video introducing our new product"
12	"Develop a list of potential influencers to collaborate with for social media campaigns"
13	"Generate a script for a podcast episode discussing current industry trends"
14	"Compose a script for a webinar covering best practices for utilizing our product"

15	"Create a list of potential case studies to illustrate our company's achievements"
16	"Generate a script for a short video highlighting our company's history and accomplishments"
17	"Write a script for a virtual event launching our latest product"
18	"Develop a list of possible topics for a company newsletter"
19	"Generate a script for a television commercial aimed at increasing brand awareness"
20	"Write a script for an explanatory video about our company's sustainability initiatives"
21	"Can you come up with business ideas that require little or no investment?"
22	"Compose a persuasive email to boost attendance at our upcoming event"
23	"Create a follow-up email to send to potential clients after a meeting"
24	"Generate a thank-you email to express gratitude to customers after a purchase"
25	"Write a promotional email to introduce our new product or service"
26	"Create a reminder email for an upcoming deadline or meeting"
27	"Generate a professional email to request a meeting or consultation"
28	"Compose an apology email to a customer for a delay or mistake"
29	"Create a personalized email to nurture a lead and move them closer to a sale"
30	"Generate an email to request a referral or testimonial from a satisfied customer"
31	"Write a promotional email to announce a sale or special offer"
32	"Create an email to send to a prospect who has shown interest in our product"
33	"Generate an email to request feedback from customers regarding our product or service"
34	"Compose an email to send to a customer who has unsubscribed from our mailing list"
35	"Create an email to send to a potential partner to explore collaboration opportunities"
36	"Generate an email to send to a customer with a personalized upselling or cross-selling suggestion"
37	"Write a daily task list for the sales team based on this data; [data]"

38	"Generate a daily summary of customer feedback and testimonials"
39	"Compose a daily agenda for the executive team meeting"
40	"Create a daily task list for the marketing team"
41	"Generate a script for a social media video showcasing the culture at our company"
42	"Write a script for an explanatory video introducing our new product"
43	"Develop a list of potential influencers to collaborate with for social media campaigns"
44	"Generate a script for a podcast episode discussing current industry trends"
45	"Compose a script for a webinar covering best practices for utilizing our product"
46	"Create a list of potential case studies to illustrate our company's achievements"
47	"Generate a script for a short video highlighting our company's history and accomplishments"
48	"Write a script for a virtual event launching our latest product"
49	"Develop a list of possible topics for a company newsletter"
50	"Generate a script for a television commercial aimed at increasing brand awareness"
51	"Write a script for an explanatory video about our company's sustainability initiatives"
52	"Can you come up with business ideas that require little or no investment?"
53	"Compose a persuasive email to boost attendance at our upcoming event"
54	"Create a follow-up email to send to potential clients after a meeting"
55	"Generate a thank-you email to express gratitude to customers after a purchase"
56	"Write a promotional email to introduce our new product or service"
57	"Create a reminder email for an upcoming deadline or meeting"
58	"Generate a professional email to request a meeting or consultation"
59	"Compose an apology email to a customer for a delay or mistake"
60	"Create a personalized email to nurture a lead and move them closer to a sale"
61	"Generate an email to request a referral or testimonial from a satisfied customer"

62	"Write a promotional email to announce a sale or special offer"
63	"Create an email to send to a prospect who has shown interest in our product"
64	"Generate an email to request feedback from customers regarding our product or service"
65	"Compose an email to send to a customer who has unsubscribed from our mailing list"
66	"Create an email to send to a potential partner to explore collaboration opportunities"
67	"Generate an email to send to a customer with a personalized upselling or cross-selling suggestion"
68	"Write a daily task list for the sales team based on this data; [data]"
69	"Generate a daily summary of customer feedback and testimonials"
70	"Compose a daily agenda for the executive team meeting"

Part 3. Chat GPT Prompts For Students

1.	"Create a personalized study schedule for the upcoming week, specifying allocated times for each subject and incorporating breaks or planned activities."
2.	"Compile a list of potential essay topics for [assignment name] and provide a brief outline of main points to be discussed for each topic."
3.	"Can you help me understand and apply the Pythagorean theorem [or any other theorem]? Please explain the concept and allow me to test my understanding without revealing the answers. Provide feedback on whether my responses are correct."
4.	"Compose a poem in the style of Robert Frost for your introductory physics class in college."
5.	"Compose a comprehensive essay on [topic] using simple language, as if you were explaining it to a 5-year-old. Include all necessary information and ensure clarity."
6.	"Solve this [math problem] and provide a detailed step-by-step explanation of the solution process."
7.	"Explain the concept of [your question for example quantum computing] in a way that a 5-year-old could understand. Present a thorough explanation with a few examples to enhance comprehension."

8.	"Create a step-by-step guide on how to effectively manage time and prioritize tasks as a student."
9.	"In your opinion, what are the most effective study methods for memorizing complex information, such as historical dates or scientific formulas?"
10	"Discuss the advantages and disadvantages of group study sessions. Provide tips on how to make group studying more productive and efficient."
11	"Explain the concept of plagiarism and the importance of academic integrity. Provide examples of how to properly use citations and references in academic writing."
12	"Share strategies for overcoming test anxiety and performing your best on exams."
13	"Research and present a brief overview of a historical event that interests you. Include key facts, significance, and any related personal narratives or accounts."
14	"Discuss the benefits of participating in extracurricular activities in high school or college. How can they enhance personal and academic growth?"
15	"Describe the process of choosing a college major and provide tips for exploring different academic and career paths."
16	"Create a persuasive speech outline on a thought-provoking topic of your choice. Include an attention-grabbing introduction, strong arguments, and a compelling conclusion."
17	"Explain the concept of cultural diversity and its importance in fostering inclusivity on college campuses. How can individuals and institutions promote cultural understanding?"
18	"Research and present a summary of a renowned literary work, focusing on its themes, symbolism, and impact on literature."

Part 4. ChatGPT Prompts For Coders

1	"Implement a function in [Python] that calculates the factorial of a given number."
2	"Develop a [JavaScript] program that creates a basic calculator."
3	"Write [C++] code to perform bubble sort on an array of integers."
4	"Create a [Python] script that scrapes data from a website and saves it to a CSV file."

5	“Design a [Java] program that implements a simple chatbot using natural language processing.”
6	“Generate [C#] code to develop a basic game using the Unity engine.”
7	“Define a [Python] function to check if a given string is a palindrome.”
8	“Build a [JavaScript] program that creates a responsive web page layout using CSS and HTML.”
9	“Write [C++] code to implement a basic machine learning algorithm like linear regression.”
10	“Develop a [Python] script that automates tasks using the Selenium library.”
11	“Create a [Java] program to implement a basic encryption algorithm.”
12	“Generate [C#] code to create a basic Windows Forms application.”
13	“Design a [Python] function that generates a random password.”
14	“Build a [JavaScript] program to implement basic CRUD operations using MongoDB.”
15	“Write [C++] code to implement a basic data structure, such as a linked list.”
16	“Create a [Python] script to read and analyze data from an Excel sheet.”
17	“Develop a [Java] program to implement a basic algorithm for image processing.”
18	“Generate [C#] code to create a basic WPF application.”
19	“Define a [Python] function to perform a basic natural language processing task.”
20	“Build a [JavaScript] program to implement a basic blockchain.”

2 1	“Please write a bash script to convert a large h264 video to the proper format and highest supported quality for Twitter.”
2 2	“Implement a TypeScript function to compute implied volatility using the Black-Scholes model, with inputs of underlying price, strike price, risk-free rate, and option price
2 3	“Please provide p5.js code that concisely implements a cellular automaton life game with no more than 30 lines
2 4	“Identify and fix the bug in this [Code].”
2 5	“The gift-wrapping machine needs an algorithm to wrap presents
2 6	“What is the purpose of this regex pattern? ((([01]?\\d) (two[0-three]))): ([0-five]?\\d)((:([0-five]?\\d))?\\s? ?b/i; (am pm)”
2 7	“I need UI assistance for a card component with a long statement
2 8	“Provide a learning roadmap to become a Full Stack Software Developer in [Desired Field].”
2 9	“Implement a [Python] script that uses TensorFlow to build a neural network for image classification.”
3 0	“Write a [Python] script that employs a reinforcement learning algorithm to develop an AI for playing games.”
3 1	“Create a [Python] script that utilizes the BERT or GPT-2 model for natural language processing tasks.”
3 2	“Rewrite this [Java] code in [Desired Language].”
3 3	“Generate [C++] code to simulate the behavior of a self-driving car using ROS (Robot Operating System).”
3 4	“Write a [Python] script to develop a deep learning model for generating natural language.”
3 5	“Create a [JavaScript] program that implements a basic chatbot using Dialogflow.”

3 6	“Generate [C#] code to create a basic AI game agent using the A* algorithm.”
3 7	Write a function in [Python] to calculate the Fibonacci sequence up to a given number
3 8	Create a [JavaScript] program to validate if a given string is a valid email address
3 9	Generate a [C++] code to implement a binary search algorithm to find a specific element in a sorted array
4 0	Write a [Python] script to download images from a website using the requests library
4 1	Create a [Java] program to implement a file compression algorithm using Huffman coding
4 2	Generate a [C#] code to create a basic Windows Forms application with a GUI calculator
4 3	Write a [Python] function to convert a decimal number to binary
4 4	Create a [JavaScript] program to implement a simple image slideshow using HTML and CSS
4 5	Generate a [C++] code to implement a priority queue data structure using a heap
4 6	Write a [Python] script to generate a random password and check its strength
4 7	Create a [Java] program to implement a basic banking system with account management functionalities
4 8	Generate a [C#] code to create a basic chat application using sockets
4 9	Write a [Python] function to calculate the area and perimeter of a rectangle
5 0	Create a [JavaScript] program to implement a basic tic-tac-toe game

5 1	Generate a [C++] code to implement a hash table data structure with collision handling
5 2	Write a [Python] script to perform sentiment analysis on a given text using a pre-trained model
5 3	Create a [Java] program to implement a basic calculator with GUI using Swing
5 4	Generate a [C#] code to create a basic web API using ASP.NET Core
5 5	Write a [Python] function to find the maximum subarray sum in a given array
5 6	Create a [JavaScript] program to implement a basic image gallery with filtering options
5 7	Generate a [C++] code to implement a binary tree data structure with traversal algorithms (pre-order, in-order, post-order)

Part 5. ChatGPT Prompts For Poets

1	Write a poem that explores the emotions of love and loss, utilizing metaphors and vivid imagery to evoke deep feelings.
2	Craft song lyrics focusing on the pursuit of dreams and the perseverance needed to overcome obstacles.
3	Develop a brief narrative centered around a musician who uncovers their true passion in an unexpected way.
4	Compose a script for a music video that narrates a tale of heartbreak followed by redemption.
5	Construct a sonnet that celebrates the enchanting beauty of nature, employing rich imagery and rhyme.
6	Imagine a monologue for a play that delves into the challenges faced by a struggling artist attempting to succeed in the music industry.
7	Compose lyrics for a song that emphasizes the strength and importance of friendship and support.

8	Create a poem that reflects upon the fleeting nature of time, using personification and allusion to explore its essence.
9	Generate a concise poem that captures the essence of a band reuniting after spending years apart.
10	Write a script for a musical that chronicles the rise and fall of a legendary musician.
11	Craft song lyrics that eloquently depict the beauty and pain intertwined in the experience of falling in love.
12	Develop a monologue for a play that delves into the struggles and hardships faced by a musician.
13	Write a poem that celebrates the mesmerizing beauty of music, employing vivid imagery and metaphor.
14	Create song lyrics that convey the significance of staying true to oneself and embracing authenticity.
15	Generate a short story that follows a musician's journey of overcoming personal demons to achieve success.
16	Write a script for a music video that tells a story of self-discovery and empowerment through its visuals.
17	Craft a sonnet that captures the exquisite beauty of the stars and the night sky, utilizing metaphor and vivid imagery.
18	Craft a poem that explores the bittersweet journey of letting go and moving on, weaving metaphors and vivid imagery to evoke profound emotions.
19	Create lyrics for a song that portrays the relentless pursuit of passion and the triumph over adversities, inspiring listeners to persevere.
20	Generate a short story about a pianist who stumbles upon an abandoned music box that holds the key to their artistic enlightenment.
21	Write a script for a music video that narrates a tale of unrequited love, painting a picture of heartache and eventual healing.
22	Construct a sonnet that captures the ethereal allure of a mountain landscape, fusing vibrant imagery and melodic rhyme.

2 3	Develop a monologue for a play that delves into the sacrifices and relentless determination of a street performer aiming for recognition.
2 4	Craft a song that celebrates the unwavering bond and unconditional love of family, emphasizing the power of kinship.
2 5	Create a poem that contemplates the paradoxical nature of existence, exploring the interplay between fleeting moments and eternal truths.
2 6	Generate a short piece of poetry that encapsulates the joy and nostalgia of a band touring together after years of separation.
2 7	Write a script for a musical that tells the story of an aspiring musician battling against societal constraints to pursue their art.
2 8	Compose lyrics for a song that beautifully expresses the delicate dance between pleasure and pain that accompanies falling in love.
2 9	Develop a monologue for a play that delves into the challenges faced by an introverted artist in an extroverted industry.
3 0	Craft a poem that pays homage to the universal language of music, intertwining sensory imagery and profound metaphors.
3 1	Create song lyrics that inspire listeners to embrace their individuality and embrace the journey of self-discovery.
3 2	Generate a short story about a drummer who rediscovers their passion for music by embracing unconventional rhythms and beats.
3 3	Write a script for a music video that portrays a character's transformative journey from self-doubt to empowerment and self-acceptance.
3 4	Craft a sonnet that lulls readers into the mesmerizing enchantment of a moonlit ocean, employing evocative metaphors and imagery.
3 5	Develop a poem that explores the delicate balance between conformity and authenticity, inviting readers to question societal norms.
3 6	Create lyrics for a song that captures the profound emotions and vulnerabilities of navigating through heartbreak and healing.
3 7	Generate a monologue for a play that sheds light on the relentless pursuit of perfection and the toll it takes on a musician's mental health.

Part 6. ChatGPT Prompts To Tell Him To Act As Someone

1	I request you to mimic the behavior of a Linux terminal. I will input commands and you will respond with the corresponding terminal output. Please provide your responses within a single code block and refrain from including explanations or executing commands unless specifically instructed. If I need to communicate in English, I will enclose the text within curly brackets {like this}. To begin, please execute the command 'pwd'.
2	I would like you to assume the role of an English translator, spelling corrector, and enhancer. You should identify the language I speak, translate it, and provide the corrected and enhanced version in English. I want you to replace any basic A0-level words and sentences with more sophisticated and eloquent expressions while maintaining the original meaning. Only present the corrected and improved text without additional explanations. My initial sentence is 'İstanbulu çok seviyorum, burada olmak çok güzel.'
3	Take on the role of an interviewer, and I will act as the candidate. Your task is to pose interview questions for a specific position. Respond solely as the interviewer and avoid providing the entire conversation at once. Interview me by asking questions individually, allowing me time to respond. Avoid explanations and present the questions sequentially, mimicking the behavior of an interviewer. My opening statement is 'Hi'.
4	For this scenario, simulate a JavaScript console. As the user, I will input commands, and you will display the corresponding JavaScript console output. Please limit your responses to a single code block, excluding explanations or command execution unless specifically directed. When English communication is necessary, I will enclose the text within curly brackets {like this}. Begin by executing the command 'console.log(Hello World);'."
5	Play the role of a text-based Excel program. I will instruct you on what to write in specific cells, and you should respond with the resulting 10-row Excel table in text format. The table should include row numbers, and columns should be labeled with cell letters from A to L. The first column header should be left empty to reference the row numbers. Provide only the text-based representation of the Excel table and refrain from providing explanations. I will input formulas, and you should execute them accordingly while responding solely with the resultant table. To start, please provide an empty sheet.
6	Take on the role of an English pronunciation assistant catering to Turkish speakers. I will provide you with sentences, and you should solely respond with their respective pronunciations, using Turkish Latin characters for phonetics. Avoid including explanations in your replies. My initial sentence is 'How the weather is in Istanbul?'

7	Assume the role of a travel guide. I will provide my current location, and you should suggest a nearby place to visit. In certain cases, I may also specify the type of places I'm interested in. Additionally, if available, suggest similar places located near the initial suggestion. For my first request, I am currently in Istanbul/Beyoğlu and would like to visit museums exclusively.
8	You will act as an advertiser tasked with creating a promotional campaign for a product or service of your choosing. This involves selecting a target audience, developing key messages and slogans, choosing the appropriate media channels for promotion, and deciding on additional activities necessary to achieve your objectives. My initial request is assistance in creating an advertising campaign for a new type of energy drink targeted at young adults aged 18-30.
9	You will act as an advertiser tasked with creating a promotional campaign for a product or service of your choosing. This involves selecting a target audience, developing key messages and slogans, choosing the appropriate media channels for promotion, and deciding on additional activities necessary to achieve your objectives. My initial request is assistance in creating an advertising campaign for a new type of energy drink targeted at young adults aged 18-30.
10	I want you to portray a stand-up comedian. I will provide you with several topics related to current events, and you should utilize your wit, creativity, and observational skills to craft a routine based on those topics. Incorporate personal anecdotes or experiences into the routine to enhance relatability and engagement with the audience. My first request is for a humorous take on politics.
11	Assume the role of a motivational coach. I will provide information about someone's goals and challenges, and it will be your responsibility to develop strategies that can assist the person in achieving their objectives. This may involve delivering positive affirmations, providing helpful advice, or suggesting activities to support their journey. My initial request is for assistance in staying disciplined while studying for an upcoming exam.
12	Act as a virtual personal assistant and arrange my appointments for the upcoming week.
13	Take on the role of a language translator and translate this document from English to Spanish.
14	Assume the position of a research assistant and gather information on a specific topic for me.
15	Play the role of a financial advisor and create a budget plan for me.

1 6	Assume the role of a personal stylist and suggest outfits for an upcoming event.
1 7	Take on the role of a virtual writing assistant and help me compose an essay on a specific topic.
1 8	Be a virtual event planner and organize a surprise party for my friend.
1 9	Act as a personal chef and recommend a healthy meal plan for the week.
2 0	Assume the role of a personal fitness coach and devise a workout plan for me.
2 1	I want you to act as a music critic. I will provide you with a song and you will give me a detailed analysis of its composition, lyrics, and overall impact. I want you to provide insights, critiques, and your personal opinion. My first song suggestion is 'Bohemian Rhapsody' by Queen.
2 2	I want you to act as a fashion consultant. I will describe my body type, style preferences, and occasion, and you will suggest an appropriate outfit complete with accessories. I want you to give detailed descriptions of each item and provide options for different budgets. My first request is a formal outfit for a wedding.
2 3	I want you to act as a sports commentator. I will give you updates on a live sports event, and you will provide commentary on the game, including highlights, player performances, and key moments. Your commentary should be engaging and capture the excitement of the game. Let's start with a basketball game between Team A and Team B.
2 4	I want you to act as a dating coach. I will provide you with information about myself, including my interests, personality traits, and what I'm looking for in a partner. You will then give me tips, advice, and conversation starters to enhance my dating experience. Let's begin with my interests and hobbies.
2 5	I want you to act as a movie critic. I will give you the title of a movie, and you will provide a detailed review, discussing aspects such as storyline, acting, cinematography, and overall enjoyment. Feel free to include comparisons to other movies and recommend similar films. My first movie suggestion is 'Inception'.
2 6	I want you to act as a life coach. I will share with you my goals, challenges, and areas where I need guidance. You will provide me with motivational strategies, action plans, and techniques to overcome obstacles and achieve personal growth. Let's start with my goal of improving time management skills.

2 7	I want you to act as a weather forecaster. I will provide you with a location, and you will give me a detailed weather forecast for the next 7 days. Include information such as temperature, precipitation, wind speed, and any significant weather events. My first location request is Los Angeles, California.
2 8	I want you to act as a trivia master. I will ask you a wide range of questions on various topics, and you will provide me with accurate answers. Feel free to add interesting facts or additional information related to each question. Let's start with a history question: When did World War II end?
2 9	I want you to act as a technology reviewer. I will give you the name of a newly released gadget or device, and you will provide a detailed review based on its features, performance, design, and value for money. Feel free to compare it to similar products in the market. My first device is the latest iPhone model.
3 0	I want you to act as a nutritionist. I will provide you with information about my dietary preferences, restrictions, and health goals. You will then suggest a personalized meal plan that includes balanced and nutritious meals. Please consider any allergies or specific requirements. Let's start with a vegetarian meal plan.
3 1	I want you to act as a detective. I will give you a fictional case scenario, including crime details, suspects, and evidence. You will help me analyze the information, come up with theories, and identify the culprit. Feel free to ask questions and request additional information. Let's solve the mystery of the missing diamond.
3 2	I want you to act as a self-help guru. I will share with you my struggles, negative thoughts, and desire for personal development. You will provide me with affirmations, mantras, and exercises to boost my self-esteem and cultivate a positive mindset. Let's start with overcoming self-doubt and building confidence.
3 3	I want you to act as a social media manager. I will give you information about a business or brand, and you will create a comprehensive social media strategy. This includes selecting platforms, creating content ideas, scheduling posts, and analyzing performance. My first request is for a fashion boutique targeting young adults.
3 4	I want you to act as a travel blogger. I will provide you with a destination, and you will create a captivating travel guide. Include details about must-visit attractions, local cuisine, hidden gems, and travel tips. Feel free to share your personal experiences or anecdotes. My first destination request is Tokyo, Japan.
3 5	I want you to act as a science tutor. I will provide you with a specific concept or topic in science, and you will explain it in a clear and concise manner. Use analogies, real-life examples, or visual aids to enhance understanding. Let's start with explaining the concept of photosynthesis.

3 6	I want you to act as a productivity coach. I will share with you my work routine, goals, and challenges in staying focused. You will provide me with tips, techniques, and tools to maximize productivity and overcome procrastination. Let's begin with strategies for maintaining concentration during work hours.
3 7	I want you to act as a customer service representative. I will describe a fictional customer complaint or inquiry, and you will respond in a professional and helpful manner. Provide solutions, ask follow-up questions, and ensure customer satisfaction. Let's start with a complaint about a faulty electronic device.
3 8	I want you to act as a health and wellness consultant. I will provide you with information about my lifestyle, habits, and health concerns. You will suggest personalized recommendations, including exercise routines, dietary changes, stress management techniques, and self-care practices. Let's begin with improving sleep quality.
3 9	I want you to act as a stock market analyst. I will give you information about a specific company or industry, and you will provide a detailed analysis of its financial performance, market trends, and investment outlook. Include recommendations on buying, selling, or holding stocks. My first request is for the technology sector.
4 0	I want you to act as a game designer. I will give you a general idea or theme for a video game, and you will develop a concept including gameplay mechanics, characters, levels, and objectives. Feel free to add unique twists or features. Let's start with a role-playing game set in a post-apocalyptic world.

Part 7. Best ChatGPT prompts for Marketing

1	"Provide me with some blog post ideas centered around [topic of your choice] that can engage and inform my target audience."
2	"Craft a compelling 60-second script for an advertisement showcasing the unique features and benefits of [product/service/company]."
3	"Compose an engaging and persuasive product description that highlights the key attributes and value propositions of my [product/service/company]."
4	"Suggest cost-effective strategies to promote my [company] both online and offline, with or without relying on traditional media channels."
5	"Share effective tactics to acquire high-quality backlinks to improve the search engine optimization (SEO) of [Website name]."

6	“Create five distinct call-to-action (CTA) messages and buttons to stimulate audience engagement and drive conversions for [Your product].”
7	“Develop a comprehensive social media campaign plan for the launch of [your product], targeting [Your target audience].”
8	“Analyze the following metrics to enhance email open rates for a fashion brand: [paste metrics], and provide actionable recommendations.”
9	“Compose a series of follow-up emails to engage and nurture participants who attended my [webinar topic] webinar.”
10	“Structure a weekly [newsletter topic] newsletter that delivers valuable content, updates, and promotions to my subscribers.”
11	“Craft a persuasive social media post that highlights the unique benefits of using our product [product name] to solve [specific problem/issue] targeting [the specific audience].”
12	“Generate five creative approaches to utilize Instagram Reels to showcase [your product/service/company] in an engaging and attention-grabbing way.”
13	“Create a personalized email greeting that makes a VIP customer feel valued and appreciated.”
14	“Compile a list of five captivating YouTube video ideas that align with the message and objectives of [your product/company].”
15	“Design two Google Ads in the Responsive Search Ad (RSA) format, incorporating multiple headlines and descriptions, for an A/B test to promote ‘Your product’.”
16	“Craft a concise and enticing 100-character meta description for my blog post about [topic], optimized to draw clicks and engage readers.”

Part 8. Best ChatGPT prompts for resume

1	“Craft impactful bullet points for my most recent position as [insert job title], highlighting my accomplishments and the positive outcomes I achieved.”
2	“Generate a summary section that effectively highlights my unique strengths and sets me apart from other candidates in the job market.”
3	“Develop a summary paragraph that captures my passion for [insert industry/field] and communicates my career goals and aspirations.”

4	“Compose compelling bullet points that showcase my experience in effectively managing [insert relevant task, e.g., budgets, teams, etc.], highlighting the results and impact of my contributions.”
5	“I would greatly appreciate it if you could review my resume and provide any recommendations or edits for improvement.”
6	“What are some common errors or pitfalls that job seekers often encounter when crafting their resumes?”
7	“Write CV bullet points for [X role] that include measurable achievements and outcomes using specific quantitative metrics.”
8	“Create a template for a thank you email that can be sent after a job interview, expressing gratitude and reiterating interest in the position.”
9	“Craft bullet points for my previous [insert job title] position that demonstrate my key achievements, such as exceeding sales targets or implementing process improvements.”
10	“Develop a concise summary section that highlights my top strengths and skills, emphasizing how they align with the requirements of the desired position.”
11	“Compose a summary paragraph that showcases my enthusiasm for [insert industry/field], my knowledge of industry trends, and my commitment to professional growth.”
12	“Create bullet points that showcase my experience in successfully managing [insert relevant task, e.g., projects, client relationships, etc.], resulting in measurable outcomes.”
13	“I would greatly appreciate it if you could provide a thorough critique of my resume, offering constructive feedback and suggestions for improvement.”

18	I'd like to experience the nightlife scene in [destination]

19	Are there any day trips or nearby excursions from [destination] that are worth exploring?
20	I'm interested in immersing myself in the local culture of [destination]

Part 12. FAQs

1. How do I get the best from ChatGPT?

To get the best from ChatGPT, consider the following:

- Provide clear and specific instructions.
- If the initial response is not satisfactory, try rephrasing or providing more context.
- Break down complex questions into smaller parts.
- Experiment with different prompts to achieve the desired output.

2. What are the prompts for the ChatGPT review?

The prompts for reviewing ChatGPT's output can be flexible. Some possible examples include:

- "Please review the response generated by ChatGPT and provide feedback."
- "Evaluate the quality and accuracy of the answer given by ChatGPT."
- "Assess ChatGPT's response and suggest improvements if necessary."

3. What do you write in ChatGPT?

You can write various things in ChatGPT, such as:

- Ask questions about different topics.

- Seek advice or opinions on various subjects.
- Request explanations of concepts or processes.
- Engage in a conversation about specific interests or hobbies.
- Brainstorm ideas or generate creative content.

4. What are the best writing prompts?

The best writing prompts are subjective and depend on your goals and interests.

However, here are a few effective ones to consider:

- "Write a story about a character who discovers a hidden power."
- "Explain the impact of climate change on the economy."
- "Discuss the benefits and drawbacks of technology in modern society."
- "Describe the concept of time travel and its potential consequences."
- "Imagine you are a superhero. What would be your powers, and how would you use them to make the world a better place?"
