 **How to Use This Guide.**

If any machine in this guide catches your attention, kindly conduct your own additional research to properly assess its income potential before making any investment.

You are encouraged to:

- Search for the machine anywhere online or on **YouTube** to better understand how it works, its output capacity, and real-life use cases. Consult a qualified professional engineer before installation or operation, if necessary.
- Compare different suppliers and pricing before making a final decision.

Please note:

- You are **not required** to purchase any machine strictly from the links provided in this guide.

- Once you identify a machine you are interested in, you are free to buy it from **any legitimate source** of your choice.
 - Machine prices listed in this guide are **not fixed** and may change over time due to market conditions, location, and supplier policies.
-

How to Import Any Listed Machine from China or Buy Locally

Most of the machine links provided in this guide lead to [Alibaba](#) or [Made-in-China](#), where you can directly contact suppliers, negotiate prices, and place your order. These platforms allow international shipping to most countries.

Alternatively, many of these machines can also be sourced from:

- ✓ [Amazon](#)
 - ✓ [AliExpress](#)
 - ✓ [eBay](#)
 - ✓ [Facebook Marketplace](#)
 - ✓ Local online and offline suppliers in your area.
 - ✓ South Africa: Zhauns Machinery - <https://zhauns.co.za>
-

If a Machine's Link Is Not Working

In rare cases, a link to a particular machine may not open or respond. If this happens, do not panic, Simply:

1. Copy the **name of the machine**
2. Paste it into the search bar of any sourcing platform such as:
 - Alibaba
 - Made-in-China

- AliExpress
- Amazon
- eBay
- Facebook Marketplace

3. Run a search to locate the same or similar machine.

👉 Purchase Options

Option 1: Buy Directly from the Alibaba Suppliers (Recommended)

- Click on the link of the machine you are interested in.
- Use the **Chat** or **Send Inquiry** button to communicate with the seller.
- You may need to create and log in to an account on the platform to chat with suppliers.
- **Do not purchase immediately** using the “**Start Order**” button.
- Always negotiate to get the best possible price because all the listed prices are not actual.

Once a price is agreed upon:

- The seller will send you a custom payment link.
- You can complete payment using your credit or debit card.

Important:

This option requires you to provide the seller with a **China logistics address** (a shipping company that will forward the machine to your country).

To find one:

- Run a simple Google search such as:
“freight forwarding or logistics companies in the UK” or
“logistics companies in the USA etc”
 - Contact a top-rated company to **understand their shipping process** and fees.
-

Shipping Tip:

Always inform the supplier of your preferred shipping method:

- **Sea Freight** – Recommended for heavy machines
 - **Air Freight** – Faster but more expensive
-

Option 2: Use a Logistics Company or Sourcing Agent to Buy on Your Behalf

You can contact a sourcing agent or logistics company directly, inform them of the machine you want to purchase, and they will:

- Buy the machine for you.
- Handle shipping and delivery to your country.

This option is convenient for beginners who prefer a hands-off process.

Option 3: Buy Locally

You can also search for the machine within your country, both online and offline.

Many of the machines listed in this guide are available locally, which may reduce shipping time and costs.

You can scan around in your location to get local fabricators who can build most machines you will need from scratch according to your specification.

220 Profitable Small Scale Business Machines & Ideas.

 **BEFORE YOU SKIP MACHINE**

NUMBER#1, READ THIS CAREFULLY 

While this e-book reveals 220 powerful small business machines, I want to draw your attention to something most people overlook. Out of all the 220 business machines shared in this guide, **Machine #1** clearly stands apart from the rest. Why?

Because unlike the rest, this machine doesn't require you to lift a finger to install anything physical. No physical space needed. No physical machine to buy. No tools, no delivery trucks, no space in your garage, no heavy equipment and **zero technical stress**.

It is a **digital income machine**, which means you can activate it using just your phone or laptop, right from home and start seeing results much faster than any physical setup ever could.

If you're someone who wants to start making money from home within few hours or days after setup, without delays and stress, **Machine #1** is hands down your best bet.

It has already helped countless people begin making money even **before they finished reading this e-book.**

It is a high-reward and infinitely scalable income generating system. In fact, **many people who got started with this digital money making machine never even bothered exploring the rest.**

So before you jump to **machine #2**, take a good look at **Machine #1** It just might be the only ones you'll ever need to break through financially without making your hands dirty.

Machine #1 The Legacy Builders Program. (This Is A Digital Money Making Machine)

Business Idea For This Machine:

The Legacy Builders Program by Michelle O'neil is a comprehensive video training program designed to guide anyone—whether a complete beginner or someone with prior experience—on how to build a sustainable and profitable online business. This step-by-step program equips you with the skills and strategies to earn \$900, or more daily consistently. This program and community has been active ,working, growing and changing lives since **2022**.

Here's what makes this program stand out:

1. **Clear and Actionable Training:** The program breaks down the process of digital marketing into easy-to-follow steps. You'll learn how to sell high ticket digital products and earn 100% Profit using a proven blueprint!.
2. **Global Accessibility:** Whether you're in the U.S.A, Canada, Uk, Australia , Europe, Africa or any other part of the world, you are eligible to join this program. Your earnings are conveniently paid straight into your bank account. This program currently has a membership of over **58,000 people worldwide**, making it one of the largest business groups on the Skool platform, which you can also join today.
3. **No MLM, Ponzi, or Scams:** This is not a get-rich-quick scheme, MLM, or Ponzi scam. It's a legitimate business model focused on high ticket digital marketing—selling high-quality digital products and earning 100% profit legally and ethically.
4. **Proven Results:** The program is already transforming lives, helping countless people achieve financial freedom by leveraging the power of digital marketing —without tech skills, a big following, or even their own product!.
5. **Your Digital Money Machine:** This program empowers you to create a solid online business that works for you 24/7, enabling you to earn money even while you sleep as seen below.

Machine #2 Bitcoin ATM Works with All existing Bitcoin Wallets

Business Idea For This Machine

Bitcoin ATMs are physical kiosks that allow users to buy and sell Bitcoin (and sometimes other cryptocurrencies) using cash or debit cards. These ATMs are compatible with all existing Bitcoin wallets, enabling users to transfer purchased Bitcoin directly to their wallet or sell Bitcoin by scanning their wallet's QR code.

- Invest in a Bitcoin ATM machine and earn through transaction fees each time users buy or sell Bitcoin.

- Fees typically range from 6% to 12%, generating passive income.
- Buy Bitcoin at a lower rate from exchanges and sell it at a higher rate via your ATM, leveraging the difference in price.
- Use Bitcoin ATMs to buy Bitcoin during dips and sell during price surges to earn profits.
- Use the ATM space to advertise crypto-related products or services, earning additional revenue.

Price Range: \$290 to \$3800

Machine #8 50g 100g Automatic Vertical Filling Packaging Equipment Nut Sugar Snack Small Granule Pouch High Efficiency Packing Machine

Business Idea For This Machine:

This is a specialized device designed to efficiently fill and seal sachets or pouches with various liquid, powder, or granular products. It automates the process, ensuring precise measurement, sealing, and cutting, making it ideal for packaging items like juice, milk, sauces, detergents, nuts, paste and powdered food items, medicines etc.

- Use it to offer packaging services to small and medium businesses needing sachet or pouch packaging for their products.
- Use this to package and sell products under your own brand, such as spices, powdered food items like tom brown for breakfast, vegetables paste and powder , herbal remedies etc.
- With this you can become a well known brand for the most delicious iced kenkey or juice brand in town.
- Use it to package peanuts, dried fruits, and other snacks for grocery stores and supermarkets.
- Just be innovative and think of packaging something special to the market to make a lot of money using this machine.

Price Range: \$2900-\$3800

Machine Source: [Click Here For Details Of This Machine.](#)

Machine #9 High Speed Multifunctional Mill Grinder

Business Idea For This Machine: This is a powerful electric grinding machine designed to process a variety of dry materials, such

as grains, spices, coffee beans, nuts and medicinal herbs powder.

- Produce, package and sell delightful rice, wheat, corn, millet flour etc.
- Make dehydrated banana, coconut flour or baby food powders . Use this machine to become a top producer of the popular breakfast powder brand in every home.
- You can produce and sell things like ginger, Onion, Tomato, pepper, turmeric, cloves, and cinnamon powder well packaged and branded.
- Make and supply organic health products, package organic teas, smoothie powders, or superfoods (e.g., Moringa and dandelion powder)

Price Range: \$100-\$150

Machine Source: [Click Here For Details Of This Machine.](#)

Machine #10 Fully Automatic Small Base Cheese Pizza Making Machine Production Line

Business Idea For This Machine:

This is a cutting-edge, automated solution designed to produce high-quality small-base cheese pizzas efficiently. This production line streamlines the process of dough preparation, flattening, topping, baking, and packaging, ensuring consistent results and high output with minimal manual intervention. It's ideal for small to medium-scale pizza businesses, food factories, or entrepreneurs in the food production industry.

- Partner with local restaurants, cafes, and fast-food chains to supply fresh or frozen small cheese pizzas in bulk.
- Package and sell your pizzas in grocery stores, supermarkets, or convenience stores under your brand.
Expand your reach by exporting packaged pizzas to regions with high demand for quick and convenient meals.
- Use the machine to produce large quantities of pizzas for events such as parties, corporate gatherings, or festivals.
- Create a franchise model where you supply ready-to-sell pizzas to franchisees operating small pizza outlets

Price Range: \$11,800

Machine Source: [Click Here For Details Of This Machine.](#)

Machine #11 Popsicle making machine

Business Idea For This Machine:

This is a device designed to produce frozen treats quickly and efficiently. It typically operates by freezing flavored liquid mixtures in molds using rapid-cooling technology, with some models capable of producing hundreds of popsicles per hour. These machines come in different sizes, from small countertop versions for home use to large industrial models for mass production.

- Produce and Sell homemade popsicles at local markets, schools, parks, or through a small shop.
- Offer customized popsicles for birthdays, weddings, corporate events, and parties.
- Produce and package popsicles for other brands looking to sell under their own name.
- Partner with grocery stores, ice cream shops, and restaurants to supply unique, healthy, or gourmet popsicles.

Price Range: \$550 - \$3000 Depending On The Size

Machine Source: [Click Here For Details Of This Machine.](#)

Machine #12 Automatic Flatbed Cutter & Creaser Full Die Cutting Machine Flatbed Cutting Plotter for Cardboard With Camera Location

Business Ideas For This Machine:

This is a high-precision flatbed cutting plotter equipped with a camera for accurate location. It's designed for cutting and creasing cardboard, paper, foam board, and other materials, making it ideal for creating custom packaging, greeting cards, signage, and more. The machine offers automation, speed, and versatility, making it a must-have for businesses in the printing, packaging, and craft industries.

- Offer custom-designed packaging for small businesses or e-commerce brands.
- Create and sell unique, high-quality cards and wedding invitations.
- Provide die-cut prototypes for product packaging.
- Produce custom-cut teaching aids and learning tools for schools

- Partner with designers or businesses to fulfill cutting and creasing needs.

Price Range: \$5400 Depending On The Size

Machine Source: [Click Here For Details Of This Machine.](#)

Machine #13 Industrial Juice Extractor

Business Idea For This Machine:

This machine is designed to extract juice from fruits by separating the liquid from the pulp. These come in different forms as seen in the image above but they ultimately serve the same purpose just that their prices differ.

- Start a Juice Business or bar and Sell fresh, organic juices at local markets, malls.
- Provide fresh juices at weddings, parties, and corporate events.

- Develop cleansing juice packages for weight loss and wellness, and other specific health issues such as ED in men, diabetes etc.
- You can bottle , seal and label your juice packages nicely and sell them using TikTok organic posts, facebook, instagram pages or any other social media platform.
- You can even run promotional facebook and tiktok ads for your juice products.
- Get a commercial blender in addition and use it to prepare smoothies alongside.
- Get a refrigerated beverage truck or van and use it to distribute your juice to customers in your city.

Price Range: \$50 - \$1,300 Depending on the type you go for.

Machine #26 Transparent Low Viscosity Deep Pour Epoxy Resin

Business Idea For This Machine:

This is a high-quality, crystal-clear epoxy resin designed for deep casting, river tables, and thick pours (typically up to 2 inches or more per layer). Its low viscosity allows for easy bubble release and smooth flow, making it ideal for embedding objects, making jewelry, and crafting high-gloss, durable surfaces. It's UV-resistant, self-leveling, and provides excellent adhesion to wood, metal, and other materials.

- Create and sell stunning epoxy river tables, countertops, or resin-infused furniture.
- Craft and sell unique resin wall art, ocean wave designs, and abstract pieces.

- Make and sell epoxy-based rings, pendants, bracelets, and keychains.
- Craft custom coasters, trays, clocks, and lamp bases.
- Offer high-end, glossy epoxy coatings for kitchens, bars, and showrooms.

Price Range: \$8-10

- Manufacture cookies for other brands looking for private-label baked goods.

Price Range: \$ 1500

Machine Source: [Click Here For Details Of This Machine.](#)

Machine #50 Mini Vacuum Food Freeze Drying Machine.

Business Idea For This Machine:

This is a compact device designed to remove moisture from food while preserving its nutrients, texture, and flavor. It works by freezing food at very low temperatures and then using a vacuum to sublimate the ice directly into vapor, effectively drying the food without damaging its structure. This method extends shelf life while maintaining quality. A frozen dried product (fruits, vegetables and other foodstuffs) when sealed and packaged nicely can last for over 25 to 30 years or more and 15 to 20 years for meat. Just Keep it in a cool, dark, and dry place . With the rising cost of food in the county, this machine should be in every home. Unlike dehydrated food, freeze-dried food retains **98–99% of nutrients** and only needs water to be rehydrated.

- Create a brand, package and sell high-demand Freeze-Dried Food items like fruits, vegetables, meats, or even full meals to health-conscious consumers.
- Partner with small food brands that want to sell freeze-dried products without owning their own machines.
- Go to farmers or food markets, buy food items in bulk, freeze dry them, package and sell them on tiktok or to students.
- Create long-shelf-life emergency food packs for sale.
- Combine this machine with a vacuum sealer to make a shit ton of money selling food items that can last for so long.

Machine #151 A Laptop With An Internet Connection.

Business Idea For This Machine:

Realistic Ways to Make Money With a Laptop and Internet:

- **Freelancing:** Offer skills like writing, graphic design, data entry, or video editing on websites like Fiverr, Upwork, or

Freelancer.

- **Sell Products:** Start a small online shop on platforms like TikTok shop, Etsy, eBay, or Facebook Marketplace selling crafts, second-hand goods, or digital products.
- **Online Teaching/Tutoring:** Teach languages, school subjects, or skills through Zoom or platforms like VIPKid and Teachable.
- **Affiliate Marketing:** Promote other people's products and earn a commission for every sale made through your referral link.
- **Surveys and Micro Tasks:** Sign up on sites like Swagbucks or Amazon Mechanical Turk to complete small tasks and surveys for cash.
- **Blogging or Vlogging:** Start a blog or YouTube channel and earn money through ads, sponsorships, or donations once you build an audience.
- **Virtual Assistant:** Help businesses or entrepreneurs with tasks like managing emails, scheduling, and customer service remotely.
- **Social Media Management:** Manage social media pages for small businesses that need help with posting and engagement.
- **Dropshipping:** Set up an online store where products are shipped directly from the supplier to the customer, so you don't keep stock.

- **Remote Jobs:** Apply for remote positions that allow you to work from anywhere, such as customer service or tech support roles.

Price Range: \$1000

Machine Source: You definitely know how to get access to this machine.

Machine #152 Fresh Orange Juice Vending Machine with Automatic Cleaning System

Business Idea For This Machine:

This is a self-service machine that squeezes fresh oranges right in front of the customer. It is designed to take whole oranges, cut and press them to make juice, and serve it directly into a cup. What makes it stand out is the built-in automatic cleaning system, which keeps the

machine clean after each use, reducing the need for constant manual cleaning. This type of machine is popular in places with high foot traffic, like malls, schools, hospitals, airports, and gyms, because people love fresh, healthy drinks on the go.

- **Place it in busy locations:** Rent a spot in high-traffic areas and earn from every cup sold. More people passing by means more sales.
- **Partner with businesses:** Set up a profit-sharing deal with gyms, hospitals, or schools where they provide the space and you split the profits.
- **Offer branded cups:** Sell advertising space on the cups to local businesses or brands for extra income.
- **Event rentals:** Rent the machine out for events like fairs, sports events, or school functions where people are likely to buy fresh juice.
- **Franchise or scale:** Once your first machine is profitable, reinvest in more machines to place in different locations and grow your income.
- **Subscription model:** Partner with offices or coworking spaces to provide fresh juice regularly, and charge a weekly or monthly fee.

Price Range: \$6,400

Machine Source: [Click Here For Details Of This Machine.](#)

Machine #153 Mini Street Sweeper Machine Truck

Business Idea For This Machine:

The Mini Street Sweeper Machine Truck is a small, mobile cleaning vehicle designed to sweep streets, sidewalks, parking lots, and other outdoor areas. It uses rotating brushes and a vacuum system to collect dirt, dust, leaves, and trash into an onboard bin. Because of its compact size, it can clean narrow spaces that big street sweepers can't reach, making it perfect for use in small towns, estates, malls, schools, and factory premises. It runs on fuel or battery power and is operated by one person.

- **Start a Local Cleaning Service:** Offer regular or one-time cleaning contracts to local councils, businesses, schools, and residential estates.
- **Rent It Out:** Rent the machine to other cleaning companies or individuals who need it for short-term use.
- **Partner with Event Organizers:** Clean up after outdoor events, fairs, or festivals where there's always a lot of trash to manage.

- Offer Parking Lot Maintenance: Target supermarkets, shopping malls, and large office blocks that need regular sweeping of their parking areas.
- Advertise with the Truck: Sell ad space on the truck's body to local businesses while you work, creating a second income stream.
- Work with Construction Sites: Clean up dust and debris around construction zones, especially in busy city areas.

Price Range: \$3,500

Machine Source: [Click Here For Details Of This Machine.](#)

Machine #154 Small Semi Automatic Plastic Bottle Making Machine
500ml PET Blowing Machine.

Business Idea For This Machine:

The Small Semi Automatic Plastic Bottle Making Machine (500ml PET Blowing Machine) is used to produce plastic bottles, especially for water, juice, oil, and other liquids. It works by heating up plastic

preforms (small test-tube-shaped pieces of plastic) and then blowing them into bottle molds. Since it's semi-automatic, you need to manually load the preforms and do some of the steps yourself, but the machine handles the blowing and shaping. It's a good fit for small businesses or people who want to start a bottle production business without spending too much.

- **Start a Bottle Supply Business:** Make bottles for small drink companies, beauty brands, or oil sellers who need packaging but don't have their own machines.
- **Partner With Water Sellers:** Supply bottles to local sachet and bottled water producers regularly.
- **Custom Bottle Orders:** Offer custom bottle sizes or branded bottles for businesses running special promotions.
- **Sell to Market Traders:** Produce bottles and sell them to market vendors who fill them with honey, oil, or homemade drinks.
- **Support Small Startups:** Help new brands by producing low-volume bottle orders that big factories won't accept.

Price Range: \$3,800

Machine Source: [Click Here For Details Of This Machine.](#)

Machine #155 LST Small Chocolate Gummy Making Machine
Gummy Jelly Hard Candy Depositing Machine.

Business Idea For This Machine:

This is a compact machine designed to help users make small batches of chocolate or gummy candies. It's often used by small business owners, home-based candy makers, or startup confectionery brands. The machine can heat, mix, and shape gummy or chocolate mixtures into different molds, making it easier to produce uniform candies without using large factory equipment. It's user-friendly, doesn't take up much space, and is ideal for those who want to start small and grow their candy business over time.

- **Start a home candy brand:** Make your own chocolate or gummy products and sell them online through platforms like Etsy, Instagram, or a personal website.
- **Sell custom gummies or chocolates:** Offer customized candies for birthdays, weddings, or business events. Add company logos or names using molds.

- **Supply to local stores:** Partner with small local shops, cafes, or supermarkets to stock your unique gummy or chocolate creations.
- **Run candy-making workshops:** Teach others how to make gummies and chocolates using your machine. You can charge for these classes online or in person.
- **Make health-focused gummies:** Use natural ingredients to create sugar-free or vitamin-packed gummies for health-conscious customers.
- **Create themed candy boxes:** Make seasonal or themed gift boxes (e.g., Valentine's Day, Halloween) and sell them during holidays.

Price Range: \$7,500

Machine Source: [Click Here For Details Of This Machine.](#)

Machine #156 Cereal Granola Bar Making Machine for Industrial Use.

Business Idea For This Machine:

This is an industrial machine used to produce cereal and granola bars in large quantities. It mixes ingredients like oats, nuts, honey, chocolate, or dried fruits, shapes them into bars, compresses them, and cuts them to size. Some versions also include baking or cooling systems depending on the recipe.

- Launch your own granola bar brand: Produce healthy snack bars and sell them under your label through supermarkets, health stores, or online.
- Target schools, gyms, and offices: Offer individually wrapped bars as healthy snacks for kids, fitness enthusiasts, or busy professionals.
- Make custom bars for other brands: Provide private label manufacturing for small businesses or nutrition coaches who want to sell branded bars.
- Sell in bulk to hotels and airlines: Supply snack bars for use in breakfast buffets, travel kits, or guest room amenities.
- Use local and seasonal ingredients: Reduce costs by using ingredients like peanuts, coconut, or honey sourced locally, then market it as a "made with local produce" product.
- Create diet-specific bars: Make keto, vegan, or gluten-free bars to target health-conscious or niche diet markets.
- Offer co-packing services: Help small startups produce and package their bars without investing in machines.
- Export to health-focused markets: If you meet packaging and safety standards, you can sell to international buyers looking for high-quality snack foods.

Price Range: \$ 20,000

Machine Source1: [Click Here For Details Of This Machine.](#)

Machine #157 Mini Electric Compactor Garbage Truck.

Business Idea For This Machine:

This is a small-sized waste collection vehicle designed to collect and compact trash in tight spaces where larger trucks can't easily go. It runs on electricity, making it eco-friendly and quiet. This type of truck is useful in places like small towns, markets, estates, schools, and areas with narrow streets. It usually has a rear compactor that presses the garbage down, allowing the truck to carry more waste before needing to empty it.

- **Start a private waste collection service:** Offer regular trash pick-up and junk removal for households, small businesses, and gated communities that need reliable garbage disposal.
- **Contract with local authorities:** Partner with local councils or town administrations to handle waste in areas where large trucks can't access.

- **Rent it out:** Lease the truck to construction companies, event organizers, or estates that need temporary waste removal.
- **School and hospital clean-up services:** Provide regular garbage collection services for schools, clinics, and hospitals that produce steady waste.
- **Market waste collection:** Service busy local markets or shopping areas where waste piles up quickly and needs daily clearing.
Recycling collection: Collect and transport recyclable materials for recycling companies and get paid per load.
- **Special event clean-up:** Offer clean-up services at festivals, sports events, or public gatherings where temporary waste management is needed
- Combine this with a bin washing service using a pressure washer and charge for your services.

Machine #158 Mini Truck Food Van Conversion

Business Idea For This Machine:

The business idea for this is very simple:

Buy the truck in its simple state as seen in the picture above and ship it down to your country then find welders and specialists to build a compartment on it as seen in the second picture. The new design should be tailored to food vendors.

When done, sell it as a food truck for a higher price.

Price Range: \$3,500

Machine Source: [Click Here For Details Of This Machine.](#)

Machine #159 Striping Machines for Parking Lot Lines.

Business Idea For This Machine:

Striping machines are tools used to paint straight, clean lines on parking lots, roads, sports fields, and warehouse floors. They help create parking spaces, guide traffic flow, and keep areas organized and safe. These machines come in different sizes—some are small and

easy to push by hand, while others are bigger and motorized for large jobs. They use paint or thermoplastic materials to mark the lines and are commonly used by property managers, municipalities, and contractors.

Start a Parking Lot Striping Business: Offer striping services to businesses, malls, schools, churches, and warehouses that need new lines or want to refresh old ones.

- **Work with Property Managers:** Partner with building managers or real estate companies to maintain their parking areas regularly.
- **Bundle with Other Services:** Add striping to an existing business, like pressure washing, asphalt sealing, or landscaping, to offer complete property maintenance.
- **Freelance for Contractors:** Subcontract your striping services to paving companies that don't own their own machines.
- **Mark Sports Fields:** Use the machine to paint lines for soccer fields, baseball diamonds, and other sports areas for schools and local clubs.

Warehouse Safety Lines: Offer to paint safety lanes and markings inside factories and warehouses, which is a requirement for many workplaces.

- **Rent Out the Machine:** If you don't want to offer the service yourself, rent your machine to other small businesses or contractors who need it for short-term jobs.

Price Range: \$600-\$1,500

Machine #160 MOORE 2 PRO High-Speed 3D Printer for Pottery & Ceramic Clay 255*255*260 mm Automatic Folding Design

Business Idea For This Machine:

It is a desktop 3D printer made for using clay, porcelain, and similar wet materials with a build size of about 255 × 255 × 260 mm. It uses a screw-driven electric feeder instead of air pressure to push clay through the nozzle, making it quieter and more stable. It has a touchscreen, can resume after power loss, and works with Cura/Repetier using STL, OBJ, or G-code files.

- Use it to create custom-printed clay products like : mugs, vases, planters, sculptures.
- Create and sell 3D-printed pottery kits or unfinished pieces to artists or hobbyists.
- Print prototypes for ceramic designers or manufacturers on commission.
- Host classes teaching how to 3D-print with clay for beginners.

- Partner with interior shops or cafes for unique ceramics on demand.
- Convert it into a clay plotter or stencil cutter for crafts and sell services.

Price Range: \$630 - \$980

Machine #161 RUK NEW MBC Factory Price Carton Box Sample Cutting Machine Vibrating Printing Die Cutting and Creasing Machine

Business Idea For This Machine:

It is a large industrial cnc machine used to cut, print, and crease cardboard or paperboard into boxes. It's designed for people who want to make custom packaging—like boxes for products, gifts, or

deliveries. It uses a vibrating knife and printing features to handle everything from cutting shapes to adding fold lines and logos.

This machine is mostly used in packaging businesses, printing shops, or small factories. It helps save time by automating the box-making process and lets you produce professional-looking packaging with ease.

- Start a custom box-making business for small brands or local shops.
- Offer packaging design and production services for e-commerce sellers.
- Make branded shipping boxes for online businesses.
- Sell custom gift boxes for weddings, parties, or corporate events.
- Work with local food vendors to create food-safe takeaway packaging.
- Partner with print shops to provide add-on box production services

Price Range: \$ 22,000

Machine #162 2 Lines Full Automatic High Speed Plastic Bag Machine T-shirt Bag Shopping Bag Making Machine

Business Idea For This Machine:

This is a machine that makes plastic shopping bags, like the ones used in supermarkets. It has two production lines, which means it can make two bags at the same time. It works on its own with little help, cutting and sealing plastic film into ready-to-use bags.

- Start a plastic bag production business and sell to local stores or markets.
- Offer bag-making services to packaging companies or wholesalers.
- Produce and brand bags for small businesses (custom printing).
- Export plastic bags to nearby countries with high demand
- Get some distributors to market your products aggressively in markets and everywhere.

Price Range: \$ 10,600

Machine #163 Automatic Bamboo Sanitary Pads Process Machine
Manufacturing Equipment.

Business Idea For This Machine:

This is an industrial machine designed to produce sanitary pads made from bamboo fiber. Bamboo is a natural, eco-friendly material that is soft, absorbent, and biodegradable, making it a popular choice for people who want sustainable hygiene products. This machine handles different steps of the production process, such as shaping, layering, sealing, and packaging the pads, with minimal human labor. It's mainly used by businesses that want to manufacture and sell sanitary pads on a large scale.

- **Start Your Own Brand:** Use the machine to produce bamboo sanitary pads under your own brand name and sell them online or in stores.
- **Wholesale Supply:** Manufacture pads and supply them in bulk to shops, supermarkets, or eco-friendly brands that don't have their own factories.

- **Contract Manufacturing:** Offer production services to small brands or startups who want to launch bamboo sanitary pads but can't afford their own machines.
- **Export Business:** Produce sanitary pads for international markets where eco-friendly hygiene products are in high demand.
- **Custom Orders:** Take custom orders from organizations, schools, or NGOs that distribute sanitary pads as part of health campaigns.
- **Private Labeling:** Produce the pads and let other companies put their brand labels on them, so you focus only on manufacturing.
- **Local Distributorships:** Partner with distributors in different cities or countries to sell your product and expand your reach without needing to handle all the logistics yourself.

Machine #164 9D VR motion simulator machine

Business Idea For This Machine:

This is a virtual reality entertainment machine that lets users experience immersive games, movies, or simulations with moving seats and special effects like wind or vibration. This is commonly used in arcades, malls, theme parks, or event centers. It comes with built-in VR content and supports multiple users at a time, depending on the model. The machine is easy to operate and often includes a touchscreen system for choosing experiences. It creates a fun and exciting way for people to enjoy VR without needing special skills or devices.

- Set it up in a busy shopping mall or arcade and charge people per ride
- Rent it out for private events like birthday parties, school programs, or corporate functions.
- Place it at tourist locations or amusement parks where people are willing to pay for short, fun experiences.
- Use it at trade shows or expos as an attraction and charge event organizers or sponsors.

- Create a mobile VR setup and offer home service or party rentals

Machine #176 Sausage Production Line

Business Idea For This Machine:

This is a complete setup of machines used to produce sausages in large quantities. It typically includes equipment for grinding meat, mixing with spices, stuffing into casings, linking, cooking, smoking (optional), and packaging. Some lines are semi-automatic, while others are fully automatic for continuous production

- Start a sausage brand: Produce different types of sausages (chicken, beef, pork, plant-based) and sell them in local markets, supermarkets, or online.
- Supply to restaurants and hotels: Offer bulk sausage supply to kitchens that need consistent quality and quantity.
- Serve catering and event businesses: Package sausages for weddings, parties, and food vendors needing quick, ready-to-cook meat products.
- Produce custom flavors: Create regional or spicy blends that cater to local tastes or dietary needs (e.g., low-fat, halal, or organic).

- Export to neighboring countries: Vacuum-pack sausages and sell to markets that rely on imports for processed meats.
- Provide private label services: Make sausages for other companies who want their own branding but don't have the equipment.
- Create frozen or ready-to-eat packs: Add value by cooking and freezing sausages for quick meal options sold in stores.
- Sell to food trucks and street vendors: Offer smaller, affordable packs ideal for hotdog stands or quick-serve setups.
- Sell sausage in multiple food trucks.

Machine #181 Self Service Duplicate Key Vending Machine
Automatic Key Duplicating Machine Locksmith Tools.

Business Idea For This Machine:

This is an automated vending machine that allows users to duplicate keys without a locksmith. It scans the original key, cuts a new one on the spot, and dispenses it within minutes. It's designed for unattended locations like malls, hardware stores, or apartment complexes.

- Install in high-traffic locations: Place the machine in malls, supermarkets, or residential complexes and earn from each duplication.
- Offer 24/7 key copying: Provide a convenient, round-the-clock solution for people needing spare or replacement keys.
- Partner with hardware or convenience stores: Place the machine in small shops that want to expand their service offerings without hiring staff.
- Operate multiple machines: Set up a network of machines in different locations and manage them remotely.
- Offer franchise or revenue share: Partner with property owners and split earnings in exchange for hosting the machine.
Provide branded key blanks: Sell custom key styles (logos, colors, messages) for higher profit margins.
- Serve short-term rental owners: Help Airbnb or guesthouse operators quickly duplicate keys for new guests or staff.

Price Range: \$ 9,500

Machine #182 Hot Selling Automatic Digital Carton Boxes Printer
Corrugated Cartoon Cup Machine Single Pass Printer.

Business Idea For This Machine:

This is a digital printing machine designed to print full-color designs directly onto corrugated cartons, paper cups, or cardboard materials in one quick pass. It works automatically and is ideal for producing custom printed packaging with logos, product details, or decorative designs.

- Start a custom box printing service: Offer branded boxes for small businesses, online sellers, or product manufacturers.
- Print takeaway cup designs: Work with cafés or food vendors to print personalized logos or promotions on their cups.
- Serve packaging companies: Provide contract printing services for companies that don't have in-house digital printers.
- Create packaging for events: Offer customized boxes or cups for weddings, birthdays, festivals, or corporate events.
- Sell to local food vendors: Print bulk orders of custom food containers or drink cups for street food sellers or caterers.

- Offer low-volume printing: Serve clients who need smaller print batches (like startups) that large printers often reject.
- Use it in e-commerce fulfillment: Add value to packaging services by branding every box sent out with unique prints.
- Print marketing material: Use the machine to print QR codes, offers, or social media handles directly on packaging.

Machine #189 Industrial popcorn maker machine.

Business Idea For This Machine:

This machine setup is designed for making large quantities of popcorn, especially caramel-coated popcorn. It uses hot air (not oil) to pop the corn, which makes the product healthier and cleaner. After popping, the popcorn is coated with caramel (or other flavors), cooled, and packed. It's used by snack factories or entrepreneurs who want to start a popcorn business with unique flavors.

- Start your own branded popcorn snack line. Produce and package caramel popcorn with your own logo and sell in supermarkets, schools, and kiosks.

- Sell flavored popcorn at events or malls. Package fresh popcorn into cups or bags and sell directly at fairs, movie nights, or festivals.
- Supply popcorn to cinemas, hotels, and shops. Partner with businesses that need ready-made snacks for their customers.
- Sell popcorn in bulk to resellers. Distribute large bags of flavored popcorn to vendors who sell it in smaller quantities.
- Export packaged popcorn to other countries. Sell to international markets looking for affordable, ready-to-eat snacks.
- Make different flavors and upsell. Try cheese, chocolate, spicy, vanilla, or fruit flavors for higher-priced, premium packs.
- Offer private label production. Make and package popcorn for other small businesses or shops using their own brand name.

Machine #191 Automatic Essential Oil Plastic Bottle Label Sticker Tabletop Double Side Round Bottle Labeling Machine With Date Coder.

Business Idea For This Machine:

The Automatic Essential Oil Plastic Bottle Label Sticker Tabletop Double Side Round Bottle Labeling Machine With Date Coder is a compact machine that automatically places labels on round bottles. It can stick labels on one or two sides of the bottle. It also prints the date on the label, like the manufacturing or expiry date. It is often used for small products like essential oils, cosmetics, food jars, and medicine bottles. This machine is designed to sit on a table, making it good for small businesses or people who don't have a lot of space. It is easy to use and can label many bottles quickly.

- Start a Bottle Labeling Service and offer to label products for small brands that sell oils, beauty products, and health supplements.
- Create Your Own Product Line, Make and sell your own bottled products like essential oils, homemade juices, sauces, or cosmetics, and label them neatly with this machine.
- Buy plain bottles in bulk, label them, and resell them to small business owners who don't want to deal with labeling.

Price Range: \$ 2,550-\$4,300

Machine #192 High Speed Atomizer Centrifugal Stainless Steel Milk Powder Coffee Spray Dryer

Business Idea For This Machine:

This is a high-speed spray dryer used to turn liquid materials like milk or coffee into fine powder. It works by spraying the liquid through a nozzle into a hot chamber, where the moisture quickly evaporates, leaving dry powder behind. It is made of stainless steel, which keeps it clean and food-safe. This type of machine is used in food processing, especially for making milk powder, coffee powder, and similar products.

- Start a powdered milk or coffee production business and supply to local shops and supermarkets.
- Offer drying services to farmers or small food producers with liquid dairy or juice products.
- Produce herbal or spice powders from liquid extracts and sell in health stores or online.
- Partner with food brands that want to outsource their spray drying needs.
- Create private label products like coffee creamers or flavored powders for resale.

- Export powdered products to regions where shelf-stable goods are in demand.
- Make and sell instant food products such as soups, sauces, or baby formula and egg powder.

Price Range: \$4,000

Machine #193 Top Quality Automatic Aluminum Foil Container/Tray/Plate Making Machine

Business Idea For This Machine:

It is a machine that automatically forms aluminum foil into containers of different shapes and sizes. These containers are commonly used for food storage, baking, takeout, and frozen meals. The machine feeds,

cuts, and presses the foil into trays without needing much manual labor. It is fast, efficient, and suitable for bulk production.

- Produce and sell containers to food vendors: Supply to chop bars, restaurants, street food sellers, and caterers.
- Distribute to supermarkets and shops: Package and sell in bulk for resale or direct consumer use.
- Work with event planners: Provide food trays for parties, weddings, and outdoor events.
- Offer custom container services: Print business logos on containers and charge a premium.
- Export to other regions or countries: Sell to markets where local production is low.
- Supply bakeries and grill shops: Offer containers for baking, grilling, and take-home meals.
- Start a wholesale business: Sell to other small shops and resellers who need steady stock.

Price Range: \$10,000-\$40,000

Machine #194 Direct Printing on Fabric Digital Textile Printing
Machine Polyester Belt Silk Printer

Business Idea For This Machine:

This is a machine used to print designs directly onto fabrics like Cotton, polyester and silk. It uses digital technology, which means designs are printed from a computer file without needing plates or screens. It produces clean and colorful prints and is mostly used in the fashion, home décor, and custom clothing industries. It works well for both small and large print jobs.

- Start a custom clothing business: Print unique designs on fabric and sell clothes, scarves, or accessories.
- Offer fabric printing services: Print for fashion designers, tailors, or small clothing brands who need custom fabrics.
- Sell printed fabrics: Create and sell your own fabric designs to shops or online.
- Work with decorators: Print curtains, tablecloths, or pillow covers for home décor businesses.

- Create event materials: Print customized fabrics for weddings, parties, or corporate events.
- Print and sell art fabrics: Turn digital art into printed fabric for use in creative projects.
- Partner with schools or institutions: Offer fabric printing for uniforms or school merchandise.

Price Range: \$16,900

Machine #195 Full Automatic Refreshing Cleaning Single Wet Wipes Wet Tissue Flushable Wipes Sachet Making Machine

Business Idea For This Machine:

It is a machine that produces single-pack wet wipes automatically. It mixes the liquid solution, cuts the non-woven fabric, folds it, and

seals it inside small sachets. The wipes can be used for cleaning hands, face, baby care, or personal hygiene. It is suitable for businesses that want to produce disposable wet tissues for sale or distribution.

- Start a wet wipes brand: Create and sell your own line of hand wipes, baby wipes, or hygiene wipes.
- Supply to hotels and restaurants: Provide single-use wipes for guests and customers.
- Sell to hospitals and clinics: Offer medical-grade wipes for cleaning or patient care.
- Partner with event organizers: Supply branded wipes for conferences, weddings, and outdoor events.
- Produce for other brands: Offer private label manufacturing services to companies that want their own packaging.
- Distribute to retail shops: Sell in supermarkets, pharmacies, and convenience stores.
- Export wipes: Ship to countries with high demand and limited local production.

Machine #196 Leather Embossing Foil Heat Press Machine Small Manual Digital Hot Stamping Machine for Wood PVC Paper Custom Logo Stamp

Business Idea For This Machine:

It is a small manual machine used to press foil or heat designs onto materials like leather, wood, PVC, and paper. It uses heat and pressure to transfer logos, text, or patterns, often with a metallic or shiny finish. It is suitable for custom branding, crafting, or personalizing products like notebooks, wallets, gift boxes, and packaging

- Offer custom branding services: Stamp logos on leather products, packaging, or stationery for small businesses.
- Personalize gifts: Create custom names or messages on items like diaries, wallets, or wooden plaques.
- Work with local artisans: Help local craft makers add branded finishes to their handmade goods.
- Create wedding or event items: Stamp names or dates on invitation cards, gift boxes, or souvenirs.
- Start a small product line: Make and sell embossed items like key holders, coasters, or tags.

- Offer services at craft fairs or markets: Set up a booth and stamp custom messages for walk-in customers.
- Sell custom packaging: Offer foil-stamped boxes or labels to product sellers for premium presentation.

Machine #210 20 FT Portable Expandable Prefabricated Folding House for Home and Office Use.

Business Idea For This Machine:

This is a compact, ready-made structure that can be folded and expanded as needed. This type of house is built off-site and delivered ready for quick setup. It can be used as a home, office, shop, or temporary shelter. It usually includes basic features like doors, windows, insulation, electrical wiring, and sometimes a bathroom and kitchenette. This makes it suitable for people who need quick and affordable space solutions. It can be moved from one location to another, which is great for those who don't want to commit to one spot. It comes in various sizes like one, two or 3 bedrooms.

- Import and install these prefabricated homes for others for huge profit.
- Sell it to people who need affordable housing, especially in growing urban or rural areas.
- Rent it out as a temporary living space or office to people who need short-term stays.

- Install it and offer it as a co-working space for freelancers or remote workers in quiet locations.
- Use it as an Airbnb in areas with tourism or high rental demand.
- Convert it into a mini shop or food stall and rent the space to small business owners.
- Use it for events such as ticket booths, changing rooms, or rest areas and charge event organizers
- Start a mobile salon, barber shop, or massage studio and move it to different high-traffic areas.
- Use it to create your own working office space.

Price Range: \$ 4,500
