

100 Inspiring Moodboard Prompts for MidJourney

Are you ready to take your MidJourney creations to the next level? This guide is packed with 100 unique prompts to help you design moodboards for every scenario—from cozy indoor vibes to fantastical steampunk adventures. Whether you're creating for fun, brainstorming ideas, or designing for a project, these prompts will spark your imagination and help you build stunning visuals effortlessly.

How to Use These Prompts

1. Pick a Prompt

Start by selecting a prompt from the list that matches the mood or theme you want to explore. For example, if you're in the mood for a whimsical vibe, try:

"Steampunk workshop, copper gears, vintage machinery, moody tones."

2. Run the Prompt

Feed your chosen prompt into MidJourney's /imagine tool and experiment with different AR settings for variety (e.g., `--ar 16:9` for wide landscapes). Run it a few times to generate multiple images.

3. Create Your Moodboard

- Go to **Personalize > Create Moodboard > Add from Gallery** in MidJourney.
- Select 8–10 images that best represent your chosen theme or aesthetic.
- Name your moodboard something descriptive, like *Steampunk Workshop*.

4. Incorporate Your Moodboard

When creating new designs, reference your moodboard to maintain a consistent style. You can also directly use its code to influence your next creation. For example:

- Original prompt: *"Detailed illustration of a duck wearing a top hat."*

- Add moodboard code: `--p [your moodboard code]`.
- By combining generic prompts with moodboard codes, you'll create cohesive, high-quality designs that reflect your unique vision.
