Iskroji /cut

Prvo iskroji kvadrat a onda odreži uglove. First cut square and then cut corners out.

2x osnovna (main fabric) tkanina (vanjska)

2x flizelin (interfacing)

2x podstava (lining fabric)

Šivanje/sewing

Prvo zalijepi peglom flizelin za osnovnu tkaninu.

First iron interfacing on main fabric.

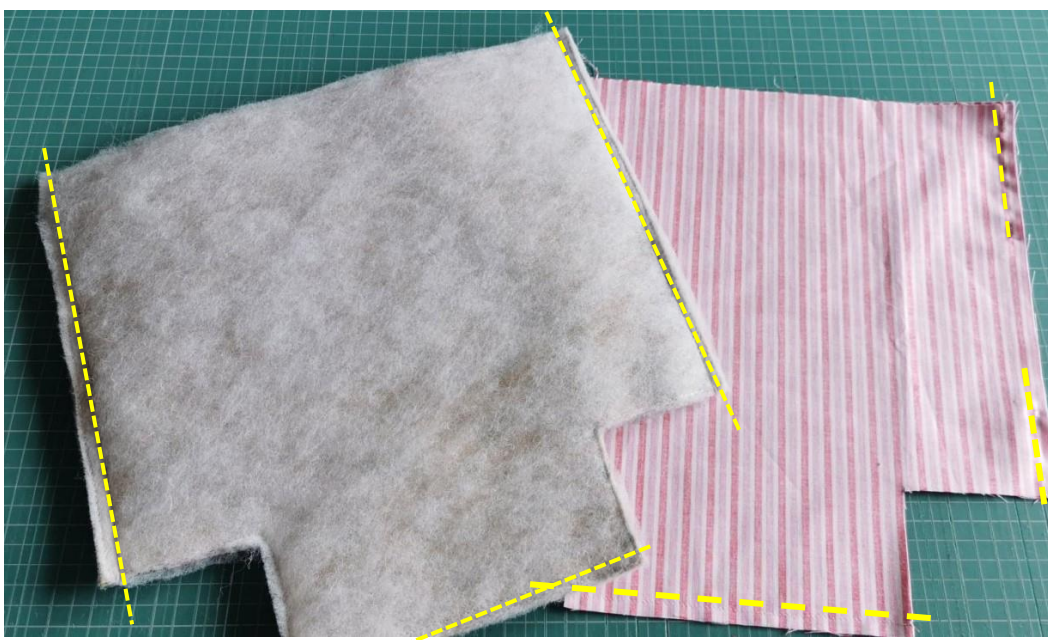

Licem na lice okreni osnovnu tkaninu jednu prema drugoj i postavu jednu prema drugoj. Trebaš imati dva seta tkanina.

Face right sides together on main fabric and lining fabric.

Šivaj za širinu stopice od ruba tkanine po predloženoj slici. Na bočnoj strani podstave ostavi 10-ak cm otvor.

Sew according the next picture with $\frac{1}{4}$ inch seem allowence. On one side of lining fabric leave 2-3 inch opening.

Pribadačama spoji kutove kao na slici.

Pin corners together like on the picture below.

Sad imaš 2 kutije (vanjski dio i podstavu). Okreni kutiju od podstave licem prema van. Kutiju od glavne tkanine ostavi licem prema unutra. Umetni kutiju od podstave u kutiju od glavne tkanine tako da se dodiruju licem prema licu.

Now you have 2 boxes. Turn the box from lining fabric face outside. The box from main fabric leave facing inside. Now, insert the lining box into the main fabric box. Fabric from both boxes should face each other.

Pribadačama spoji u krug cijele kutije tako da najprije spojiš šavove a onda sredinu kutije.

Pin box around, but first where are the seems and than middle of the box.

Šivaj za širinu stopice.

Sew with $\frac{1}{4}$ inch seem allowance.

Okreni kutiju kroz otvor ostavljen sastrane na podstavi.

Turn the box inside out through the opening on side of lining fabric.

Zašij otvor na podstavi.

Close opening on lining fabric.

Prošij uz rub kutije za širinu stopice kako podstava ne bi izlazila van.

Topstitch around the box.

Čestitam!

Sašila si kutiju od tkanine.

Congratulation! You sew the fabric box.

Sad za vježbanje pokušaj napraviti kutiju u drugoj veličini i sa drukčijim tkaninama. Možeš na glavnu tkaninu radi čvrstoće još prošiti silikonizirano punjenje. Pogledaj moje kutije na društvenim mrežama.

Now for practise try to sew new box in new dimension and different fabric choice. You can stitch batting on main fabric for stiffnes. You can find it on my boxes on my pages on social networks.

Thanks!

Maja
