Hi!

I'm Francisca Nunes a mixed media artist. I love the idea of freedom when I'm creating. So I use color, papers, scribbles, texture and marks to guide me through the creative process. I'm very influenced by nature and all those references appear on my work.

I can define my art as intuitive, free and nature inspired.

I created this set using my own art. You can rip, tear, paint over, collage... feel free. Just have fun!

Thank you so much for downloading this set. Hope that you enjoy all of them and have fun creating.

Warmly,
Francisca
