Si todavía no estás familiarizada con la planificación semanal de comidas, puede parecerte una práctica difícil de alcanzar o una tarea abrumadora, pero en realidad es un procedimiento muy simple que puede cambiar los hábitos de alimentación de tu familia.

El sistema más simple y efectivo para organizar las comidas consiste en dividir la planificación en tres pasos claves:

- Seleccionar las recetas favoritas de la familia
- Comprar los ingredientes
- Preparar tus comidas

Estos pasos pueden parecer bastante obvios, y en su mayor parte lo son, pero hay una estrategia crítica dentro de cada uno de ellos. Es la estrategia que hace que la planificación de comidas valga la pena.

Permíteme preguntarte por qué estás interesada en planificar tus comidas:

¿Buscas variedad?

¿Para ahorrar dinero?

¿Comer mejor?

¿Prevenir el desperdicio de alimentos?

¿O para tener una respuesta a la pregunta diaria de tu familia sobre qué hay para cenar?

Comienza eligiendo el menú o buscando las recetas con mucho cuidado y prestando atención a los gustos de tu familia. Nada peor que matarse cocinando para que finalmente nadie quiera comer lo que has preparado. La elección de tus recetas es el paso más crítico, ya que pone en marcha todo este proceso. Empieza a pensar en tu plan de alimentación.

Trata de incluir en tu menú comidas que puedan prepararse con sobras que tienes guardadas en el refrigerador.

Reúne una lista maestra de recetas que ya sabes que funcionan para tu familia. Luego agrega una o dos recetas nuevas cada semana (solo si lo deseas).

Elije recetas basadas en ingredientes comunes: comienza mirando lo que ya tienes en tu refrigerador, el freezer y la despensa.

Luego, usa un proceso de 2 pasos para una lista de compras más inteligente.

- Lista de Ingredientes
- Lista de Compras

Primero haz una lista de ingredientes de cada comida que además, te servirá para hacer un inventario de lo que hay en tu cocina. Ahora tienes una lista muy precisa que puedes convertir en una lista de compras.

Lo que vas a hacer con esta lista de compras es optimizarla.

Comienza agrupando los ingredientes por categorías (lácteos, conservas, carnes, cereales, etc). Consejo: deja la sección de congelados para el final y así evitar cortar la cadena de frío de los alimentos.

Una vez que tengas las compras del super realizadas, ha llegado el momento en el que el plan realmente se convierte en cena.

Pero hay un paso más que seguramente te ayudará a vencer la fatiga de cocinar durante la semana: Cocina en cantidades y luego friza en porciones.

La planificación de las comidas no es difícil, pero tampoco es un paseo por el parque, especialmente cuando eres nueva en esto.

Con el tiempo aprenderás qué no debes hacer, las cosas que debes mejorar la próxima semana, los pasos que puedes omitir y cómo personalizar la planificación para que se ajuste a tus necesidades y a las de tu familia.

El Planificador Semanal de Comidas es una herramienta que te ayudará a organizar todas tus comidas optimizando al máximo tu tiempo, esfuerzo y dinero.

Y ahora sí, ¡Comencemos con nuestra planificación!
