Let's get started!

Step 5: Promote Using the 4 P's Framework

Watch: The Quick Start Video Training

Estimated Time: 2–3 hours to launch your first posts

Marketing is the fuel that drives your business. In this final step, you'll create and share simple videos that showcase who you are and what you're offering using the **4 P's of Personal Marketing:**

The 4 P's Framework:

- **Plan** – Share your goals and your “why”. Why you started this journey and what can this website do to help you reach your goal.
- **Prospective** – Talk about what’s possible with this system (time freedom, income, impact)
- **Proof** – Share your story, testimonials, or others’ results (use what’s available from the course)
- **Personality** – Let people get to know the real you! Energy and authenticity sell.

Action Plan:

- Record 3 short videos using your phone
- Post to your Facebook, Instagram, Youtube or TikTok
- Engage with comments and direct messages
- Share your website link in posts and bios

Your first post could generate leads within 24 hours.

Final Step – You’re Ready to Launch!

In just one day, you’ve:

- Set up a powerful, automated business system
- Installed a high-converting sales website
- Connected a payment processor to get paid
