## FOR YOU TO KNOW:

---

This mini step-by-step guide lays the foundation for creating a plan uniquely suited to your lifestyle, energy, and mental clarity.

As women, embracing our feminine flow is key for lasting transformation. The best time to dive into this process is when you're most receptive, ideally during the \*spring\* phase of your cycle—when creativity blooms naturally.

Of course, this is just a gentle suggestion from one sister to another, not a requirement.

## A BIT ABOUT ME

My mission is to empower women to embrace their feminine grace and live authentically through every life stage—from conception to motherhood and beyond. Through my digital products, coaching, and programs, I help women break free from societal limitations, thrive outside the matrix, and confidently become their own boss, all while nurturing balance, wellness, and joy. As a mother, author, and speaker, I'm committed to guiding you toward a life of purpose, freedom, and vibrant well-being. ✨

## STEP 1-KNOW WHAT YOU WANT

Take the time to perform the below exercise in a quiet environment when you are stress-free and fully present to take charge of yourself:

- Assess your current situation and list your dreams
- List what you want more of in your life
- List what you do not want in your life (this could be things, individuals, feelings or some situations)
- Draw a circle with your name in the middle or your initial
- Surround this circle with beams of light
- Now is the best part:
- Draw a line from your center bubble of light to each of your wish of your dream job. Be as specific and detailed as you want.
- Contemplate your creation and deeply know that this has all been done for you.
- Express gratitude for your dream job and commit to perform aligned actions until it manifest into this very moment of your reality.
