TO DEVELOP YOUR INTUITION

MY EXPERIENCE OF GENIUS WAVE

Back in January, I started listening to the Genius Wave meditation with the intention of developing my intuition.

What unfolded has truly astounded me.

Almost immediately, I began receiving powerful downloads about our Magnetic Human Nature and how we co-create with the universe. Those insights revealed a connection between ancient spiritual wisdom and modern quantum science—showing me the hidden mechanics of creation itself.

This is how Carlene's Creation Code was born. Through these meditations, I was able to piece together a puzzle that had been hidden in plain sight, leading to a spiritual-science awakening I now teach.

I believe the Genius Wave meditation—which uses scientifically proven soundwave technology to activate intuition—is what helped me unlock these “creation codes.”

Of course, everyone's journey will be unique. But if you're seeking to:

- Deepen your intuition
- Strengthen your connection to Source and Higher Self
- Open yourself to fresh insights, inspiration, and new possibilities in your life

...then I wholeheartedly recommend giving The Genius Wave a try.

WHAT IS GENIUS WAVE

The Genius Wave is endorsed by a former NASA neuroscientist.

Research has shown that 98% of people are born with genius-level abilities, thanks to the Theta brainwave—what we call the Genius Wave. But our modern way of life suppresses this wave.

The Genius Wave audio helps reawaken your natural genius—fast. Just listen for 7 minutes a day and allow the soundwave frequencies to do their work.

Over \$30,000 has been invested in developing this program, and it's already helping thousands worldwide tap into higher intuition and creativity.
