HEY, I'M MAURICE

I have studied marketing because I helped connecting brands with people. After beeing stuck in a 9-5 for years, I worked in the field I loved but I was living far away from my family and felt like the only missing part is having freedom and agency about my life.

With Digital Marketing, you have the chance to be your own boss, and work whenever and wherever you want, while having the opportunity to help others. I'm exited to welcoming you on your own path towards freedom!

WHAT YOU'LL LEARN

In this chapter, I'll explain how you can make money online with digital marketing, and learn about PLR & MRR rights!

DIGITAL MARKETING 101

Digital marketing in the most basic terms is the art of selling products, typically digital ones, using online platforms like Instagram, TikTok, Pinterest, Facebook etc. It is one of the biggest opportunities to make an online income for complete beginners since it's a low-cost but high-return system.

You can create and sell your own digital downloads, such as ebooks, workbooks, content creation templates, website layouts, courses, and more.

You also have the option to “content repurpose” and sell products that are “done-for-you” aka hold MRR or PLR rights.

I'm sure you're wondering what that means, haha I'll explain that on the next page! Typically these products are either low-ticket or high-ticket, so I'll explain that first!

LOW-TICKET & HIGH-TICKET DIGITAL PRODUCTS

You might be familiar with the terms low-ticket and high-ticket digital products, but what exactly does that mean when it comes to making passive income?

Low Ticket

Low-ticket digital products refer to more affordable digital items, typically priced between \$20 and \$100. Their lower price point makes them easier to sell and more accessible to a broader audience. These products, like ebooks, guides, checklists, and templates, are particularly favorable for beginners due to their simplicity in creation.

High Ticket

On the flip side, while high-ticket digital products come at a higher price point they typically offer extensive value and in-depth content. While they require more effort to create and sell, the returns are significantly higher. Common examples include courses and coaching programs. The distinction between low-ticket and high-ticket products is crucial for understanding the varied dynamics of the digital product market.

DONE-FOR-YOU DIGITAL PRODUCTS

Ok now I'll explain done-for-you (DFY) digital products! **This business model is unique because it provides ready-made products you can resell for 100% profit offering a shortcut to your digital success.**

DFY products are a great starting point because you don't need experience or expertise aside from some basic canva skills, which can be easily learned! It's a total game-changer for quickly creating passive income.

The two most common types are "Private Label Rights" (PLR) and "Master Resell Rights" (MRR).

MRR "MASTER RESELL RIGHTS"

"Master Resell Rights" (MRR) refers to a type of license that allows you to resell a digital product and allows your customers to resell it as well! **I only sell courses with this license, meaning you not only get to learn everything in the course, but then, if you'd like to you can resell it and keep 100%!** At first I was worried it was some kind of scam, or MLM but the more research I did the more I realized since theres no upline or downline, no one else is benefitting but me! And you will too!

PLR "PRIVATE LABEL RIGHTS"

"Private Label Rights"(PLR) is even more unique because they are digital products that you have the option to edit, rebrand, add to or take away from and sell as your very own and of course keep 100% profit as well. Most of the guides and workbooks I create and sell will not only have MRR attached, but PLR as well. This helps you get your business going 10x faster and gets income into your bank account sooner than anything else.

IDENTIFYING YOUR NICHE

2 PAGES

LET'S
DO IT

WHAT YOU'LL LEARN

Your niche is your area of expertise or the people you want to help with your business. I'll help you identify it here!

IDENTIFYING YOUR NICHE

Your “niche” is what sets you apart from others. By choosing a specific niche, you're essentially focusing in on a certain target audience or group of people that have interests that align with the topic or focus of the product, course or service you're offering.

A mistake that's commonly made is trying to be too broad for the fear of not getting customers or excluding certain people.

But when we try to appeal to everyone, we end up reaching nobody and that's the reason why we want to be very specific when choosing our target audience.

Once you decide or identify which niche you'd excel the most in, you'll better be able to serve your target audience. Knowing WHO you're creating content for will help you tailor it to speak to the exact person you want to help or impact!

On the following page you'll find an exercise of questions to help you identify your niche.

Set aside 15-20 minutes, grab some paper and a pencil and take your time with each question. If you need to, come back to it. There are no right or wrong answers! Just have fun and enjoy the process!

1. WHAT AM I PASSIONATE ABOUT?

What topics genuinely excite and energize me?

2. WHERE DO I EXCEL IN EVERY DAY LIFE?

What skills or knowledge do I possess that others might find valuable?

3. WHO AM I EAGER TO HELP?

Is there a specific group or community I want to support or provide value to?

4. WHAT PROBLEMS CAN I SOLVE?

What common issues or challenges do I see around me that my product could help with?

5. WHAT AM I NATURALLY GOOD AT?

What topics or areas of life do I find easy? ex: God-given gifts

6. WHAT SETS ME APART FROM THE CROWD?

What unique perspective, experience, or approach do I bring to the table?

7. WHAT EXCITES ME LONG-TERM?

Can I see myself staying passionate and committed to this niche in the long run?

8. WHO WOULD BENEFIT MOST?

Who would benefit the most from what I have to offer, and who am I most excited to serve?
