

AIIS, practical user guide.

What is AIIS?

AIIS is a platform that uses artificial intelligence-based bots to automatically generate income. Basically, you can rent a bot that works for you and generates daily returns. It is not a risky investment, but rather a rental system with a refundable deposit. You can also increase your returns by connecting with other users on the platform. In short, your returns include the bot's daily earnings and your team's commissions.

We can also earn without renting and without finding other people, but logically the earnings are minimal.

The increase in earnings also exists with consistent daily work, but we'll see all this later. Now let's see how to register, authenticate, and the daily work to be done.

IMPORTANT! YOU MUST BE 25 YEARS OF AGE OR OLDER!

Register:

We will receive a link like this from the person who invited us (you can safely use this link to register).

The link below is clickable, so go ahead and click on it to register:

<https://www.aiaiis.net/#/login?type=register&code=04975602>

Click on it and you will be taken to this page:

Invitation code

76358149

☒ Please make sure your account is secure. When you click confirm and log in, you agree to use our [《Privacy Policy》](#)

Already have an account? [Log in](#)

There are only two fields to fill in here:

- Cell phone number
- Password (create it and write it down somewhere so you don't forget it)

PS. IMPORTANT!! BEFORE ENTERING YOUR MOBILE NUMBER, CHANGE THE INTERNATIONAL DIALING CODE!

If you do not live in the United States, change the +1 to +39 for Italy.

The “Invitation code” field will be automatically filled in with the code of the person who invited us.

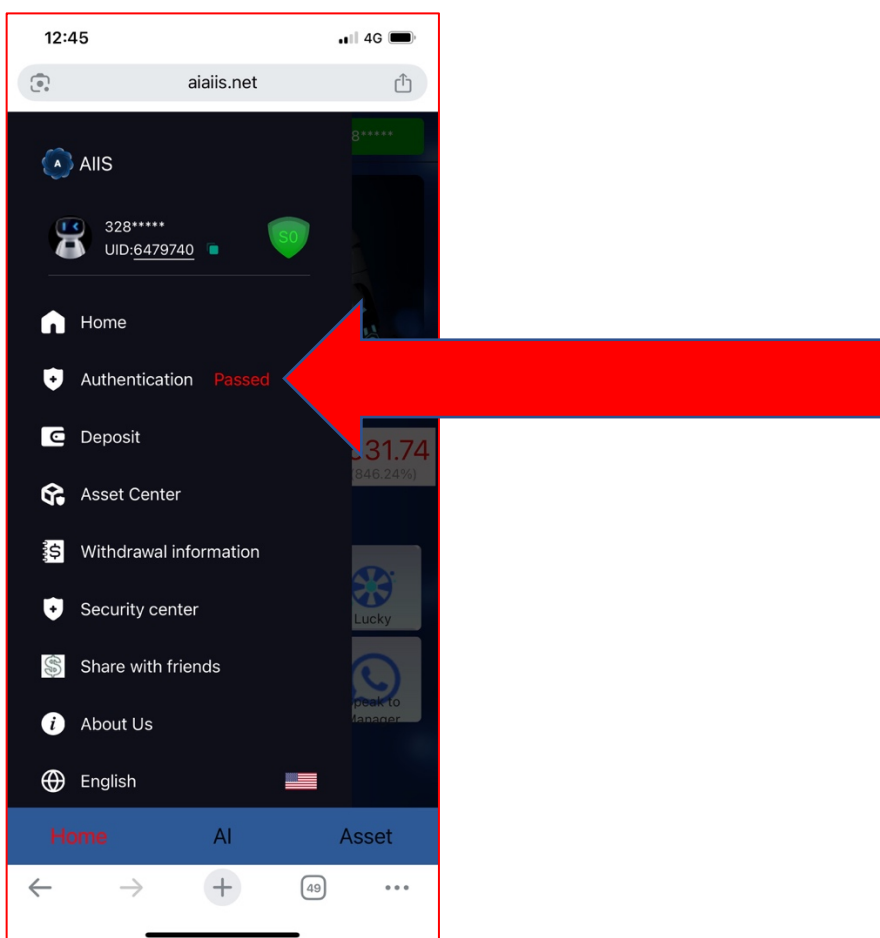

Click on “Send” to receive the code to be entered in the “Please enter verification ...” field in order to verify your mobile phone number.

Finally, click on “Register” at the bottom.

AUTHENTICATION:

Now you need to authenticate yourself, so click on the menu (the three horizontal lines) at the top left and then click on:

“Authentication”:

On the following page, fill in each field.

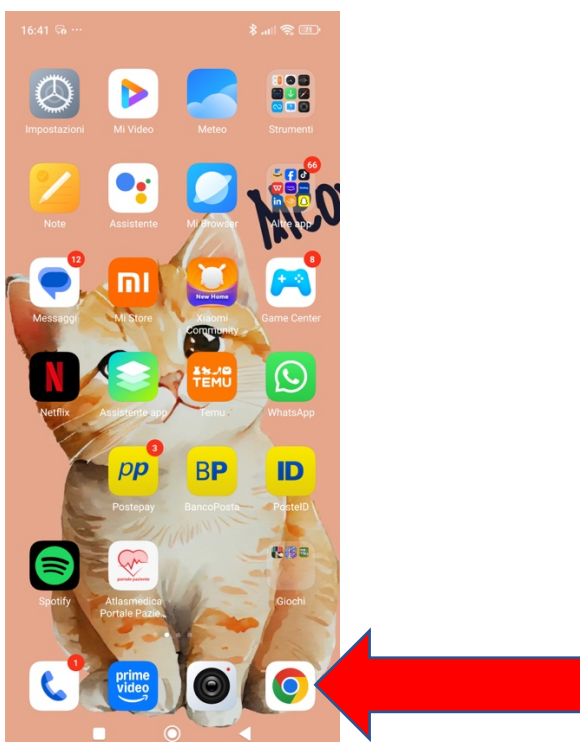

The ID is the number of your chosen document.

IMPORTANT! Take a photo of your chosen document, making sure that the numbers and text are clearly visible and not blurred or cut off.

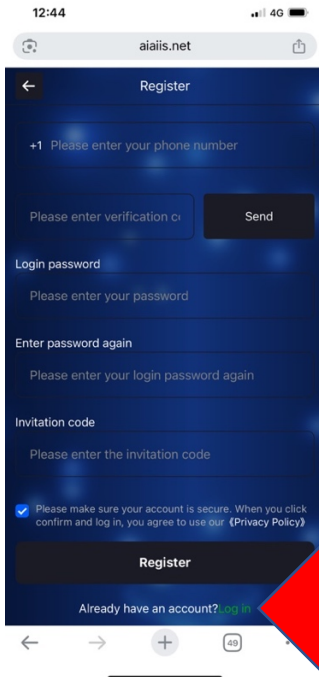

After doing this and confirming, we can return to the homepage. If we have logged out, we log back in.

PS: It takes a day or two for the documents to be accepted.

Let's get started. We need to go to the AIIIS website, so click on the Chrome icon:

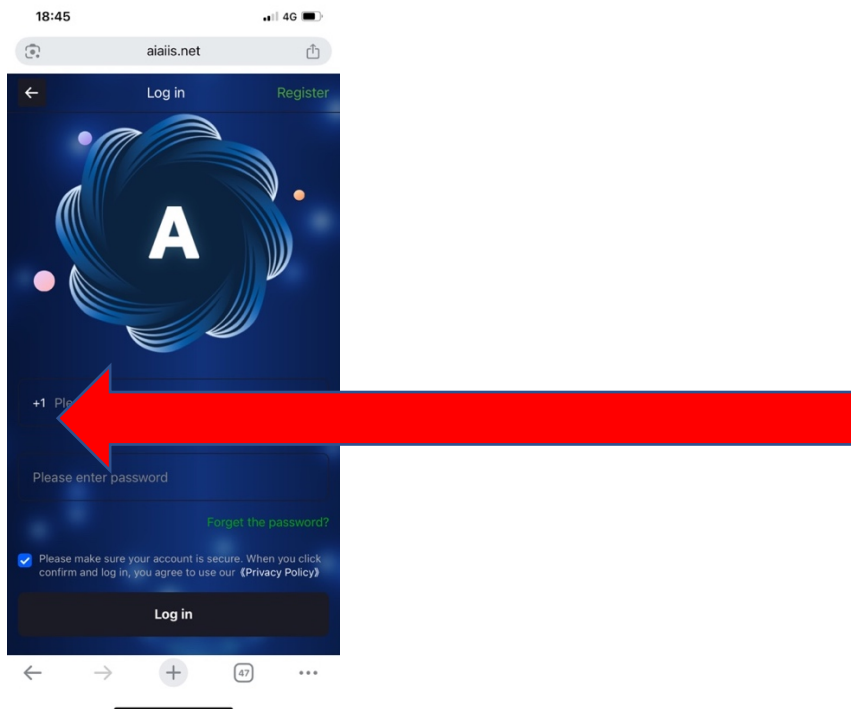

We are now on the AIIS homepage, where we will log in:

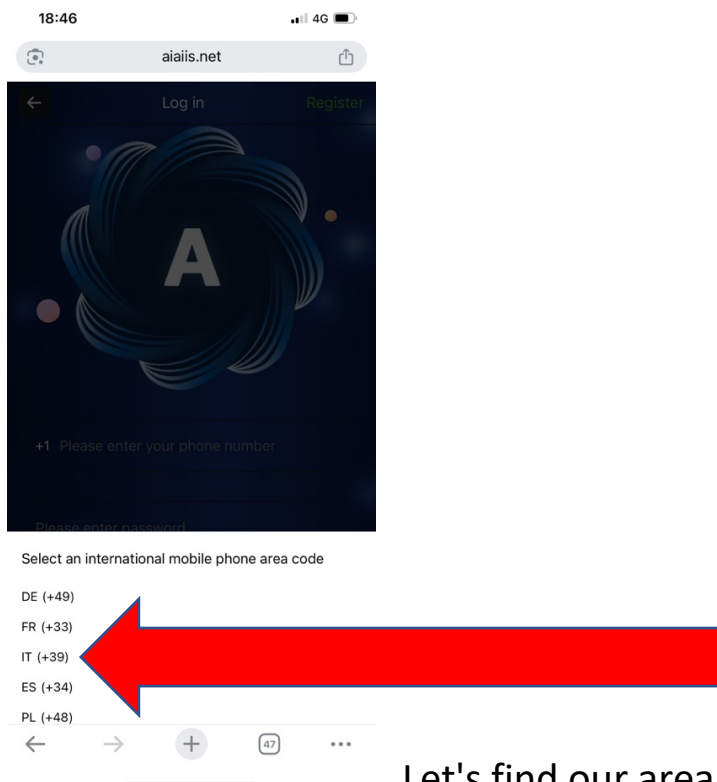

Click on the small “Log In” button.

We will see this screen and we need to click on the small “+1”, which is the international prefix.

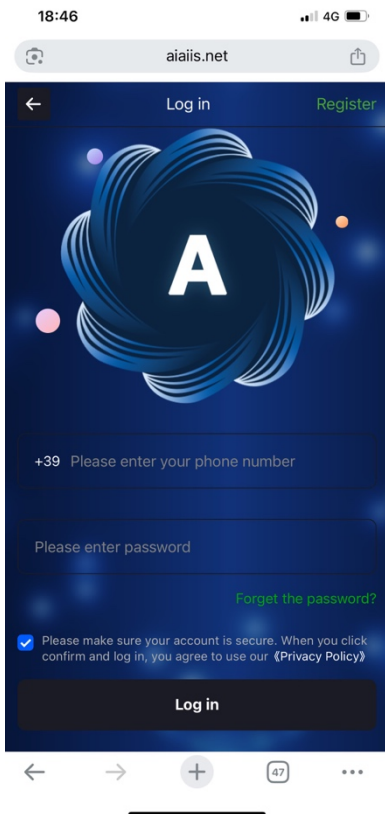

If you live in the United States, you can leave +1, but if you live in Italy, you must change it to +39. If you live in other countries, you must select your country code.

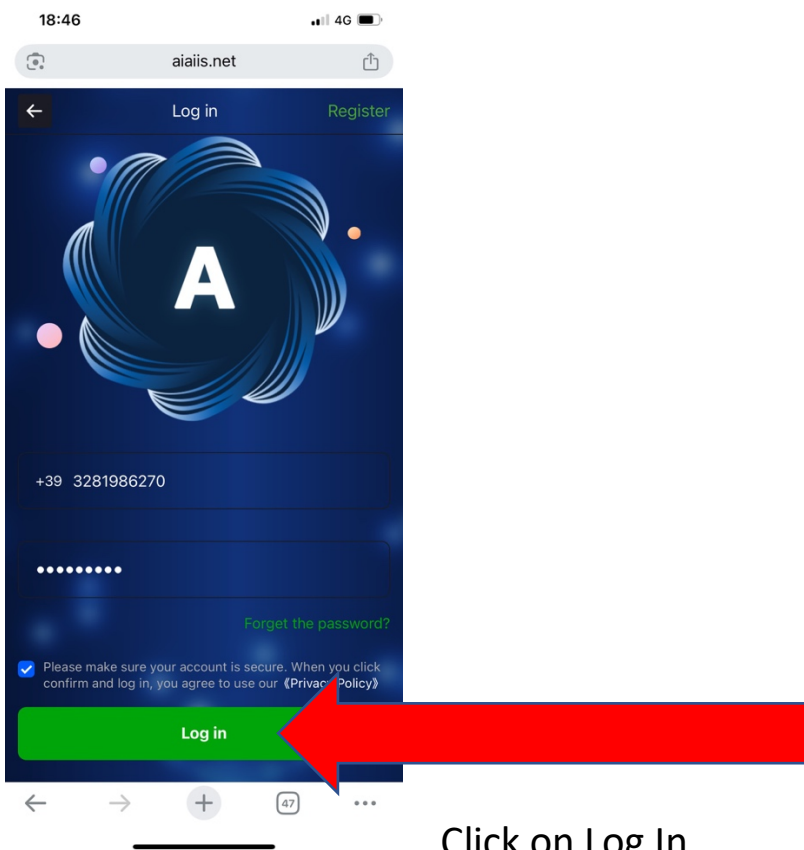

This small window will appear:

Let's find our area code.

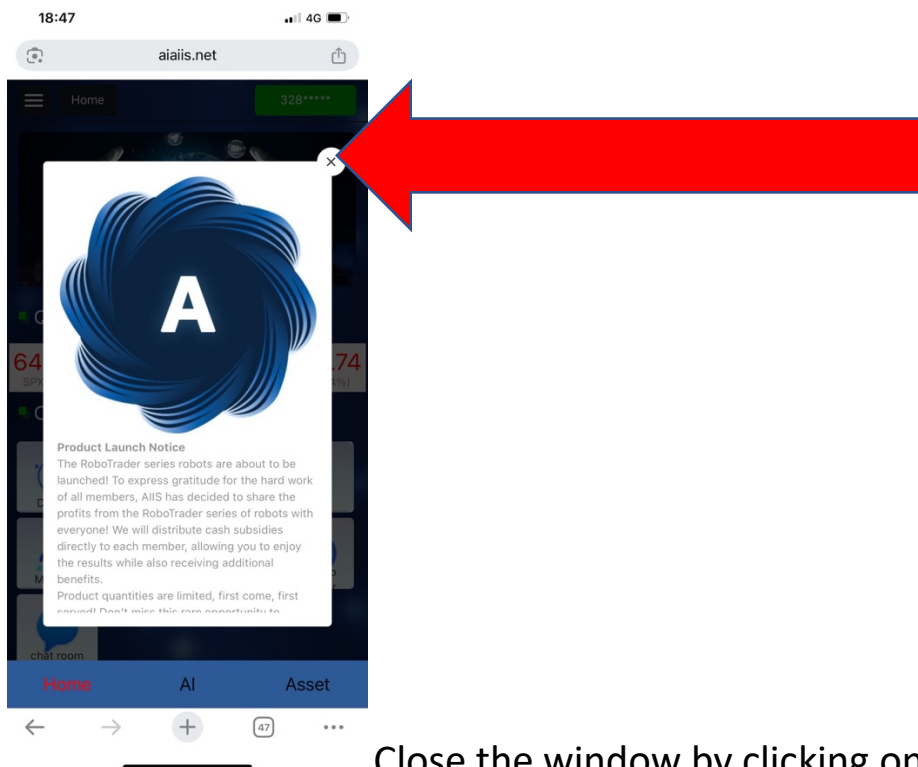

Now let's fill in the cell phone number and password fields.

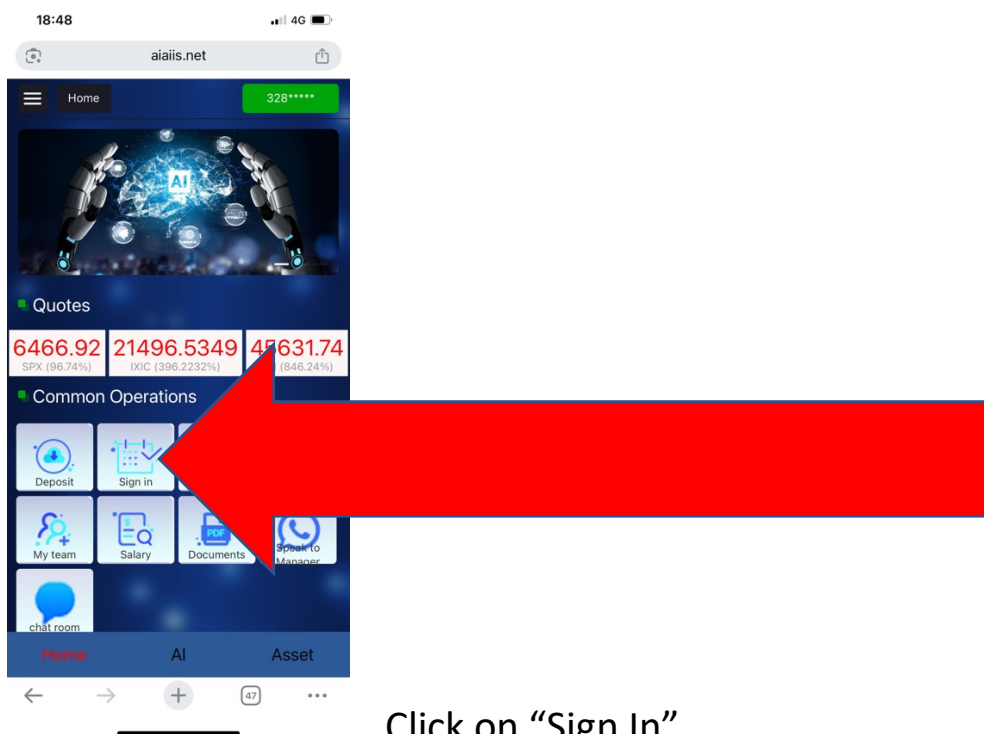

Click on Log In

We are here on the Homepage:

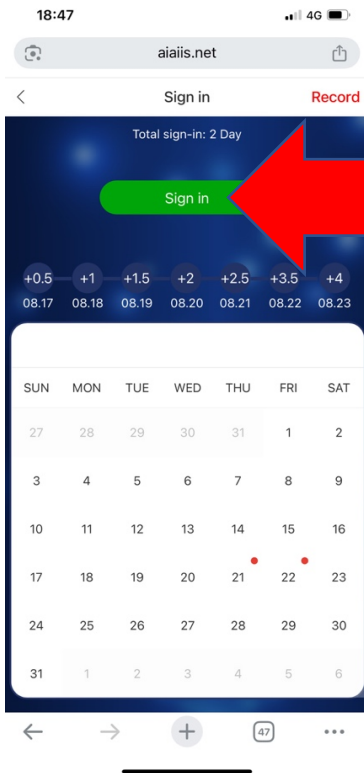

Close the window by clicking on the “X”

Now we are on the Home page and we can proceed with the daily task:

Click on “Sign In”

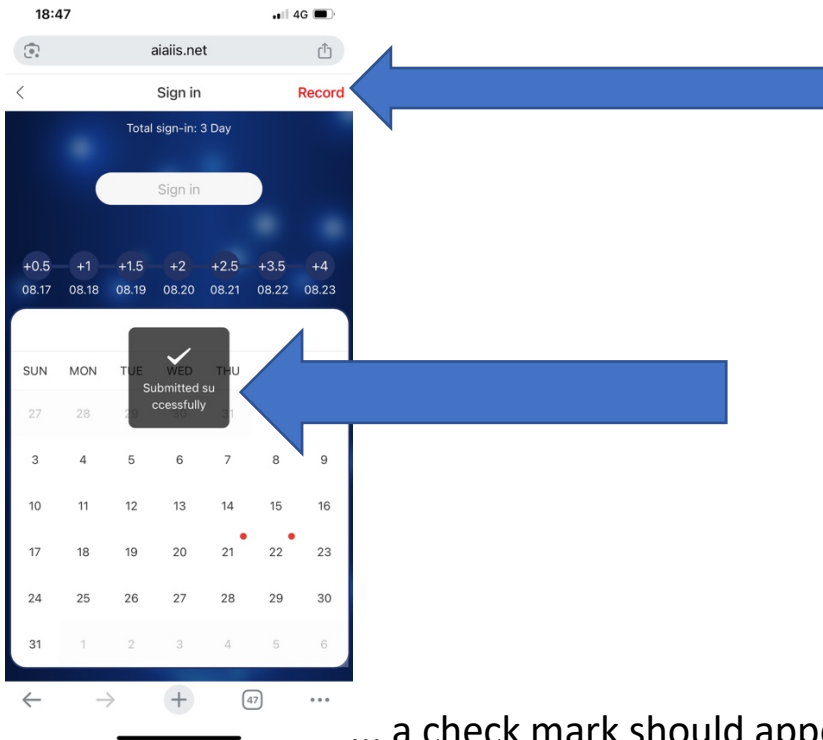

We arrive at the screen:

Click on the large “Sign in” button and a red dot will appear on today's date in the calendar.

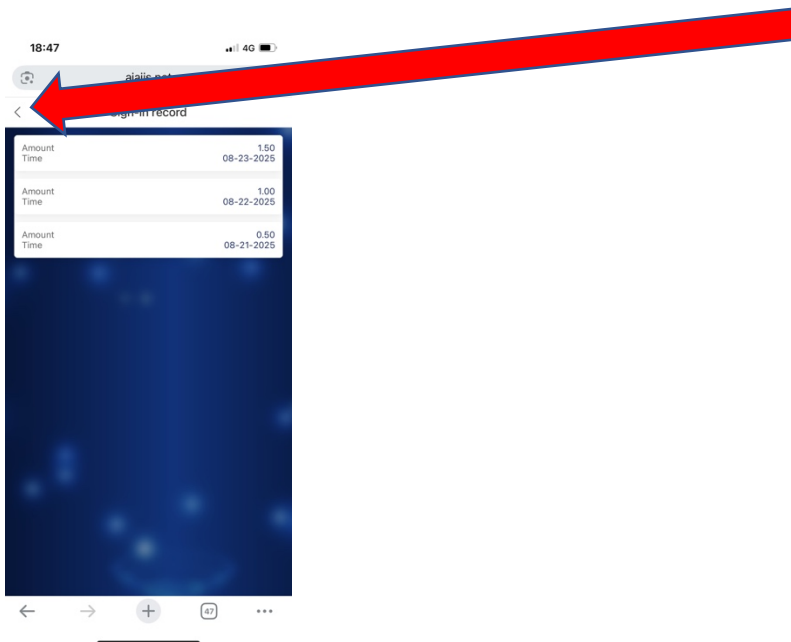

We have completed the task.

IMPORTANT! After clicking on the button for the task...

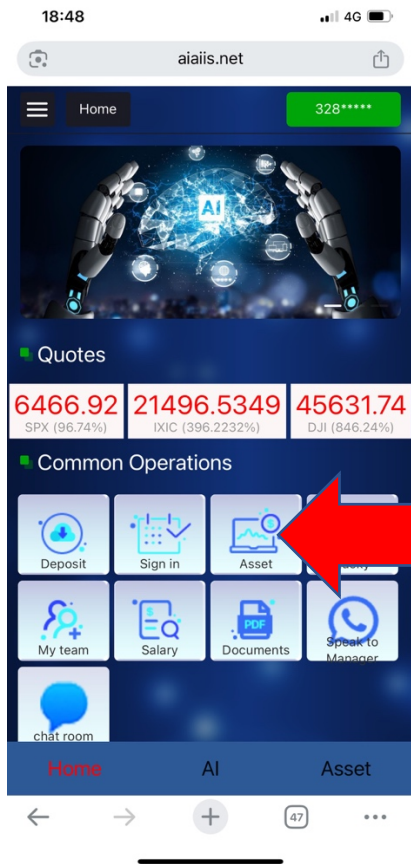

... a check mark should appear to confirm that the task has been completed, as shown in the image above....

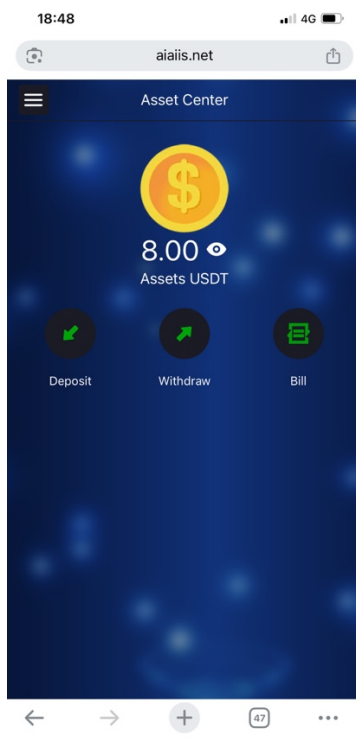

... then click on the red “Record” button to record the task, which will take you to the recordings:

That's it, click on the arrow at the top left to go back, we're now back in the calendar, click on the arrow again and we're back on the home page:

Click on “Assets” to see the money you have accumulated.

With that, we have concluded.

We can exit Chrome.

By doing this work without investing and without finding people, the earnings are scaled:

1. Day = 0,50 cent
2. Day = 1\$
3. Day = 1,50\$
4. Day = 2\$
5. Day = 2,50\$
6. Day = 3,50\$
7. Day = 4\$

For each person we find, we earn a one-time payment of \$15. (We can recruit our wife, girlfriend, etc.) and the daily earnings increase.

If we want to invest... \$100 for example, we can get a bot, a robot that does the work for us and will bring in \$10 a day.

With 100 people, we will no longer have to do the daily work and we will earn a real salary, as the bots work for us.

Support is constantly available in the chat every day, so we can get information and constant updates whenever we want.

Community group chat.

I'm sure you'll have lots of questions or doubts about this opportunity.

Write to me using the contact details below, write the word “Work” and you will receive all the information about this fantastic opportunity. Don't worry if I don't reply immediately, I reply to everyone:
